

It Doesn't Go Away By Wendy Dalrymple **It is good that i go away** Overall It Doesn't Go Away stays in line with Wendy Dalrymple's trademark style (which I like to think of as "Horror Beach Reads") while also highlighting her growth as a writer. **It Doesn't Go awayxl** It doesn't matter because I'm not going even if you say no because running into a bear on a trail once in my lifetime was one time too many! Anyhow bears are the least of Barb's worries here. **It Doesn't Go awaymodeenabled** There are creepers who lurk around every corner real or imagined again it doesn't matter because they're real to Barb and a scary scenario soon becomes completely terrifying on so many levels. **It Doesn't Go awayrr** I read a lot of brutal things and there is so much trauma in horror lately that I really should've figured it out (apparently I'm not always good at that!) but this one snuck up on me and reminded me of some things I had buried and I needed a little breather because I wasn't emotionally ready to think about it. **It's not going away** Barb's spiraling thoughts her stew of messy emotions her desire to remain anonymous and process her trauma on her own terms and the need to just run the fuck away felt really genuine. **It Doesn't Go awayxxx** suicide by gunshot Horror Romance Suspense Happy release day to this great story! Thank you to 3B publishing and Wendy Dalrymple for hooking my eager self up with an advanced copy of this to review. **It doesn't go away tiktok song** Is the threat from male fellow hikers the elements her own mind or something else? [chefs kiss]The brevity of this novella was something of a marvel to me - I felt all the gradual crescendo of dread the creeping horror of a longer tale yet the story was a quick and satisfying read. **It Doesn't Go awaypaul** Dalrymple's fantastic descriptions rendered the story vivid and immersive in my mind from the hiker's discomfort with conditions to the environment and culture of the AT to whatever is stalking her. **It doesn't go away tiktok song** The story was reminiscent of The Girl Who Loved Tom Gordon but more adult in tone with the trail becoming a spiritual path an opportunity to soul-search and come to terms with some personal trauma. **It Doesn't Go awaymo** It's only a matter of time before they catch up... In the aftermath of a horrible traumatic incident a woman sets out on a solo long-distance hiking trip along the Appalachian Trail. **It Doesn't Go awayrr** There's a specific line that references something being too familiar and then altogether foreign and it perfectly described a feeling that I had had no words myself to describe myself. **It Doesn't Go awaymnt** The imagery the conversation and the emotions are all very real and I'm certain countless people will have so many of these same things to themselves at some point in their life. **It Doesn't Go awayquiz** " There is something cathartic about hitting the trail losing yourself in nature and leaving everything behind except your body and walking to the point of physical exhaustion to shut your mind off for a little bit. **Go away and never return** And you knew there would be but what does a girl have to do to just be given some solitude and peace? Some healing time some alone time? And you can't seem to leave your dark thoughts behind either,

awaypaul A psychological horror novella from Wendy Dalrymple that explores grief trauma isolation and paranoia, **It Doesn't Go awayxxx** Our narrator (who takes the name Barb for anonymity) is hiking the Appalachian Trail alone: **It Doesn't Go awayxxx** She encounters several characters along the way some helpful and friendly some threatening and ominous: **It Doesn't Go awayrt** The horror element is the fear Barb experiences as she's stalked by things both seen and unseen real and imaginary, **It doesn't go away tiktok song** The horror is the labyrinth of trauma in her psyche as we see the world through her lens: **It doesn't go away tiktok song** The latter feeling is a testament to Dalrymple's skill as an author: **It Doesn't Go awayxbox** She injects pathos into every tale and no quality puts the reader into the mind of a protagonist better, **It Doesn't Go awayquiz** A suspenseful and gripping story--and a quick read at 75 pages: **It Doesn't Go awaymodeenabled** Horror Romance Suspense It Doesn't Go Away is a suspenseful story which uses a woman's traumatic past as a launchpad into a hiking-themed tale of terror: **It doesn't go away tiktok song** At first I wasn't sure about the premise as I'm admittedly not an outdoorsy person: **It Doesn't Go awayxl** But I was already a fan of the author and so I decided to give it a try. **It Doesn't Go awaypost** The book is set almost entirely on the Appalachian Trail although I didn't catch which particular state. **It doesn't go away tiktok song** Dalrymple did an excellent job making the woods feel large and looming yet claustrophobic at the same time, **It doesn't go away tiktok song** Within the AT there was a memorable gathering place called Frogstomp; the scenes here felt vividly drawn and stood out as a highlight: **It Doesn't Go awaywards** Barb is the main character (not her real name but it's the only one we're given) and the first-person perspective was a great way to make a connection: **It Doesn't Go awaywards** Being slightly north of that age myself I'm finding it harder and harder to relate to younger characters in books: **Go away and never return** And while I (luckily) can't say I share many of her experiences I empathized with some of her thoughts and insecurities, **It Doesn't Go awayrt** The plot of It Doesn't Go Away unfolds in a slow burn which is something I enjoy, **It Doesn't Go awayrr** But as strange things start to happen the story builds to a more frenetic and thrilling pace, **It Doesn't Go awaywithmedia** There is also a moment of body horror that truly made me squirm: **It Doesn't Go awaymom** If you remember THAT ONE SCENE from White Ibis you'll know the sort of vibe I'm talking about. **It Doesn't Go awayrt** Dalrymple writes with a clear straightforward prose style which is one reason it's so easy to just pick up and enjoy one of her stories. **It Doesn't Go awayon** I can tell she always crafts her tales with enthusiasm and there is something so relatable about her voice that keeps me coming back, **It doesn't go away tiktok song** I often consider how a book makes me feel after I've read it: **It Doesn't Go awaypo** There are many stories out there which are entertaining at the time yet fade from memory soon after finishing: **It Doesn't Go awayms** I think part of this has to do with the ambiguity of the horror which is one of my favorite literary devices. **It is good that i go away** By the end the reader is left wondering if any of these events truly occurred or if they were all in the narrator's head: **It Doesn't Go awayxbox** More nefariously I also considered whether or not there is more to the story Barb is not telling us and if she's fully the victim she's made herself out to be, **It Doesn't Go awayxbox** Ultimately I'd say this is probably the deepest of Dalrymple's books I've read and yet it still manages to somehow remain fun. **It Doesn't Go awaymoon** My only real complaint (and it's a small one) is the lack of a full table of contents in the Kindle version: **It Doesn't Go awayxl** Even though this is a relatively short book I like being able to peek ahead to see how long it is until the next chapter break: **Would've gotten away with it too** If you're looking for a quick dark read you may be captivated by this one: **It Doesn't Go awaymnt** Horror Romance Suspense It Doesn't Go Away is a tense little novella filled with danger that lurks around every corner while slowly revealing some painful trauma, **It doesn't go away tiktok song** It's a very creepy read and the dread hits you fast and never lets up, **It Doesn't Go awayon** A nameless narrator who calls herself "Barb" decides to hit the Appalachian Trail alone (and woefully underprepared) after a traumatic event, **It doesn't go away tiktok song** I'll be honest here and tell you that I had to put the book down for a day because something blindsided me with terrible memories. **It doesn't go away tiktok song** I'll stick it down below under spoiler tags so you can be warned if you need to be warned but most people will likely

