But many times words she used either didn't seem like something her characters would say or may have technically made sense but were jarring because they aren't generally used in the capacity they were written in or because I had no idea what they meant and had to look them up. **Enslaved in Shadows book review** Faith brought her back her peace for now" Oh no! I'm still crying from this ending! Let me go back to beginning.

Then you throw in a mix of animalistic feral creatures did you really think Ronin wasn't going to go that route? I knew from the start he was going to do some bad things to Oliver. **Book Enslaved in shadowsocks** So I would just say if you are looking for a new author a new series a new hero & heroine to fall in love with you really need to pick up a copy of Enslaved. **Book Enslaved in shadowstats** There were a few places where the story lagged as she fills in her readers about necessary background information but that is bound to happen in the first novel of a new series. **Enslaved in Shadows kindle direct** Here's a list of some of the plot aspects I'm referring to;-Mystery one-night stand-Quickie wedding to asshole to forget one-night stand -Surprise baby-Chance reunion of heroine and surprised baby-daddy-Evil exes-Mysterious organization that hunts/polices paranormal critters-The "Destined Mate" story line-Revenge sex-Torture of heroine to draw out heroThe plot is played out by characters who but for some name changes could be from any PNR/UF novel on your library's shelf. **Book Enslaved in shadows cast** If the unoriginal story line and characters weren't bad enough Enslaved in Shadows is marred by poor word choices resulting in some bizarre purple prose bungled metaphors and glaring grammatical errors. **Enslaved in Shadows book summary** So how exactly does a laugh oscillated down one's spine? Cyprian on the other hand can be refer to something from or relating to Cyprus of or relating to the ancient worship of Aphrodite on Cyprus or licentious or wanton. **Enslaved in shadowsquad** I also had issue with the many overdone descriptions of events people and feelings throughout Enslaved in Shadow and the graphic disgusting torture scene and the over the top cliff hanger ending. **Enslaved in shadowstrike** I finished Enslaved in Shadow because I believed that at some point it had to get better and I reviewed it because I think it can be an example to would-be authors a guide of things one should not do when writing a novel. **Kindle Enslaved in shadows book** I find that both sad because I have no doubt Ms Eden put her heart and soul into this novel's inception and infuriating because as a member of the book blogging community Ms. **Enslaved in Shadows pdf download** Didn't really read but GR won't let me choose other options (on android phone) and write a comment Enslaved in Shadows (Shadow Unit #1) I wish I had known ahead of time that this book ended in a cliffhanger. **Enslaved in shadowssh** Days? Weeks? The gist of the story is basically Draven and his team of Supernatural commando guys are trying to find and stop Jes' ex-husband who runs a business of kidnapping and selling the blood of vampires. **EBook Enslaved in shadows free online** Also I wondered how Jes a woman who by all accounts had been so severely abused by her husband (she was kept locked up and isolated from her friends and family) managed to get away from him long enough to actually get a divorce? Second I

wondered how long Draven and his team actually worked together? For a unit they knew surprisingly little about each other. **Enslaved in shadowssh** "“Vampires were born emotional sexy OMG book! This shadow unit is going to be a good series I just know it is! I can't wait to see what happens next! I was given this book in exchange for an honest review (RABT) FIVE MATED FAIRIES Enslaved in Shadows (Shadow Unit #1) Right from the beginning the author drapes the story of the all American girl in intensity and suspense while she embarks on a personal journey of self discovery and growth. **Book Enslaved in shadowstats** And the best man for the job is none other than Draven Stone who coincidentally turns out to be the one man that can make Jes question the very foundation of her existence. **EPub Enslaved in shadows pdf** But when a routine assignment in lovely tropical Belize means he must protect the lovely human female who still stars in his darkest fantasies Draven faces a terrible choice--between the sweetest memory of his past and his responsibility to the future of his kind. **Book Enslaved in shadowstats** For the better or will woman and were find themselves enslaved by their need for one another? **This is a Multicultural Dark PNR Erotic Romance** Warning: Torture Scene and foul language. Book Enslaved in shadows

I thought the ending just fell apart for me and not just because of the cliffhanger: **Enslaved in shadowssquad** Too much happened in the last two-to-three chapters that hadn't been adequately set up and prepared in the whole first part of the book: **Book Enslaved in shadows of war** I know she is the heroine but what made her so special that she needed to be kidnapped all the time? The book included a lot of sex scenes: **Enslaved in shadowstats** I think the time would have been better spent developing the story more: **Sci Fi Enslaved in shadows full book** I think you can create ongoing suspense for a multi-part series while still creating an installment that has a sense of a story satisfyingly told: **Book Enslaved in shadows house** More importantly.

