

All Over the Map: A Cartographic Odyssey By Betsy Mason It does still qualify as an interesting coffee table book but your guests may read it and think wow that's fairly dull!! Betsy Mason Very interesting book Betsy Mason : Kudos for a different approach but the chosen material is hit or miss for grabbing your attention or imagination, Still has lovely technical drawings /maps but intermixed with ones you'll skip past and never look at: reinventMobileHeaderPrice { font weight: 400; } #apex_offerDisplay_mobile_feature_div. Betsy Mason My niece was spellbound by the intriguing maps. Betsy Mason Beautiful illustrations of maps etc but to be honest I think I've seen many many maps that I think would have been better for such a book. It's a little how should I put it #apex_offerDisplay_mobile_feature_div: reinventPricePriceToPayMargin { margin right: 4px; } 39% €3317€3317 All Over the Map: A Cartographic Odyssey
