. The characters were intriguing and realistic. Many characters and subplots to keep things interesting. He is the new lawyer so is given the lesser cases. I enjoyed reading it. It had a good story to it. I hope to read more books by this author. It was so good that I read it in one day. It is my first book by this author. But that cover is also blown. But it doesn't seem like justice will happen either. This is an exciting read. There are also graphic violent scenes. The situations could have been more tastefully written. Otherwise it was full of suspense and action to the end. The challenge is to prove him innocent . or is he guilty . or is he innocent . or . Nada! The backstory was intricately

interwoven throughout. John Matthews is a MASTER story teller
