

From Love and Pain By H.A. Caine

### **Lgbt-memoir From Love and pain book**

I want to write stories that people enjoy that stick in their minds and hopefully put a smile on their face I grew up writing and have no intentions of stopping now When I'm not writing I'm usually sitting in a corner on my e reader Or baking; who doesn't like sweets? 29 year old Adrian ran away from an imprisoning and abusive household at the age of 19 For years he ran living on the streets and in shelters taking crappy jobs to save a little money Ten years of struggling and now he is a successful partner of a security company Under the guise of running the security company Adrian and his best friend and the people who work for them help others who live unfortunately Like Adrian not one of his employees have a nice past They're all running from something never letting their guards down and they don't want others to suffer as they have But Adrian makes the mistake of falling in love with a young man when he's 27 For a while he gets to experience what it's like to be a normal man He never thought he could be happy but Jaxon makes him the happiest man in the world Only it can't last and Adrian is forced to leave or risk Jaxon's life But his demons caught up with him long before he realized and now no ones safe Can Adrian save Jaxon before it's too late? And can Jaxon forgive him for walking away? From Love and Pain This was a nice uick short read that I really enjoyed I wasn't sure uite what to expect when I read the title and looked at the cover but I was pleasantly surprised once I started reading Adrian has spent years running from an abusive past it shaping his existence and when his past catches back up with him it is time for Adrian to finally end it and save the only man he has ever loved from the clutches of a psycho The connection between Adrian and Jaxon was just wonderfully done and I was so happy that the author didn't just end the read with Adrian rescuing Jaxon but also continued on a bit so we could see their reunion and the progression of their relationship after all the trouble had past with Daniel There is just something so special about mm romance reads that I love and can't get enough of This isn't overly graphic or over the top with steamy scenes so if you are interested in getting started in the mm romance genre this would be a good introductory piece I'd give this three and a half stars bordering on four stars Submitted for Review Lgbt memoir uick review Cover Hot Man Rating NC 17 for the sexiness of it all Thumbs Up 35 Overall Almost not a mm romance with everything else that goes on Characters Thoughtful Plot Old hurts brought into a terrifying present Page Turner Yes Series Cont? Yes Recommend Yes Book Boyfriend Adrian SUMMARY 50 words or less This story has a little of everything from a dark past to a bright future Told from two points of view we get our rescuer and our captive Their lives somehow intertwined together Honestly I wish it had been a bit longer to really understand the torment Adrian experienced To see my full review and yummy pic check out my blog post below <http://mromancebookreviews.blogspot> Lgbt memoir The author has posted a revised version of this action hostage stalker story Many of the editing flaws and issues I had with the original have been significantly improved For that reason I have removed my original review Lgbt memoir This is an engaging action adventure novella with a MM romance back story My main concerns come in during the rescue part of the mission which seems to resolve too uickly considering the insidious nature of the villain The writing style has some minor flaws and mechanical errors but I believe some of these are being fixed in the newly released version I received my copy of this book as a free copy in exchange my honest review Overall I would recommend this book to action lovers who enjoy strong male heroes especially since there seems to be uality character building that may lead to a series Lgbt memoir Want a story that has everything? Action adventure a dark past happy moments suspenseful moments and best of all sexy moments Then add From Love Pain to your To Read shelf today Caine has done a wonderful job of making a memorable story that you won't want to end Everyone loves to read about love but it is very rare when you get to read about a different kind of love Adrian is a man who falls in love with a man for some this is a touchy subject but I think we all need to learn about what kinds of love are out there isn't love what we all strive for in our lives? The Book addresses some very important issues

that are present in the world today one of these being abuse If you have followed my blog for awhile then you know that I am a very strong advocate against abuse and bullying As a victim myself I am drawn to books that address these issues and there is nothing I love then seeing how the main character rises above their trials I don't want to give to much of the story away but reviews are raving about this book and after reading the synopsis I think you will already be hooked to find out about Adrian and his lifeTo view the full review please visit here [Lgbt memoir](#)

I have to say I didn't like this story at first I found it a little too wordy everything was spelled out so nothing was left to the imagination but it grew on me The plot pulled me in and I found that I could forgive the writing style because the story it's self was damn good Intact I am hoping that this could be the start of a series I would defiantly like to read the stories of the other members of Adrian's team This book was reviewed for musings of a bookworm [Lgbt memoir](#) Good short that packs a punch Well worth reading [Lgbt memoir](#) This book was absolutely wonderful A must read for anybody looking for a sweetsexyhotadventurous read I can't wait to see what this author puts out next [Lgbt memoir](#).
