

The Boyband Murder Mystery By Ava Eldred I found the girl's relationships so well written and realistic and was completely overcome with emotion at the end when it was time to say goodbye! I felt like I was part of their fandom family. The power of fans to solve a murder is such a brilliant premise and Harri and Jas absolutely live up to the challenge both going on their own journeys of self discovery as well as some seriously badass crime solving! But ultimately this novel is about the friendships that are born from a shared identity and will long outshine the stardust of any boy band. The Boyband Murder Mystery I adore YA thrillers/murder mysteries and I knew I had to give this one a read when I saw the synopsis! Unfortunately I couldn't suspend my disbelief for this book. A fun read but one to suspend disbelief for! The Boyband Murder Mystery 'I have long believed that loving a boyband brings with it a wealth of transferable skills but I'd never imagined solving a murder would be one of them' Harri and her best friends worship Half Light an internationally famous boyband:

I loved this book! I had no clue who was behind the murder so was completely sucked in as Hari and co. The murder investigation is what drives the story but it's also about friendship and family and belonging: The Boyband Murder Mystery Original premise full of heart and fandom: An excellent addition to the YA Murder Mystery genre and a book that really highlights female friendship. The Boyband Murder Mystery Just loved this book from a brilliant debut author: What a page turner and it kept me gripped until the very last page, Look forward to her next! The Boyband Murder Mystery A sparkling heartwarming YA debut about how having a passion should never be underestimated: The writing feels middle grade than YA and the mystery elements were lacking leaving the plot feeling a little simple and bland: The few clues that were uncovered were so obvious that I was unclear how the police (or anyone) could ever have missed these: I was also confused as the story gave the dramatic impression of end of the world stakes yet this could not have been further from the truth: Perhaps because I did not have a favourite boyband as a teenager I am missing the nostalgia that some people have experienced when reading this. When frontman Frankie is arrested on suspicion of murdering his oldest friend Evan Harri feels like her world's about to fall apart, But quickly she realises that she and all the other Half Light superfans out there know and understand much about these boys than any detective ever could: Now she's rallying a fangirl army to prove Frankie's innocence and to show the world that you should never underestimate a teenage girl with a passion The Boyband Murder Mystery.
