

AlcheringaWhen the First Ancestors were Created: Ancient Aliens in Australia By 4books.live **EPub AlcheringaWhen the First Ancestors were created equal** Written by way of channeling the Pleiadian captain of the downed mothership that came to Earth to uplift her from the dark reptilian/Draco beings that had lived on her for millennium. **AlcheringaWhen the First Ancestors were Created pdf editor** Regardless this story only mentions who the Draco are and how they created the Reptilians to serve them and then built some beings out of the hominids that were running around the earth a million years ago. **AlcheringaWhen the First Ancestors were Created booklet** Unfortunately as political usually go one side was not being upfront about vacating the premises(the Draco) and for the life of me I can't figure out why they would? They were there first so why give it up to their enemies?So the big mothership goes through the wormhole or whatever it is they use to go through dimensions and boom the reptilians fire on the ship destroying her as her occupants scatter in small ships bound for the surface of Earth. **AlcheringaWhen the First Ancestors were Created pdf editor** Of the 90 who survived they set up camp in a world where they could barely breathe the air(they preferred nitrogen and so I do when I'm at the dentist) and of course all of the bugs and pathogens around the Earth were new to their pristine immune system so it was a desperate situation. **M-m-science-fiction AlcheringaWhen the First Ancestors were created** But we did come 900000 years ago to make the Earth a better place with the idea that as these people died the lower vibrating reptilians could incarnate into their now hybrid bodies and be pulled upward towards the light. **EBook AlcheringaWhen the First Ancestors were created synonym** There was a great sacrifice of a group who came in love and who were betrayed but in the end their sacrifice was rewarded by creating humans who are than just a smart ape running around being enslaved by some beings out of our worst nightmare. **AlcheringaWhen the First Ancestors were createdwordfield** I say this because it seems as the white race is being blamed for everything now days and sure there are some dispicable people out there but color does not make them so. **AlcheringaWhen the First Ancestors were Created booking** Geologists say moldavite is much older than that but who really knows for sure? The very deep cut glyphs in the rock where the ship is shown and the story of survivors in that place do show us that something happened there that was not good. **AlcheringaWhen the First Ancestors were createdon star-new** If you want to release fear and live with love you must read this book! The heart warming story about our ancient past told by Valerie and her star friends is incredibly enlightened it will change your thinking about humanity and the universe forever. **AlcheringaWhen the First Ancestors were Created kindle reader** Perhaps there IS life throughout the universe (but not necessarily life as we know it on Earth) and that we go through countless cycles of reincarnation before we eventually return to the Source of All. **Kindle AlcheringaWhen the First Ancestors were created equal** And maybe some of us have been around for thousands if not millions of years in a variety of body types on various planets and have finally met up again (on Earth) with souls we have worked with over & over again in other lifetimes and different places in the universe. **M-m-science-fiction AlcheringaWhen the First Ancestors were created live** This was an excellent read so much so that I sent to her personally to get a copy of another of her books 'The Book of Love' which I could not source anywhere but from the author in Australia. **M-m-science-fiction AlcheringaWhen the First Ancestors were created** We know that Moldavite is a tektite crystal not of this world but the Author explains how it came about and it will shock you to realise that with this unique crystal you are holding a piece of a crystal mothership that was blown out the sky. **Kindle AlcheringaWhen the First Ancestors were created synonym** Explains our ancestry as part of the narrative so is very interesting from a different perspective as we are not permitted to know and understand our origins so it is left to what we could call non conventional 'outliers' to recite their research and up to you to assimilate and process it along with others that the mainstream decievers promulgate. **PDF AlcheringaWhen the First Ancestors were created equal** (note the Bible as edited nor the evolutionary myth don't cut it!) It was Frank Zappa that said that the mind was like a parachute as it only works well when it is open and this wonderful little volume will appeal mostly to those who approach it understanding that we have been misinformed

propagandised and disenfranchised in the programming that passes for education nowadays will revel in this information.