see it coming before I did anyway: **It Doesn't Go awayon** There was also a surprising moment that I LOVED because ICK but I won't be a jerk and spoil: **It Doesn't Go awaymodeenabled** It made me laugh but it also grossed me out and you deserve to experience that moment too haha: **It Doesn't Go awayon the way** This was a chilling novella perfect for fans of hiking creepypastas or the Let's Not Meet subreddit: **Go away and never return** An unnamed unreliable female narrator leading us on a too-hastily planned solo hike along the Appalachian Trail is a perfect horror recipe, **It Doesn't Go awaywith you lyrics** The setting was great the Trail serving as a character in its own right on the page. **This feeling won't go away** Horror Romance Suspense Fantastic!A one-sitting sitting read for me, **It Doesn't Go awayon** I started IT DOESN'T GO AWAY last night and could not stop reading, **Would've gotten away with it too** Highly recommended! I mean I loved it first-of-all, **It Doesn't Go awayms** It is extremely uncomfortable and it packs a punch in such a short amount of time though: **It Doesn't Go awayon the way** You start the book begging it to be as idyllic as it has the potential to be. **It is good that i go away** The start of a hike! The beautiful surroundings! The fresh air! All of the possibilities of starting a hike the exploration the leaving your bad vibes behind you: **It Doesn't Go awayplay** I know this isn't really the point of the story (the point is a bit of a spoiler so I am not going to say anything about it here): **It Doesn't Go awaymoon** But also that is sometimes the real horror isn't it? That women can't even hike alone without constant fear of other people, **It doesn't go away tiktok song** What should be an entirely relaxing endeavor is not because women have to have their guard up all the time, **It Doesn't Go awaywithmedia** And sometimes you want to be alone with your thoughts and take up some space in nature and let it heal you but you can't always do that either. **It Doesn't Go awaypaul** Sometimes it is your thoughts that haunt you but sometimes it is just protecting yourself from other people. **It Doesn't Go awaywards** And haha I have another thing I want to say but absolutely will not because it definitely is a spoiler: **It Doesn't Go awayrt** Horror Romance Suspense Wendy does it again!! I loved this story so much. **It Doesn't Go awaywith you lyrics** It amazes me how much depth Wendy was able to cram into a novella. **It Doesn't Go awayong** I went along with her while she hiked the Appalachian Trail and attempted to work through several traumas that were looming over her, **It's not going away** The tension also caused me to want to look over my shoulder several times while reading! Haha: **It's not going away** It Doesn't Go away checked so many of my favorite horror boxes: isolation grief body horror fungi (!!) and a bad ass female lead. **It Doesn't Go awaymo hotels** And f*ck you Geoff!! Follow her on Twitter @wendy_dalrymple. I found that aspect absorbing and emotionally painful. I appreciate that the MC is a woman in her late 30s. Barb was someone who felt real to me. This book seemed to linger with me a bit longer. Are there bears on the AT? Never mind. I'm glad I went back in because I enjoyed the story. Give it a read it moves fast and packs a punch.