What a twist and what a rush: **EPub Enslaved in shadows free** My final thoughts however 'you've got to be kidding me! It' can't end like that!' (vocally enough that my dogs came running): **EBook Enslaved in shadows** A standalone novel this is not but completely phenomenal none the less. **Enslaved in shadowstone arctic** I can see the characters and their surroundings right in my mind's eye. **PDF Enslaved in shadows free download** Eden's off the walls in your face writing style keeps you on your toes throughout, **Book Enslaved in shadows pdf** Eden also sets off at a fast pace that she keeps up for most of the novel, **Enslaved in shadowsocks** As many different species and races as she presents the supernaturals actually stick together for once. **Enslaved in Shadows booklet** At the same time each of the supernatural races is individually developed, **Enslaved in shadowsocks** As a reader you don't get to know everything about any of the races however you know as much about them as the other characters do, **EBook Enslaved in shadows** The well-developed supernatural law enforcement agency is also very intriguing: **Book Enslaved in shadows of war** By individually developing each of the characters Eden allows them to stand on their own: **Enslaved in shadowssh** At the same time she ties everyone together so that you can see how they fit into their unit and family as a whole, **Book Enslaved in shadows house** With the large variety of character types in this novel there is someone for everyone to fall in love with and to identify with. **Enslaved in shadowsys** There is also someone for every reader to keep as the bad guy, **Enslaved in shadowsocks** It introduces you to the characters & the Shadow Unit while keeping you primed for future instalments: **Book Enslaved in shadows of war** Eden also tells a fast paced tale that keeps you captivated, **Book Enslaved in shadows** Please note that I received this novel free of charge from the author/publisher/blog tour company in exchange for an honest review. **Book Enslaved in shadows of war** Enslaved in Shadows (Shadow Unit #1) There's a reason I don't write books:

Enslaved in Shadows epub torrent As much as I love a good story I lack the necessary grammar and plot development skills to pull a full length novel off, **Enslaved in Shadows ebook download** I know that just because I am a voracious reader who loves to talk and blog about books does not mean that I am cut out to be an author: **Enslaved in Shadows book summary** Enslaved in Shadows is an unoriginal story filled with ideas trends and even tropes that can easily be found in most Romance Paranormal Romance (PNR) and Urban Fantasy (UF) books, **Enslaved in Shadows book summary** Characters who are essentially cardboard cut-outs of characters done better and with more feeling by other authors. **Book Enslaved in shadows of war** Eden just went to town with a thesaurus or what happened obviously refers to the Cyclops of Grecian-Roman myth and to an ancient style of architecture. **Enslaved in shadowsys** "His sinful laugh oscillated down her spine and travelled on a Cyprian [sic] journey toward her clit: **Book Enslaved in shadowsocks** " (pg 89) It's just too much! Oscillate means to swing back and forth with a steady uninterrupted rhythm and/or to waver as between conflicting opinions or courses of action. **Enslaved in shadowsys** Eden meant wanton but really why did we need all these extra rarely used words? They just make the sentence and as a result the scene in which they're found confusing, **PDF Enslaved in shadows pdf** Thus taking me out of the scene and forcing me to Google words I've never heard before, **Enslaved in Shadows Sci fidelity** "You dear [sic] handling my junk bring nothing by salacious intentions to my brain and its receptive pleasure neurons: **Enslaved in Shadows kindle app** "(pg 46) First I'm not a doctor but I looked up pleasure neurons (used at least twice in the novel) and there's no such thing, **Enslaved in shadowsocks** Nothing! Second this character just referred to his man-bits as his "junk" and then breaks out some 10-point Scrabble words and refers to his "pleasure neurons", **Enslaved in shadowsocks** I don't buy it it's not in his character and it took me right out of the scene: **Book Enslaved in shadowstats** It did make me laugh but I don't think that's what Ms. **Enslaved in shadowsys** It's like me saying "he was a hyperactivity inducing sleeping pill, **Enslaved in Shadows pdf editor** Salivating at the bit makes me think of a horse with ropey saliva hanging down to its knees - not a sexy image. **Book Enslaved in shadowsocks** The novel is also missing possessive apostrophes throughout and contains very awkward comma placement and sentence structure: **Book Enslaved in shadowstats** As I mentioned before I am not an expert on grammar so when I can recognize something like comma placement and sentence structure then you know there's a problem: **Book Enslaved in shadows of war** You might be wondering why I even bothered to read or review Enslaved in Shadow. **Enslaved in shadowsys** I am excited to have a new voice become part of the genre I love: **Enslaved in shadowssh** It is not ready and if someone like me can see it then other more knowledgeable readers will see it, **Sci Fi Enslaved in shadows house** Eden has access to resources and people within all aspects of publishing that most aspiring new authors do not: **PDF Enslaved in shadows** With more stringent editing and some tweaking Enslaved in Shadow could have been a decent read. **Enslaved in shadowsun book** I don't think it would have made the NY Times best seller list but it would not have been so fraught with problems. **Enslaved in Shadows booker** Enslaved in Shadows (Shadow Unit #1) I won this e-book from a blog giveaway: **PDF Enslaved in shadows** It was really good all the way through! I like/hate the ending!! It's a freaking cliff hanger! Now I gotta figure out how to read book 2. **Enslaved in Shadows ebooks online** once it's done with :) Enslaved in Shadows (Shadow Unit #1) Don't read book continues into the next one: **Enslaved in Shadows kindle ebook** I skimmed it & didn't like the storyline for the MC in this one: **Enslaved in shadowssh** And not just a cliffhanger the story is basically unresolved. **Enslaved in shadowspell** What was supposedly a romance for the main couple Jes and Draven does not end with the couple together in a resolved relationship. **Enslaved in shadowstone arctic** I don't mind sequels or series even but I dislike the feeling that I NEED to buy the next installment just to finish the story: **Enslaved in shadowstone arctic** However it did have some plotting/logic problems and some grammar/homonym errors. **Enslaved in shadowstone arctic** First I was never sure how much time elapsed once Jes and Draven reconnected after having a one night stand five years earlier: **Book Enslaved in shadows** Most of the plot has all the team including Jes careening from place to place to find where the ex-husband is keeping the kidnapped

