Captivating her with needs she never realized she's always had: to have all the love and power in the world as well as glory as she rules next to a man she considers her equal. **X-Men Legends, Volume 2a release date** Jean Grey allowed this fantasy to claim her but once it was shattered she was left with so much self-loathing and dread which she subsequently inflicts to the fiend who fed these desires. **X-Men Legends, Volume 2blue** I would like to believe that a lot of us women in this generation have more control over our agencies.

Feeling as if they were threatening her newfound independence and freedom. **X-Men Legends, Volume 2 books** I have only vague recollections of the cartoon adaptation of this arc in X-Men: The Animated Series and I haven't gotten far from my re-watch of said cartoons just yet.

Let alone her relevance which was why I was uncaring that she was there. **Book X-Men Legends, Volume 2 summary** It was understandable for Jean to overpower Storm during their confrontations especially in her DP form but it also places Storm in a very unflattering way where her capabilities are diminished. **PDF X-Men Legends, Volume 2021** There was even that passing scene in Mastermind's illusion where Jean was a noble woman and Ororo was a servant in her household who tried to escape and so Jean had to whip her. **Kindle X-Men Legends, Volume 2 download** It just wasn't necessary to the story anyway.

They did not anticipate that perhaps she herself is giving up control and choosing to lose the battle instead by righteously as well as selflessly letting go of her powers. **X-Men Legends, Volume 2 pdf online** She recognized the devastation and havoc she had caused when she committed mindless genocide as the Dark Phoenix and she would rather die a mortal than live as a goddess with unbridled passions and a lack of awareness and concern for life. **PDF X-Men Legends, Volume 2 pdf free** I understand why this story is considered an important classic because it does define a lot of future arcs concerning Jean Grey.

Chris Claremont is a writer of American comic books best known for his 16 year (1975 1991) stint on Uncanny X Men during which the series became one of the comic book industrys most successful properties. **X-Men Legends, Volume 2 Comics Graphic novels80** Claremont has written many stories for other publishers including the Star Trek Debt of Honor graphic novel his creator owned Sovereign Seven for DC Comics and Aliens vs Predator for Dark Horse Comics. **X-Men Legends, Volume 2hd** This trilogy continues the Chris Claremont is a writer of American comic books best known for his 16 year (1975 1991) stint on Uncanny X Men during which the series became one of the comic book industry's most successful properties. **Book X-Men Legends, Volume 2 answers** Claremont has written many stories for other publishers including the Star Trek Debt of Honor graphic novel his creator owned Sovereign Seven for DC Comics and Aliens vs Predator for Dark Horse Comics. **X-Men Legends, Volume 2 books** Creative Team:Writer & Co-Plotter: Chris ClaremontIllustrator & Co-Plotter: John Byrne NEW FRIENDS & OLD ALLIESDuring this saga Dark

Phoenix the X-Men meet new friends along with the return of old allies. **X-Men Legends, Volume 2 Comics Graphic novels** It's during this saga that we watch the introduction of Kitty Pryde (aka Shadowcat) which became one of the most popular characters in the X-Men along with proud member of Excalibur and even nowadays is running the cosmos along the Guardians of the Galaxy. **X-Men Legends, Volume 2 kindle paperwhite** Kitty has been playing a pivotal role in the X-Men in several of their most epic sagas like Days of Future Past making her one of the biggest contributions of Claremont/Byrne team to the title. **X-Men Legends, Volume 2 book 4 FROM HELL TO SPACE** In the Dark Phoenix saga the story will take the X-Men to face the fearsome Hellfire Club suffering several defeats during the conflict only to be taken to deep space and dealing with the Shi'ar Imperial Guard. **X-Men Legends, Volume 2c release date** It's during this saga that Wolverine would say his famous line... Okay suckers - You've taken yer best shot! Now it's my turn! Ooooooh yeeaaaah! And you have to take in account that this was way back at the beginning of the 80s and Wolverine wasn't the mega popular character that it's today not having yet none of his solo mini-series and series even Claremont and Dave Cockrum (previous illustrator in the title) considered to drop the character from the X-Men since they liked better Nightcrawler but it was thanks to Byrne (a "fellow Canadian") who worked hard to increase the interest about Wolverine with the audience. **X-Men Legends, Volume 2a release date** The Hellfire Club while having a public front of being a social club for rich people it has an "Inner Circle" where powerful beings (not only in money but in superpowers too) and it's here where you find the introduction of Emma Frost (aka The White Queen) as one of the member of the Hellfire Club and since then a popular character who has been in both sides of the angels from time to time. **EPub X-Men Legends, Volume 2021** However without intention the Hellfire Club's plans will unleashed a danger not only to the world but the entire universe! **TIMING LEAGUES & EXPECTATION** So if Dark Phoenix saga introduced so many iconic characters and it had so epic scope.....why I didn't rate it better? Well I think that it's all about timing leagues and expectations. **Book X-Men Legends, Volume 2 dvd** Timing: The storyline takes too much time to set the factors leading to the unleashed of the Dark Phoenix power while the time invested on the crisis naming the saga I felt that it was too brief considering the title of the saga. **X-Men Legends, Volume 2 book 2** The Hellfire Club beating them over and over again only to engage later against the Shi'ar Imperial Guard where they hardly are holding back but even the main menace which gives the name to the saga it's clear that it's something so powerful that they aren't in the position to stop the threat. **X-Men Legends, Volume 2 Comics Graphic novels** Expectations: Well the name of the saga you think that you'll read a crisis where the Dark Phoenix power will be developed almost since the beginning but you are well past the half of the storyline and you still haven't the Dark Phoenix unleashed. **X-Men Legends, Volume 2 Comics Graphic novels** i mean i know this is a collection of several comic books strung together to make one big fat story and in order to refresh readers' minds as to what happened a month ago or whatever it is sometimes necessary to throw in little callbacks to previous escapades but boy does it end up reading awkwardly: this is my name. **X-Men Legends, Volume 2 ebook reader** having fallen asleep in each of the x-men movies this is what i know: wolverine is cranky and has awesome claws i ♥ alan cumming and the green chick is painted and you can see her boobs. **Book X-Men Legends, Volume 2 download** so this is my question: are all superhero books really about how shitty it is to be a superhero?? because batman never gets to have any fun and everyone in here is miserable: i'm phoenix i am alive now i am dead now i am alive again now i am in the cosmos now i am back in time now i am confused now i am evil now maybe i will die again who knows. **X-Men Legends, Volume 2lp** if these books are supposed to be about idealized men and women (superheroes in general not specifically the x-men who are special cases because they are largely ostracized) and serve an escapist role why are they so unhappy?? and what the fuck is with the dazzler?? i love that she had a spin-off comic that got canceled because everyone hated it (i am pretending that this is something i know but i only know it because greg told me) because really how could this get old?? it was a different time karen i am so glad i was not (really) alive in a time when that character was thought to be a good idea. **Book X-Men Legends, Volume 2 download** come to

my blog! X-Men Legends Volume 2: Dark Phoenix Saga Yay! Now I can officially say that I've read X-Men: The Dark Phoenix Saga! Wheee! Quintessential is a word I've seen a lot in relation to this story. **Book X-Men Legends, Volume 2 book** In fact once I resigned myself to things like the bad guys being referred to as goons and Cyclops and Jean spewing out lines that would make even die-hard fans of romance novels cringe it was a pretty good read! *Snort* No I'm kidding. **Book X-Men Legends, Volume 2 pdf free** Thirdly does anyone else remember that kid in the Xmen movies (was it the third one? It was probably the third one because no one ever mentions that kid because we all tried to forget The Last Stand ever happened) who had the grand power of WRITING WITHOUT A PEN OR PENCIL? That motherfucker definitely has the most useless mutation ever but everybody has to rag on Dazzler cause she likes disco. **X-Men Legends, Volume 2blue** Byrne was a Calgarian (my home town) and he gave birth both to Canada's greatest hero -- Wolvie -- and our greatest superteam -- Alpha Flight -- but he also pencilled some of the greatest sequences in comic history -- and the Dark Phoenix saga was the best of them all. **X-Men Legends, Volume 2a release date** X-Men Legends Volume 2: Dark Phoenix Saga Midway through reading this classic Claremont tale I understood its significance to the X-Men mythology instantly and I also wondered if it had some kind of impact on the role of the female superheroine in comics back then and today. **Book X-Men Legends, Volume 2 dvd** This is quite possibly the most popular and enduring comics story arc in recent memory that any self-respecting fan of the medium will immediately associate the X-Men with and The Dark Phoenix Saga is deemed with such high esteem and praise for many good reasons. **X-Men Legends, Volume 2hd** One thing that I think we all should remember about reading classic storylines from comics that defined and shaped the continuity or characterization of a particular title is to curb our expectations and adjust our preconceived notions about it to something more realistic. **Science Fiction Fantasy X-Men Legends, Volume 2 review** Though it may have been groundbreaking during its time I think it better serves as a commentary of what female superheroines represent in comics before as well as the limited roles they used to play or may continue to play. **X-Men Legends, Volume 2jolt** In general I usually stay away from gender discussions particularly in fiction but it's hard to ignore the implications and symbols present in this story concerning Jean Grey both as herself and the manifestation of the Phoenix. **X-Men Legends, Volume 2lp** [SPOILERS AHEAD!]