All ok French Great quality mapping for a great location French Hiking map of Cortina d'Ampezzo e Dolomiti Ampezzane # 03 published by Tabacco CORTINA DAMPEZZO/DOLOMITI AMPEZZANE 03 (CARTES TOPOGRAHIQ - 1/25. French Good clear map that's easy to get your head around as a regular OS map user: **CORTINA DAMPEZZO/DOLOMITI AMPEZZANE 03vr-2r** Not quite as robust and I found mine fell apart quicker in the wet but the poor had been abused that day: **Book CORTINA DAMPEZZO/DOLOMITI AMPEZZANE 0369 quel** Reliable and easy to use though!! French Excellent map for the middle part of the Alta Via 1 in the Dolomites (Stage 2 5 in Cicerone guidebook), **CORTINA DAMPEZZO/DOLOMITI AMPEZZANE 03 kindle unlimited** French The map itself is fine but after one trip it's falling apart badly. **EBook CORTINA DAMPEZZO/DOLOMITI AMPEZZANE 03a** At this price the map should be made of higher quality paper or paper/plastic hybrid that other maps have gone to: **CORTINA DAMPEZZO/DOLOMITI AMPEZZANE 03mcd99** There doesn't seem to be an alternative to these maps unfortunately. **CORTINA DAMPEZZO/DOLOMITI AMPEZZANE 03q 000** see earlier review paper quality makes good product nearly unusable will look at electronic mapping in future feel ripped off. **Book CORTINA DAMPEZZO/DOLOMITI AMPEZZANE 03a toner** French This map covers most of the area I'll be hiking through in the Dolomites so it's perfect[1]
