

Naming the Waves: Contemporary Lesbian Poetry By Christian McEwen **Book Naming the waves** It presented to me my own trauma put into words in the form of political poetry about sexual (sexist) violence and at the same time it felt like a love letter to all queer women. **Book Naming the wavesync** That being said big time content warnings: Mentions of suicide Sexual assault Homophobia Mentions of the holocaust and very intense intergenerational trauma English Love and desire childhood and children the value of sisterhood self-identity and racism day-to-day pleasures and sorrows the overarching reality of lesbian oppression - and defiance of that oppression: these are the themes of this vibrant collection of contemporary lesbian poetry from both sides of the Atlantic. **EPub Naming the waves central** In poems that are wonderfully distinct in form and tone - folksongs prose poems sestinas - are many moods: from quietly joyful 'leaves and potatoes' from the electrifying fear in 'He Touched Me' to the angry confrontation in 'Some Things about the Politics of Size'. **Naming the waveshell** And behind the wit and feistiness the tenderness and anger lies work in which 'the clear-eyed child and the outraged adult start to merge' their poems all becoming part of the same endeavour the telling of important truths.