**OVERVIEW The saga itself is composed of ten issues from The Uncanny X-Men starting from #129-138 which follows the corruption and fall of Jean Grey after she succumbed to the dark and twisted force of her Phoenix power. **PDF X-Men Legends, Volume 2 pdf free** But before that a short background: Some time during the run of said series a mission in space exposes Jean to a deadly radiation of solar flare which seemed to amplify her mutant powers which therefore made her attain the highest potential of her telepathy/telekinesis. **X-Men Legends, Volume 2 ebookee** As she becomes noticeably stronger Jean as the Phoenix was also more lenient in using her powers and various teammates of hers especially Cyclops and Wolverine notice that she's freely using her skills without the usual measured caution that the old Jean Grey had. **X-Men Legends, Volume 2 epub free** The Dark Phoenix arc also served as the introduction of the infamous and exclusive inner circle of the Hellfire Club led by Sebastian Shaw and two iconic characters: Kitty Pryde future Shawdowcat and one of the most memorable X-Men members; and Emma Frost a formidable villain of telepathy who is also dubbed as the White Queen. **X-Men Legends, Volume 2 book 4** The X-Men's primary mission only begins when the Hellfire Club (through Emma Frost) wants to acquire Kitty Pryde who is just starting to become fully aware of her mutant potentials. **Book X-Men Legends, Volume 2 ebook** Pryde was also a candidate for the X-Men so when Professor X Storm Wolverine and Colossus visit her at her home Emma Frost took advantage of the situation and decided to abduct these X-Men on a public location much later on. **PDF X-Men Legends, Volume 2 pdf free** That was the main plot of the first five issues or so of the saga but the developing subplot in the sidelines is that of Jean Grey who has been experiencing timeslips where she is being manipulated telepathically by Mastermind to prove his worth in the Hellfire Club he wishes to become a part of. **Book X-Men Legends, Volume 2 pdf free** He tries to get Jean to turn against the X-Men and for a short time during the story he did manage to turn her

into his Red Queen during a climactic confrontation between our heroes and the Club. **Book X-Men Legends, Volume 2 pdf** Thankfully Jean has embedded Scott with a psychic link so while Jean was presently ensnared by Mastermind Scott tries to win her over through a duel in the astral plane but he fails. **Comics Graphic Novels X-Men Legends, Volume 2 download** Still it was enough to shake Jean back into reality and upon discovering the damage that Mastermind has done she becomes visibly angry--almost vengeful--in a way we have not seen her before. **X-Men Legends, Volume 2 bookstore** This is one of my favorite chilling exchanges in the comic book:[You can view the bigger images [HERE](#)] THE AWAKENING I thought that this was an important moment because of the build-up established from the previous four issues. **Comics Graphic Novels X-Men Legends, Volume 2 dvd** Throughout the earlier installments we saw Mastermind charm his way inside Jean's mind and heart providing her with a beautiful romantic illusion where she was a noble woman from the past enamored with a gentleman named James Wyngarde. **Comics Graphic Novels X-Men Legends, Volume 2 download** He opened her up and then pushed her further into embracing the depths of her desires choices and self-expressions than the women in the earlier generations who have limited options back then. **X-Men Legends, Volume 2 ebook reader** And all the while you were using me! is a statement I know a great number of women in the past and present can relate strongly to; any woman who has been marginalized abused and enslaved at one point in their lives can definitely attest to the freeing strength of this kind of righteous rage which Jean exhibited at this point. **Book X-Men Legends, Volume 2 book** As impressive as Jean was for taking control of that situation it was ultimately the last catalyst that unleashes the disruptive and wild force known as the Dark Phoenix in issue #135. **X-Men Legends, Volume 2 kindle unlimited** She becomes entitled arrogant selfish hedonistic and uncaring as the Dark Phoenix even going so far as attacking her own friends believing that they are the ones holding her back in the first place. **PDF X-Men Legends, Volume 2 pdf free** They were happy to see her of course but the dormant Jean also felt their fear which was a primal instinct that DP picked up on and she lashed out on them so everything about reading this was fresh for me. **X-Men Legends, Volume 2 books** At the end of it all she did break down into tears but that was only a natural reaction to the dangerous life she has yet to know will be her daily existence from that day forward. **X-Men Legends, Volume 2a release date** In contrast Emma Frost is a self-made strong and cunning villainess who may ultimately answer to a domineering male group (Hellfire Club) but she certainly possesses loftier ambitions of her own and seemed to commit heinous acts not because she was forced to do them but rather because she is motivated by her own greed. **X-Men Legends, Volume 