vampires, **Enslaved in Shadows ebook free** But Jes and Draven manage to find time to have sex a lot and sorta fall in love. **Enslaved in Shadows kindle store** Midway through the plot shifts as we learn that Jes' ex is really just a pawn and there is some other big bad out there. **Book Enslaved in shadowsocks** So at this point I wasn't sure why Jes' information was still necessary since it was clear it had no real value. **Enslaved in Shadows pdfescape** Every time something bad happened or they got into a jam of some sort a team member revealed a supernatural power that the other team members seemed surprised or shocked by: **Enslaved in Shadows ebooks free** And the bad guys always seemed to know where they were going to be and always seemed to manage to kidnap or harm Jes right under their noses. **Enslaved in Shadows Sci five** One that I can root against but also appreciate for his/her diabolical schemes: **Book Enslaved in shadows of war** The villain just kind of appears at the end and is just super powerful and evil. **Enslaved in Shadows kindle reader** No hint of really up to that point who or what he was or what he wants. **Book Enslaved in shadows by john** Finally I am not at all tempted to read the second installment. **Sci Fi Enslaved in shadows house** Enslaved in Shadows (Shadow Unit #1) Favourite Lines "Her body called to his and Draven was more than ready to answer. **EPub Enslaved in shadowstats** Unbenounced to Jes during the process of amending her past it's her darkest deepest past indiscretions that threatens her future happiness, **Book Enslaved in shadows** Reluctantly Jes enlists the special elite services of her one and only hope- The Shadow Unit. **Book Enslaved in shadows pdf** Fatefully once Draven learns the details of his new assignment neither him nor Jes will ever be the same. **Sci Fi Enslaved in shadowstats** Their obstacles literally turn the pages and lands the reader in a place they could have never predicted: **Enslaved in shadowstats** Life can not be lived in the shadows of existence but for Draven and Jes its where life begins and ends. **Sci Fi Enslaved in shadows** I was eagerly ready for book #2 IMMEDIATELY! It provoked feeling and emotion. Ms. I actually have never reviewed anything on Goodreads. Hmmmmm LOL But like I said this is Ms. Eden's first go at PNR. Here are a couple of examples. Definitions were found at www.thefreedictionary.com. ARC of Enslaved in Shadow.1. I know because I looked it up. I still don't get why Jes is so important. Some sex scenes went on for half a chapter. I don't think that happened here. There was no such thing as a bite turning you fangy. That shit only happened in movies." "You and your daughter. I want us to be a family. My scent is strong on the both of you. I don't understand how. I don't even know what it means." She answered burying her head in his neck. "You have all my time." "Things between them would never be over. Never. Jes can't breathe while watching her with Draven. When she's not writing Tigris marvel's at life's gifts. She likes to take pictures of beautiful things. When she's not writing Tigris marvel's at life's gifts. She likes to take pictures of beautiful things. She enjoys her music and doesn't leave home without it. She's married to the infamous LL and has three boys. {site_link}

I could not put this book down. Jes and Draven take you down a very emotional path. She's been abused and hurt so I understand her trepidation. A lot of people thought Draven was an ass. I didn't see it that way. Ms. Real life issues with real outcomes. Draven matured. At first he's settling down for all the wrong reasons. Even if it's not what he'd originally planned. Did he handle the break up with Melissa well? No. He did try the reasoning route. It didn't bother me. Eden was trying to convey. She's new it's fresh. It didn't take away from the story at all. They were eloquent and nicely put together. And that's a true shame because you're missing out. Eden) As for the ending of the book. Not fair at all. But Oh MAN!! OH Oh *covers mouth*. Okay lets start at the beginning. This book has a little bit of everything. You have love lust trust betrayal failure and hope. But again that is really not fair. And I try really hard not to give spoilers. Oh and the band of side characters SO MUCH potential. Oh and the ending? Nope not going to tell you. Yes because I am evil like that. First book in the Shadow Unit series. Cliffhanger high level. Complex with a multilayered storyline. Both that went on for pages and pages. Frankly as a whole it was too much for me. It was too twisted from several points. The immediate protection nature of the grandmother was precious. This was awesome. This novel is vividly visual right from the first page. I really like Eden's take on the supernatural world. It's quite the unique concept. The characters in this novel are completely off the hook. Overall this was a brilliant introduction to the Shadow Unit. I cannot wait to read more from this series. I sincerely wish that someone had explained this to Ms. Eden. I'm not sure if Ms. 2. I'm assuming Ms.3. Don't believe me? Type it into Google and Wikipedia. Eden was going for.4. "He was an endorphin inducing opiate." (pg 12) Endorphins and opiates do two different things. 5. ".he was salivating at the bit."(pg 8) It's "chomping at the bit". Personally I think it's exciting when a new author debuts. Enslaved in Shadow should not have been published as it is. Knocked of a few stars for me. As I was reading along I was somewhat enjoying the book. But the ending just frankly soured any goodwill I had. Jes has information for the team and needs protection. So yeah I was very muddy on the timeline. Third I was not impressed with the villain. I like a well constructed villain. This was not the case. No names just raw carnal matting. Hard. Fast. Dirty. Agent Draven Stone's job is simple most of the time. An agent of the Shadow Unit he polices his own kind. As a powerful werewolf he's very good at his job. Her battered heart will be tested yet again. In the battle to come lives will be changed
