

Fairy Tarot Cards: A 78-Card Deck and Guidebook : Valentine, Radleigh By Radleigh Valentine The box is beautiful and the inside is even better the cards are slippery and smooth so they shuffle well for my small hands some were stuck together but that's nothing a bit of shuffling can't sort. The images are so creative and magical but the best part is when I do a spread I can get a clear direct reading from the words and the small sentences on the cards and they resonate with the question I asked or the tarot spread I am doing I love the silver sides of the cards and found that the answers to the questions asked I don't even really need the book the cards are clear and direct enough so should be easy to do readings for other people I hope but for now I'm going to enjoy them for myself. I will enjoy now! Gliders I have almost all Doreen Virtue card decks.

A reissue of the internationally best selling Fairy Tarot Cards by Doreen Virtue and Radleigh Valentine. The wisdom of the fairies inscribed on each card and explained in the accompanying guidebook will help you put your life on the fast track of Divine magic! Fairy Tarot Cards: A 78-Card Deck and Guidebook : Valentine Radleigh The elements of air wands pentacles and cups for the minor arcana have been changed to seasons and the cards are large (or my hands are too small) which can throw you off in the beginning but stick with it. I like the bright colours however this one the one i was so excited about was such a poor quality! i opened my deck and found that printing quality is poor as all cards looked like already used as all corners were damaged. It's first time ever i'm writing such a bad review and i'm really suprised as all decks i purchased before were excelent quality and i gave so many of them as a presents to my friends! I'm not going to return the item as i used it already however i'm very dissapointed as idea of these cards is just amazing as every deck of Doreen Virtue. Also the cards give you the meanings but I think they will still suggest intuitive interpretations to me as well, Only downside is it's quite a wide and thick deck to shuffle. I have a large collection of cards and many are stunning but hard to read so they aren't used. Gliders I've only opened them about ten or twenty minutes ago and I'm completely in love: A good buy I think these are going to become my favourite ☺ thank you, X Gliders Some folk have complained about the condition of these cards. The only thing I needed to do was to separate some of the cards that were stuck together No other problems at all, Same great content that made the original deck so successful now with Radleigh as the sole author, Previously published as Fairy Tarot Cards by Doreen Virtue and Radleigh Valentine. The fairies are nature angels who assist us all with earthly concerns including increasing our self confidence in our ability to make a positive difference in this world, The 78 gorgeous cards in this deck are geared toward helping you wear your invisible crown and fulfill your life purpose: Radleigh Valentine calls Fairy Tarot Cards the self esteem deck because the words and images are imbued with this intention. Inside you'll meet Fairy Kings Queens Princes and Princesses set against the backdrop of iconic Glastonbury England. When you get used to it this is quite an intuitive beautiful deck Gliders I'm not usually into Angels or Fairies finding it all a bit 'twee': It's quite obvious to a tarot fan which suits match with the traditional tarot suits but there's none of the 'scary' images like death devil etc. The box itself after i took it in my hands all beautiful letters just nearly dissappeared as paint was just transferred to my hands and they became violet colour, I hope the rest of the customers are happy with the quality of cards!