2a release date** It wasn't explicitly shown but I get the sense that she could very much decide to leave the men by themselves if she wasn't getting what she wants from them in return and the men may be aware of that arrangement as well. **Book X-Men Legends, Volume 2 book** She was defeated by another woman (Jean Grey) and it was another bonus for me to see that when her role in the story abruptly finished it wasn't because a man did not find her useful anymore. **X-Men Legends, Volume 2hd** Speaking of said later pages---THE IMPOSSIBLE CHOICEThe second climax of this saga arrives when the X-Men (Wolverine Nightwalker Storm Angel and Colossus with recent Avenger-ed Beast) face Shi'ar warriors in a trial by combat arrangement to save Jean from punishment. **Comics Graphic Novels X-Men Legends, Volume 2 dvd** It shows that there is still light and humanity present in Jeannie and she embraces the heroine she was at the beginning at this moment to demonstrate that her friends especially her boyfriend Scott have not lost her. **X-Men Legends, Volume 2 ebook3000** Since I began writing this review with the intention on discussing the role of female characters as the heart of the conflict climax and resolution for this story I want to end it now by recommending this to other young women who will read this review. **X-Men Legends, Volume 2 kindle fire** Often I've made this subconscious decision to ignore the underlying sexist themes and small moments I may encounter every now and then in superhero comic books if they only get in way of enjoyment of a great story (in spite of such flaws). **PDF X-Men Legends, Volume 2 download** I understand that superhero comic books have been majorly written by men in the past (and present with a few exceptions) so old classics like this one can be very dated in the most negative sense possible. **X-**

Men Legends, Volume 2lp But personally I want you to read this because it's a meaningful story about one woman's emotional and psychological journey through the joys and burdens of power and the ultimate sacrifice she chooses to make all for love and humanity. **X-Men Legends, Volume 2ii** Fast forward past galactic exploration to a very long winded and pointless battle between the X-Men and parallel dimensional versions of themselves the X-Men fight Dark Phoenix again Professor Xavier fights Dark Phoenix with some weird anti-energy static field thing (more vague convenient plot device) which doesn't even work then a weakened Jean just sort of blows up. **X-Men Legends, Volume 2ii** knew back then how impactful this speech could resonate now for readers like me who live in an era where the influence of female empowerment continues to grow, **Book X-Men Legends, Volume 2 download** The X-Men luckily came back for another brutal second encounter and it was Professor X who eventually managed to lock the Phoenix away from Jean's subconscious. **Book X-Men Legends, Volume 2 ebook** The victory was not meant to be savored though because Lilandra and the Shi'ar are determined to bring Jean Grey to trial for the genocide she just committed previously: **X-Men Legends, Volume 2 books** This was the falling action of the grand arc that is The Dark Phoenix Saga: **X-Men Legends, Volume 2k23** EMPOWERMENT AND ABSOLUTE POWER There is a true brilliance to Claremont's narrative and progression of this story from the moment Jean Grey was transformed into the Dark Phoenix, **Comics Graphic Novels X-Men Legends, Volume 2 download** The same can be said for Ororo Munroe (Storm) who spent almost all her time in the story being a lesser superheroine next to Jean Grey as the Dark Phoenix, **X-Men Legends, Volume 2 booking** It just made me shake my head because I really didn't think that should have been put there: **PDF X-Men Legends, Volume 2 answer key** It's jarring and slightly insensitive to see a superheroine of color be portrayed like that. **PDF X-Men Legends, Volume 2 pdf** That's how I interpreted that final scene because it makes sense for Jean's character to choose death in order for others to live. **Book X-Men Legends, Volume 2 answers** THE VERDICT The X-Men may never realize it but this is the day they have won perhaps the greatest victory of their young lives, **X-Men Legends, Volume 2 epub download** But it was more important to her that she die a human. **X-Men Legends, Volume 2lp** s (volume 1 issues #10 13) at Image Comics which introduced his creator owned character Huntsman. **X-Men Legends, Volume 2 book 3** Outside of comics Claremont co wrote the Chronicles of the Shadow War trilogy Shadow Moon (1995) Shadow Dawn (1996) and Shadow Star (1999) with George Lucas: **X-Men Legends, Volume 2a release date** s (volume 1 issues #10 13) at Image Comics which introduced his creator owned character Huntsman. **Book X-Men Legends, Volume 2 answers** Outside of comics Claremont co wrote the Chronicles of the Shadow War trilogy Shadow Moon (1995) Shadow Dawn (1996) and Shadow Star (1999) with George Lucas: **Book X-Men Legends, Volume 2 pdf download** This trilogy continues the story of Elora Danan from the movie Willow. **Book X-Men Legends, Volume 2 answers** In the 1980s he also wrote a science fiction trilogy about female starship pilot Nicole Shea consisting of First Flight (1987) Grounded! (1991) and Sundowner (1994): **X-Men