□Genre: fantasy romance □Tropes: gods and monsters fate/prophecy betrayal forced proximity enemies to lovers betrayal I'm not sure if it's a compliment to know that I remind you of a murderous plant" □5/5 □3/5 A Shadow in the Ember (Flesh and Fire Book 1) eBook : Armentrout Jennifer L. The first book in the series Flesh and Fire introduces Seraphena to a young woman who was created with only one purpose to seduce Nyktos and kill him so that her kingdom can be saved. I love big books but I can't deny that while I was reading I wondered if all that at the beginning of the book was necessary but then it became clear that it was I came to understand along the way that some plots were appearing that if she hadn't shown all the precarious reality of that realm maybe we couldn't understand the true weight of Sera's actions as well as everything she discovers later. Like Poppy and Casteel the couple in this book don't resolve their differences in the first book there's a lot of DR out there but I know that with the plot we were shown at the end of the story this could end up resolving faster than looks. I think of the authors I read And I'm a fan Jennifer is one of the most creative when we talk about a plot twist and not just one her books are crammed with smaller plots and at the end of the book you practice freaked out with so much revelation. Me gustó mucho este libro porque me encanta leer libros de Alta Fantasía (High Fantasy) dígame que el autora/autora crea un mundo ficticio muy diferente al nuestro en donde vas aprendiendo más de este universo conforme avanza el libro (incluyendo sus países costumbres creencias etc. Wow a first book amazing love the humour and the story line so far gripping! Hopefully there a journey to come I'm certain there is A Shadow in the Ember (Flesh and Fire Book 1) eBook : Armentrout Jennifer L. Right from the moment that Jen told me she was planning on writing Nyktos' story and that it would be loosely based on the Hades and Persephone myth I knew this would possibly be my favourite A Shadow in the Ember (Flesh and Fire Book 1) eBook : Armentrout Jennifer L. Sera's constant need to say my duty my duty it felt reparative and even though it's obviously a slow burn some parts of the story felt like filler to make the book longer,

A Shadow in the Ember (Flesh and Fire Book 1) eBook : Armentrout Jennifer L. : : Kindle Store A Shadow in the Ember (Flesh and Fire Book 1) eBook : Armentrout Jennifer L: What I like about Jennifer's books is that she's in no rush to get the story started: Sera reminded me a lot of Poppy although I think the first one was even crazier and will definitely get development I already love her as well as Poppy. Nyktos is wonderful a lot of people are saying that they prefer him to Casteel but I honestly came to love them both on the same level (if that's possible), I think that's what I like best about this author she's in no hurry to solve everything in one book I think that's why she's the queen of the cliffhangers, In addition to revealing a lot about their history we came to understand about Poppy's powers that I almost had a heart attack reading: Because you can't finish a book like that and make us wait another year to know the result: A Shadow in the Ember (Flesh and Fire Book 1) eBook : Armentrout Jennifer L: Lo recomendaría a personas que disfrutan del Romance Fantasía y de leer mundos imaginarios aprendiendo las reglas de estos para poder disfrutar del libro: En particular me encantó la protagonista una mujer fuerte y el interés amoroso que es más del tipo
