

How Did We Find Out About Black Holes? Isaac Asimov By Isaac Asimov How Did We Find Out About Black Holes? Isaac Asimov This is a wonderful book to interest middle school students on science Plan de la rue

Isaac Asimov (/ˈaɪzɪk ˈæzɪmɒv/; born Isaak Yudovich Ozimov; circa January 2 1920 April 6 1992) was an American author and professor of biochemistry at Boston University best known for his works of science fiction and for his popular science books. Later beginning with Foundations Edge he linked this distant future to the Robot and Spacer stories creating a unified future history for his stories much like those pioneered by Robert A. He wrote hundreds of short stories including the social science fiction Nightfall which in 1964 was voted by the Science Fiction Writers of America the best short science fiction story of all time. Most of his popular science books explain scientific concepts in a historical way going as far back as possible to a time when the science in question was at its simplest stage. Examples include Guide to Science the three volume set Understanding Physics and Asimovs Chronology of Science and Discovery as well as works on astronomy mathematics history William Shakespeares writing and chemistry:

Discusses why scientists believe in the existence of black holes what they are how they are formed and how they are detected. Asimov was prolific and wrote or edited than 500 books and an estimated 90000 letters and postcards: His books have been published in 9 of the 10 major categories of the Dewey Decimal Classification. Clarke he was considered one of the Big Three science fiction writers during his lifetime: Asimovs most famous work is the Foundation Series; his other major series are the Galactic Empire series and the Robot series. The Galactic Empire novels are explicitly set in earlier history of the same fictional universe as the Foundation series: Heinlein and previously produced by Cordwainer Smith and Poul Anderson. Asimov wrote the Lucky Starr series of juvenile science fiction novels using the pen name Paul French: Asimov also wrote mysteries and fantasy as well as much nonfiction. He often provides nationalities birth dates and death dates for the scientists he mentions as well as etymologies and pronunciation guides for technical terms: Asimov was a long time member and vice president of Mensa International albeit reluctantly; he described some members of that organization as brain proud and aggressive about their IQs. He took joy in being president of the American Humanist Association: The asteroid 5020 Asimov a crater on the planet Mars a Brooklyn elementary school and a literary award are named in his honor, Photo by Phillip Leonian from New York World Telegram Sun [Public domain] via Wikimedia Commons. Asimov wrote hard science fiction and along with Robert A. Heinlein and Arthur C. Bio from Wikipedia the free encyclopedia..