Legends, Volume 2jolt** Claremont was also a contributor to the Wild Cards anthology series: **X-Men Legends, Volume 2 Comics Graphic novels80** {site_link} Marvel Legends - Direct Edition X-Men Legends Volume 2: Dark Phoenix Saga The purpose of the X-men was completely subverted in this: **PDF X-Men Legends, Volume 2 answer key** Their actions are genuine and heroic but their foes have also manipulated the world into thinking that they are the good guys too. **X-Men Legends, Volume 2lp** They've hidden themselves rather cleverly in their crime so when the X-men attempt to bring down such a syndicate it makes them look like the bad guys for a change, **Book X-Men Legends, Volume 2 summary** It only took the most minor of manipulations to turn fear and respect into hatred and animosity, **X-Men Legends, Volume 2 ebook reader** And when that's paired with The Phoenix who has just been released from the shackles of Jean grey it makes for a rather intense and fiery plot. **Book X-Men Legends, Volume 2 dvd** The person the individual has practically been destroyed in the process. **Science Fiction Fantasy X-Men Legends, Volume 2 review** So who could stop such a powerful force? Well the rest of the X-men of course. **X-Men Legends, Volume 2a release date** But the Phoenix is almost a Goddess so this isn't going to be a simple fight. **Book**

X-Men Legends, Volume 2 answers She has no mercy no pity and no love which the X-men harbour in abundance for her. **PDF X-Men Legends, Volume 2 pdf download** It's a great quote isn't it? The ending of this was the only one that could ever have been possible; it was dramatic and effective, **Book X-Men Legends, Volume 2 book** The artwork is a little dated by today's standards but that's the problem with older comics: **Book X-Men Legends, Volume 2 pdf** It took me a while to get used to it but eventually it did begin to flow like the story itself, **X-Men Legends, Volume 2blue** What I found quite interesting was how Wolverine didn't take centre stage: **Book X-Men Legends, Volume 2 pdf download** The Wolverine in here is much different to the movie version which was good because it meant that the X-men actually felt like a team rather than a one man army. **Book X-Men Legends, Volume 2 pdf** Because of this each character has a moment in the story, **X-Men Legends, Volume 2 epub download** They're all individuals but they're personalities fit well together. **Book X-Men Legends, Volume 2 summary** I got a real sense of history and comradeship in this because again they felt like team, **X-Men Legends, Volume 2 kindle store** They sacrificed so much of this in favour of Hugh Jackman strutting around killing everything, **Book X-Men Legends, Volume 2 summary** X-Men Legends Volume 2: Dark Phoenix Saga Epic moment in The X-Men's history! WHICH MEANS IT'S ALL FUN AND GAMES UNTIL SHE BLINDS YOUR ASS OR TURNS YOUR BRAIN IN JELLY VIA SONIC BLASTS. **EBook X-Men Legends, Volume 2 pdf free** Depending on your age your Mom probably liked disco too pal. **Science Fiction Fantasy X-Men Legends, Volume 2 review** X-Men Legends Volume 2: Dark Phoenix Saga This is one of the greatest comic book story arcs ever told, **X-Men Legends, Volume 2 Comics Graphic novels80** It has Colossus and Nightcrawler and Storm -- the Russian the German and the African woman -- at their eighties expectation-blowing pomp: **Science Fiction Fantasy X-Men Legends, Volume 2 review** It has the Hellfire Club the Avengers (embodied by Beast) and the Shi'ar: **X-Men Legends, Volume 2 books** Did I mention it has Jean Grey - Phoenix - Dark Phoenix? It does. **X-Men Legends, Volume 2 kindle store** Chris Claremont is one of the all time great Marvel writers. **EPub X-Men Legends, Volume 2021** His dialogue works his plotting works his mind scores multiple hits when it comes to what needs to be said and done. **Book X-Men Legends, Volume 2 dvd** What I do know is that John Byrne's art spoke to me like no other's: **X-Men Legends, Volume 2a release date** I hated the ending (and all its humanist drivel) but the rest of the story was unparalleled: **X-Men Legends, Volume 2jolt** I would have hated the reread of the latter if I'd reread the former first, **Book X-Men Legends, Volume 2 pdf free** If I were to read another comic now it would suffer by comparison and there is no way I could be fair, **X-Men Legends, Volume 2 Comics Graphic novels80** The Dark Phoenix Saga is one of the best stories ever told: **X-Men Legends, Volume 2 books** That's because I consider Jean Grey in this story to be a very empowered representation of what a comic book heroine can become and be undone for at the same time: **Book X-Men Legends, Volume 2 pdf download** I would like to try and touch upon that subject matter in this review. **Science Fiction Fantasy X-Men Legends, Volume 2 review** In my experience some of these classics can exceed expectations while some are just relics that were overhyped, **Comics Graphic Novels X-Men Legends, Volume 2 download** A few of which actually do require further contemplation after finishing them in order to garner a more nuanced appreciation: **Book X-Men Legends, Volume 2 pdf** I can honestly say that The Dark Phoenix is one of them, **Book X-Men Legends, Volume 2 answers** It was a memorable story in itself because the ambiguity in which it was