

Promise in a Kiss By Piper Vaughn The problem of this story for me is: 1) We have the two MCs being apart from each other and suddenly on the exact same time are both thinking about seeing each other and travel across the world to do so. But they've been apart for 15 years their promise was made when they were ten then suddenly by the snap of their fingers the two of them seem to decided that hey it's time to collect that promise!. 3) Since most of the story is about them being in different place the fact that they are not even in the same vicinity with one another until few pages near the end also makes me lose interest in them. Promise in a Kiss A sweet story about two childhood friends who after long years of no contact decide to find each other and find out whether the promise made at the age of 10 could lead to something more. Sign up for Piper's newsletter: {site_link} {site_link} At the age of ten Darren promised he would love his friend Adam forever and that they would someday marry and sealed the promise with a kiss. Years later Darren can't forget that long ago promise and at the urging of a friend decides to take a chance and track down the boy he once loved ... Promise in a Kiss2. Perhaps there will be more written about this couple? Promise in a Kiss This put a big smile on my face!!This was such a cute story about two childhood friends trying to find their way back to each other 15 years later. A couple of obstacles get in the way of Adam and Darren's reunion for a minute I thought it wasn't going to work out and all their efforts to find each other would be for nothing, Ok short m/m romance about two guys who made a promise to each other when they were kids then lost touch, While this was sweet it felt more like a tease than an actual story. 5 starsFeel like a party pooper among the glorious reviews here but this one doesn't sell for me. I don't mind the fairy tale-ish idea that's what happens with romantic movies too: serendipity fairy tale ending coincidences well I love that. Wish there's more prominent point like I don't know a reunion invitation probably, 2) Another point is I might believe Darren's part on keeping his 'dream' of marrying Adam alive: We get his perceptive of that event from his point of view when he remembers / dreams about it. But Adam? No reason on his part what-so-ever of suddenly trying find Darren. And this is a short story!!Having said that I think the 'flashback' of how Darren made his promise of marrying Adam is cute: Promise in a Kiss Piper Vaughn is a romance author and lifelong fan of the genre, Since writing their first love story at age eleven they've known writing in some form was exactly what they wanted to do: A reader to the core Piper loves nothing than getting lost in a great book: Piper is of Puerto Rican descent and grew up in a diverse neighborhood in Chicago. They love putting faces and characters of every ethnicity in their stories making their fictional worlds as colorful as the real one. Above all Piper believes there's no one way to have an HEA and every person deserves to see themselves reflected on the page. I'm tagging this one as fairy tale even though it isn't because it's just well very fairy tale-ish: 5As many have said the beginning of this little story was SUPER SUPER cute, It was the rest of the story that didn't work for me, It felt like the first few pages of a novel or novella instead of a short story that could stand on its own, Sequel planned for this couple hopefully because this was too short and only touched the surface. 5 stars for another cute short story hiding in my kindle x Promise in a Kiss

2.5 stars. Promise in a Kiss I like the premise. I can accept some coincidents. Too many of them and I just lost interest. Too bad. It could have been very cute sweet romance. Promise in a Kiss 2. I'm just not sold on the sudden impulse. Yeah not working for me. Other than that nothing stands out.4.5 stars Promise in a Kiss Sweet sweet short story. I also felt like the plot was pretty generic.The best part of the story was the beginning. lol. Promise in a Kiss 2. Loved it. It's a little fairy tale-ish but still an enjoyable read. It really made my crappy day a little bit happier. Promise in a Kiss Adorable dream come true romance. Happily we get to see that sweet first meeting. Promise in a Kiss 3
