

Out of Uniform By Amy J. Fetzer Rick slept through his check in and the next day his estrange wife Kate showed up on his door step with written orders of her own that she was his nurse since he had flaked on obeying the other orders. But it's still strange to me to read book like this - the couple is married and than separated because they don't communicate they don't know what the other one thinks or feels both of them only assume without talking at all:

Rick Wyatt is a Marine Captain and he is an injured one at the moment trying to recover so he can get back to active duty: he would get checked out every two days if he could just go home, He hated being in the hospital and refused to stay another moment even though he needed to: This is a good thing for the both of them I thought especially how this book ends, He can't take care of his self with his entire arm in a cast and sling. He is fighting with her orders though even calling the X: who tells him its Kate or the hospital so he chooses his wife instead, I thought it was a good choice considering she would be better at taking care of him than some nurse at a hospital: There is a lot of hurt on both sides of their marriage but the two of them help each other heal. Rick finally opens up about his life in the marines and she tells him about the child she lost of theirs right after he shipped out the last time, I think even though it hurt the both of them him getting shot was the best thing so to speak. It fixed what they both felt and made their marriage become new again, The secrets that they both had held in almost destroyed something wonderful. Fetzer did a great job and I hope to read more of her books in the future, I liked Rick Kate and the cast of secondary characters and it was interesting to see how hard the life of Marine wives can be: But I'm not sure I really bought the HEA because Rick's change was a bit sudden, All in all this wasn't a bad read for this lazy Saturday, 9780373766369 Leído el 15/05/2012 9780373766369 An oldie but a goody: Rediscovered this story when I was going through some old paperbacks. 9780373766369 The book started good but at first I thought that Kate's reasons for leaving Rick weren't good enough - he didn't talked about his feelings or his past. But he was only afraid that he was going to lose her: After that i realized that if they hadn't been separated they would never had realized how much they actually loved each other and talked about their problems and solved them. Fetzer released on Feb 08 2005 is available now for purchase. Both Kate and Rick are likeable but I'm not sure I believe in the HEA and I never felt compelled to reread this one: Thanks for stopping by!!! tell you right off that I dont like reading my own bios let alone writing them, But if youre here then you want to know something about me: So how about I break some 'writers have a glamorous life myths first off. I was a licensed cosmotologist for years and didnt even put pen to paper until I was 30. (with an infant and 3 year old) It took me 3 years to write my first book and while it taught me a lot it was dreadful ! Got rejected 6 times flat out: I burned it in the back yard when I sold my 20 th book. Ive kept the first pages to remind myself of how far Ive come: Myth 2: writers have a staff to take care of th Hi there, Thanks for stopping by! I'll tell you right off that I don't like reading my own bios let alone writing them. But if you're here then you want to know something about me: So how about I break some 'writers have a glamorous life' myths first off: I was a licensed cosmotologist for years and didn't even put pen to paper until I was 30. (with an infant and 3 year old) It took me 3 years to write my first book and while it taught me a lot it was dreadful ! Got rejected 6 times flat out, I burned it in the back yard when I sold my 20 th book: I've kept the first pages to remind myself of how far I've come. Myth 2: writers have a staff to take care of them and their homes while they write: I wish! I don't have a maid a cook or anyone who works for me except maybe Shelley who maintains this site, Like most women out there I do all the cooking cleaning bills shopping etc, Sometimes I can be seen driving the riding lawnmower over our 2 acres: I'm a Marine's wife and my husband was gone a lot so I had to do it. I'm the only female in a house of men so I pretty much rule too: And as the daughter wife and now the mother of US Marines believe me I can give orders when need be: Writing isn't about the muse coming to you; it's about unleashing bottled creativity and giving it freedom on paper. Every writer I know feels a deep internal need to tell their particular story and hope you're entertained: Yeah sure sometimes the creativity isn't moving like we want but like everyone who faces some problem I go to my friends and they come through in a punch, By the way I work at my job from about 7 am till 4 sometimes later if

it's going great and I don't want to stop: I actually love pulling weeds; it makes my mind drift to good places. Oodles?? If I did I'd have a staff and a better looking office: But I get to go to work in the worlds' sloppiest clothes, Myth 5: Once a writer sells a book they can sell anything else: Want to see my rejection file? I could wallpaper a bathroom with it, However my idea of a great story isn't often blending with the editors. It's frustrating and often it hurts since the books writers create have without a doubt a piece of them inside. But then if you can't take it then this isn't the business for you. My second book (#1 being the dreadful one I burned) My Timeswept Heart was a finalist in the Romance Writers of America Golden Heart contest for unpublished works, I didn't win but it got my work before my Kensington editor, Right now I'm writing books I've wanted to write for three years Romantic Thrillers. Think Peacemaker or Chain Reaction with a little romance in them: After writing books in 5 sub genres of romance (I get bored easily) this new one is the chance for me to use all this military knowledge I've stored up for years. I've fired weapons rappelled ridden in an Ard Personnel Carrier and did some Scuba diving in the East China Sea, It hasn't been boring and because I write it never will be: Now that my Sergeant Major husband is retired and my sons are grown and towering over their mother we get to stay in one place, When I feel the itch to move every 3 years I just redecorate. Take a look around the site drop me a note even read the first chapter of a new novel if you like. I wouldn't be loving my job if you weren't {site_link}

. He had told his C.O.O. Amy J. 9780373766369 Quick review. Totally love Rick and Kate's story. All marriages are work and love does conquer all. 9780373766369 Out of Uniform by Amy J. Out of Uniform I don't know. 9780373766369 Hi there. Its like tooting your own horn. Myth 1: Writers have always been writers. Not me. It's like tooting your own horn. Myth 1: Writers have always been writers. Not me. That's not a complaint. Myth 3. Writers work when the muse hits them. If I did I'd never meet a deadline. Writers HAVE to write. Weekends are for playing projects or gardening. Myth 4: Writers get paid oodles of money. To keep selling is the really hard part of this job. It came out in '93 and I've sold over 30 since. With numerous rejections in between. Lots of action and danger. How average. I love it. Well its time for me to get back to work. Thanks for visiting. It's out there for you the reader