resolved was definitely worth the discussion. **X-Men Legends, Volume 2ii** I don't want this to be some kind of feminist review because I don't have enough credibility to start a dialogue like that here. **X-Men Legends, Volume 2ii** They would only later find out that this observation is just a symptom of Jean's inevitable downward spiral, **X-Men Legends, Volume 2lp** Kitty manages to escape and warn the other X-Men of their comrades: **X-Men Legends, Volume 2jolt** But before all of this Cyclops Phoenix and Nightcrawler are on a mission to find another mutant whom they encounter in a disco club, **X-Men Legends, Volume 2lp** I'm referring to Dazzler who is just so ridiculous that I can't take her seriously while I was reading. **X-Men Legends, Volume 2c release date** Anyway the meat and bones of the action start by the time the remaining X-Men rescue their captured friends with the help of the newly recruited Kitty, **Book X-Men Legends, Volume 2 pdf** Jean Grey's speech addressed to an oppressive overbearing man who fancies himself as the one who holds power over her is just damn cathartic to read, **Book X-Men Legends, Volume 2 book** What comes next is terrifying though because Jean is determined to show Mastermind the price to pay for taking advantage of a woman and using her as your personal puppet. **Science Fiction Fantasy X-Men Legends, Volume 2 review** This extreme manifestation of her powers is ironically the very creature that robs her off her free will and agency. **X-Men Legends, Volume 2 ebooks online** She left them completely devastated as she roamed the outer space looking for something to devour because of this insatiable hunger inside her. **X-Men Legends, Volume 2c release date** She did not even bat an eye with this atrocity that seemed to only come naturally for her, **X-Men Legends, Volume 2hd** This casual genocide attracts the attention of the Shi'ar empire ruled by Lilandra

Professor X's long-time alien girlfriend, **Book X-Men Legends, Volume 2 download** After DP had that satisfying meal she went back to Earth to visit her old home where her parents and sister lived: **Book X-Men Legends, Volume 2 pdf download** Two things I liked about this saga are the tonality and approach of its writing when it comes to the roles of the female characters, **Comics Graphic Novels X-Men Legends, Volume 2 download** As Kitty Pryde's first appearance I found that she was a surprisingly adaptable and brave young girl in the cusp of realizing her potentials as a mutant and aspiring superhero, **X-Men Legends, Volume 2 epubs** In fact it was her resoluteness to help the captured X-Men that enabled the other members to rescue them in the first place: **Book X-Men Legends, Volume 2 pdf download** At thirteen her world was turned upside down but she coped with it rather impressively, **Book X-Men Legends, Volume 2 pdf free** Instead of running away she found the courage to stand up for strangers she did not even know that well but believed that they are good and therefore worthy to be saved. **X-Men Legends, Volume 2c release date** Still for a first introduction Kitty Pryde already holds promise as a capable heroine who tried to make good choices out of the worst scenarios she faced: **Book X-Men Legends, Volume 2 pdf** Her allegiance to the Hellfire Club's men is attached to the fact that they are also enabling her to pursue whatever personal goals she may have on the side, **X-Men Legends, Volume 2k23** Now I'm very interested to read about Emma Frost from this point on. **Comics Graphic Novels X-Men Legends, Volume 2 download** To have another competent and powerful female telepath offers possibilities and I definitely want her to come back, **X-Men Legends, Volume 2 epub download** But empowering female characters in this story was sadly not very consistent though: **PDF X-Men Legends, Volume 2020** The appearance of Dazzler was baffling to me especially her role in helping the X-Men. **X-Men Legends, Volume 2 bookstore** I do not understand her motivation in doing so anyway and it only adds to the diluted effect of Storm's rather passive role in the narrative, **EPub X-Men Legends, Volume 2 rar** Well at least they did get to manage Storm to kick ass again at the later pages as the story comes to an end so I'll just take comfort in that: **X-Men Legends, Volume 2a release date** There are at least twelve pages of great action sequences that these combats provided. **Book X-Men Legends, Volume 2 answers** It was visually engrossing which made me imagine seeing them on screen (and that only made me dislike X-Men: The Last Stand further, **Book X-Men Legends, Volume 2 summary** But before all that I would just like to share this favorite set of panels where Jean Grey puts on her old Marvel Girl costume: **Comics Graphic Novels X-Men Legends, Volume 2020** In the end it was only Scott and Jean who were left standing and together they fought their way for Jean's pardon and freedom: **Book X-Men Legends, Volume 2 download** Scott was injured during the battle and seeing her beloved in danger has once again awakened the Phoenix in Jean, **Book X-Men Legends, Volume 2 book** Tragically the possibility of her going dark and twisted because of the Phoenix is just something her relationship with Scott and the rest of the X-Men cannot withstand. **X-Men Legends, Volume 2ii** And Jean knew this from the moment Professor X was able to put some temporary restraints on her powers which are ultimately infinite and uncontainable. **X-Men Legends, Volume 2 kindle store** So in a quiet last scene between the lovers Jean informs Scott of her decision to extinguish herself in order to save all of them. **X-Men Legends, Volume 2a release date** In the heat and determination of everyone especially Scott to save Jean from her doom and the effect of the Phoenix as an unstoppable sentient force in the Marvel Universe, **X-Men Legends, Volume 2hd** But I have my personal reasons why I think this is simply a comic book story you should find time to read: **Book X-Men Legends, Volume 2 pdf free** This is why The Dark Phoenix for me was uplifting to read because I found the way they portrayed Jean Grey (and to a lesser extent Kitty Pryde) to be most admirable. **Book X-Men Legends, Volume 2 dvd** Most sites will tell you to pick this up because of its posterity and value as a classical tale: **X-Men Legends, Volume 2c release date** RECOMMENDED: 9/10 X-Men Legends Volume 2: Dark Phoenix Saga Mixed feelings for this one, **X-Men Legends, Volume 2 Comics Graphic novels80** Good reading for diehard Marvel and X-Men fans but lukewarm for everyone else, **Book X-Men Legends, Volume 2 download** While I like Bronze Age DC I don't think I care for Bronze Age X-Men or Claremont's writing, **Book X-Men Legends, Volume 2 book** The closest thing I can

compare this to is Frank Miller's The Dark Knight Returns which is vital and important to the Batman universe weird and 80s and hated by some, **Book X-Men Legends, Volume 2 summary** Unlike TDKR however which I own and love this was a chore to read, **Book X-Men Legends, Volume 2 download** And the setting is quite dynamic even heading out to space. **Comics Graphic Novels X-Men Legends, Volume 2 download** This is way before the era of gritty realism and even six years before The Dark Knight Returns, **X-Men Legends, Volume 2 books** Super heroes are still a bit gee golly gosh and saving the universe: **Comics Graphic Novels X-Men Legends, Volume 2 pdf** And I actually like how that works in DC sometimes like with Crisis on Infinite Earths New Teen Titans. **X-Men Legends, Volume 2 book 4** I got into comics late and reading backwards can be hit or miss: **EBook X-Men Legends, Volume 2 download** The long winded prose the gushy dialog the inner monologue drivel, **X-Men Legends, Volume 2hd** I don't need to hear everyone's thoughts in every single panel: **X-Men Legends, Volume 2a release date** And how many times do we need to hear the phrases ruby quartz visor and psionic rapport? I'm spoiled with modern comics. **X-Men Legends, Volume 2lp** But here between the prose dialog and monologues there was so much reading it was insane. **Kindle X-Men Legends, Volume 2021** It was like Watchmen level of prose but the prose was not great. **Book X-Men Legends, Volume 2 book** Add to being prosaic and cheesy the dialog and monologues were really inconsistent: **Book X-Men Legends, Volume 2 pdf download** Some characters' language was formal and lacking contractions or using weird ones like shan't. **Book X-Men Legends, Volume 2 book** Really shan't? And why does no one use the word and? Are they saving that much time by not using the letter D? Then the characters themselves. **Comics Graphic Novels X-Men Legends, Volume 2 download** Other than their atrocious dialog I mostly enjoyed the X-Men: **Comics Graphic Novels X-Men Legends, Volume 2020** The basic early plot involves Jason Wyngard/Mastermind who begins to telepathically seduce and control Jean Grey/Dark Phoenix with a weird 18th century mind fantasy, **Book X-Men Legends, Volume 2 book** The universe's greatest telepath/telekinetic is fooled by a guy with mutton chops? Then his cohorts are just dummies: **X-Men Legends, Volume 2 booking** And these guys these glorified 18th century ponytail-wearing scientists beat the X-Men, **Book X-Men Legends, Volume 2 pdf download** Her foes have literally been dazzled like an epileptic seizure: **X-Men Legends, Volume 2jolt** Why is the Dazzler just now starting her disco career in New York? There's also some weird creepy sexuality going on here because every woman is half-naked: **X-Men Legends, Volume 2 bookstore** The White Queen likes saying examination and probe with Storm in her underwear: **X-Men Legends, Volume 2 book 4** Really? And Phoenix is constantly described as being on a lustful quest for power and completion and dying dying of course being a rather obvious metaphor: **Comics Graphic Novels X-Men Legends, Volume 2020** Dark Phoenix goes to a galaxy far far away where she runs into a spaceship from the Empire. **PDF X-Men Legends, Volume 2 answer key** Watching Star Wars are we Claremont? After the X-Men battle Dark Phoenix the first time (yes they do it again) Cyclops literally proposes to Jean Grey, **X-Men Legends, Volume 2hd** But don't fret boys and girls she dies a human rather than a god demon starkiller thing whatever. **X-Men Legends, Volume 2blue** Isn't that nice? Then Cyclops yells to the stars (paraphrase) Jean! Nooooo! Fanfare. **Book X-Men Legends, Volume 2 pdf download** Honestly apart from the crappy villains and heavy-handed exposition this is decent: **Book X-Men Legends, Volume 2 pdf download** It's basically Jean Grey versus the X-Men in some intergalactic in-fighting: **X-Men Legends, Volume 2 books** But those two elements really bring down what could have been a great 80s classic. **X-Men Legends, Volume 2ii** X-Men Legends Volume 2: Dark Phoenix Saga This is a classic X-Men story for a reason: **X-Men Legends, Volume 2 ebook free** Chris Claremont and John Byrne were at the top of their game. **Comics Graphic Novels X-Men Legends, Volume 2 ebook** They had the Dark Phoenix storyline planned for years ever since Jean Grey became the Phoenix 2+ years before. **X-Men Legends, Volume 2c release date** We get our first real look at the Hellfire Club some of the X-Men's best villains, **X-Men Legends, Volume 2hd** X-Men Legends Volume 2: Dark Phoenix Saga Hands down one of the best Marvel comic stories I've ever read: **X-Men Legends, Volume 2k23** The way Claremont brings out each character and piece them together as a team is commendable. I

don't think Claremont and co. It's who she is as a person. It's why she's one of my all-time favorite superheroes. It's a choice we all should commend her for. Jean Grey could have lived to become a god. He also wrote a few issues of the series WildC.A.T. He also wrote a few issues of the series WildC.A.T. It was so cool. Jean Grey has become her power. All that's left is fire and destruction. She's not the kind of woman you want to mess with. Indeed this conflict is going to be rather conflicting. Power corrupts absolute power absolutely corrupts. It was a great ending to a great comic. It was still quite enjoyable though. They've grown used to each other's eccentricities. The movies really failed with this element of the story. This was so much better. Let me explain without making spoilers (don't worry!). this is your name. remember when we did that?? now we are doing this. and on and on and on.i don't read a lot of superhero comics.that's just awful. disco-ball superpowers?? unacceptable. ummm and i guess that is my book review.bow pause for ovation. Yeah. I can see that. This was a pretty major story arc for the X-Men. You know Jean Grey.Krrrrk *slashes finger across throat*. Gripping is another word I've seen describing it. *crickets chirping* Hmmm. Yeah not so much. Well maybe a little easier. It was pretty painful the whole way through. Kitty Pryde makes her debut in this story (cool!). However so does Dazzler. Ah Dazzler Dazzler Dazzler. But (And this is a big but.). Of course in my case once is quite enough. I somehow forgot this was her debut. First off THAT SHIT WOULD BE AWESOME. Power outage? FUCK THAT. LET'S PARTY. I'M THE GODDAMN DAZZLER. In short: COME AT ME.It has early rough around the back-hair Wolverine. It has Cyclops at his leadership best. It has Angel and Professor X. And it has Jean Grey - Phoenix - Dark Phoenix.It is perfect but for the end. I mean perfect. He was the Hitchcock of the Marvel Universe. And his partner was John Byrne. I don't know what tastes are today. I don't care. I am so glad I reread this after rereading Secret Wars.Now though I must take a break. What a shame they fucked it up in the X-Men movies. I'd have given anything to see it done right. I just thought such a discussion is noteworthy. She returns to Earth with a new identity and costume. She becomes known as the Phoenix since. You came to me when I was vulnerable. You filled the emotional void within me. You made me trust you. Perhaps even love you. She picked a random planet where five billion lived. She wasn't portrayed easily as a damsel in distress. We really should have gotten The Dark Phoenix instead.). It was nostalgic and appropriate. And she is not ready to be lost herself. That conversation was done rather beautifully for me. Also the polar opposite of grim dark.Let me start with the good. The art is awesome even at thirty five years old. But I really don't mind it. The plot is solid minus the ending. And there's a lot going on. We learn about Jean Grey's.what do you call it.evil version?.Dark Phoenix. Kitty Pryde has some self-discovery. The X-Men grow as a team. There are some pretty good fight scenes. So there's that. But I have a lot of problems with this.To contextualize it's 1980. The X-Men have been around almost 20 years. Marvel is in its heyday. I get that. In this case for me it's a miss. Claremont's writing is heavy with camp and cheese. We all are. Because writers must not be paid by the word anymore. They can be pretty badass when they're not whining. I guess I wish they were a bit tougher. But the villains I really had trouble with. I'm not sure I'm buying it. Shaw absorbs kinetic energy. Leland controls mass. Pierce is a simple cyborg. So two physicists and a robot.scary. How does this happen? Then there's Dazzler. Her super power? Light powers. And when she attacks she dazzles. And it's 1980. Angel/Warren Worthington III's girlfriend's name is Candy Southern. So there's that. Then there's the ending. Which is rather long and tedious and hilly. I don't know what a star gate is. Like a wormhole? Thanks vague convenient plot devices. Awww. So she's redeemed. Roll credits. The end. Read at your own risk. Kitty Pryde and Dazzler make their first appearances. John Byrne's art is divine. It still looks fantastic. X-Men Legends Volume 2: Dark Phoenix Saga
