

Bastian: A Crown Prince Chronicle Novel By Piper Collins I needed something fun and light and this book certainly delivered! Bastian: A Crown Prince Chronicle Novel A truly magical story! I kindly received an ARC from Piper in return for an honest review. Alana's workplace had a generous donation presented to them by said Prince Alana and her friends expecting nothing more than the arrogant playboy that he had been made out to be in the media. That ending ☐ Looking forward to reading the rest of the series!! Bastian: A Crown Prince Chronicle Novel Bastian is the first book in Piper Collins new series called A Crown Prince Chronicle Novel. Bastian: A Crown Prince Chronicle Novel **Received an ARC copy of this book in return for an honest review** Will Power tells the tale of Sloan Novak a thirty something mother to a young boy Alex. Upon arriving Sloane encounters Dario Nicolescu the lone remaining descendant of Viktor Nicolescu a former accountant and well-off bachelor looking for an early jump on a comfortable retirement. deciding to work together towards a common goal both try to concentrate on the work at hanhand love family and packed with heartwarming feelings Will Power is one of the greatest purest romance books I have read in the last two decades. We're talking about a literal prince! It was beautifully written with such etiquette and charm and I was hooked from the very beginning! It was everything you'd want in a fairytale but with the sexy twist for us adults that love the intimate details. Alana meets Bastian when he comes to make a speech at the ribbon cutting of the newly renovated Devmont National Archives building that Alana works at which suffered from a fire a few months prior. After a messy run in with the Prince and back and forth banter Alana agrees to a date and the rest is history! But don't be fooled there's always a twist! Bastian: A Crown Prince Chronicle Novel OMG! This book is the sweetest! If you are in need of a light sweet steamy read this is for you! Sloane and Dario are so special! And Alex! We cannot forget that sweet smart energetic food inhaler of a little boy! I loved every inch of this book! It had a few twists I wasn't expecting and that ending!!!! I did not see that coming! Sneaky little sneaks! The writing was really good and I'm so excited to read what Piper Collins comes up with next! Denying that matters of obligation are becoming matters of the heart: The plot and story was extremely well written and the characters loveable and pleasing to follow. The change between

viewpoints was distinguishable and flowed smoothly from one into the other: The plot was familiar and well used within the romance genre and yet original enough that it hooked me and deviated from the norm I have seen before: As you can imagine the romance was a bit of a slow burn but was the perfect blend of heartwarming and spicy at the same time: Full of twists and unexpected turns.

Reading has been a struggle lately but I had no problems binge reading Bastian. She loves her job and has her two best friends who she works with, What Alana didn't realise was this was the start of big things to come. Bastian was infatuated with Alana the minute he set eyes on her, The media had his image completely wrong he had a past of course but that was a long time ago and he hadn't actually been on a date for four years. He pursued Alana much to her distaste finally accepting a date with him, Alana realised quickly that she had unfairly judged the Pompous Prince after all. There are some angst twists and turns in this book but HEA, It's the first book I have read from Piper Collins and won't be the last. 5 Stars from me! Bastian: A Crown Prince Chronicle Novel Wow that Bastian some of the things he says and does makes me wish for my own fairytale romance: A definite Prince Charming! Love a good royal romance and this one was amazing the characters were interesting and the plot kept me engaged throughout, It was fast paced sweet funny and it was so entertaining: Prince Bastian is charming and his life is busy with engagements but for the first time in his life he's ran into someone who's not fawning over him, Alana is expecting Bastian to be a pompous jerk but he's anything but, I liked their back and forth banter it was fun and cute, This is my first novel I've read from this author and I'm looking forward to reading more of her stories, Cue a mysterious court order arriving at her doorstep summoning her Slovenia to attend the will reading of an old family acquaintance in the next forty-eight hours, But Dario's plans are trampled when at the will reading his grandfather's estate is to be split between himself and Sloane: Once the shock and confusion settle both must come to an agreement with what to do with the manor and grounds that hold different values to both of them. After an accidental fire to her department garners attention from the country's most eligible bachelor Alana finds herself making every excuse not to attend the grand reopening ceremony, When the two accidentally bump into one another she becomes smitten. Bastian had it all: good looks money...oh and the word Prince in front of his name: When his duties make him the center of attention Bastian is used to the women fawning over him—all except for the standoffish archivist. After Bastian and Alana partake in a verbal sparring match they are both left with confused but intriguing feelings, Neither can deny the attraction they have to one another but the stakes are high on both sides. Do they have what it takes to survive or are they doomed before they even begin? Bastian: A Crown Prince Chronicle Novel Oh My Flipping Gosh. Sloane is such a strong sassy and amazing woman her son is a believable kid with hilarious banter skills and the guy. Definitely the kind of love interest that if I met him in real life I'd put a ring on that man so fast, Will Power is a delightful romance and so well written that the memory of the characters lingered in my mind long after reading the book. Bastian: A Crown Prince Chronicle Novel This book was a true modern day fairy tale!! One between a smart nerdy commoner Alana and the handsome Prince Charming Prince Bastian: Such a different read than my usual but loved the take with royalty: Loved the fun banter and pet names along with sarcasm between the main characters, Can't wait for more in this series!! Bastian: A Crown Prince Chronicle Novel Sloane Novak was a single mom with a quirky energetic son, After a mysterious court order is delivered to her she has no other choice than to attend a will reading in forty-eight hours. Deciding it's in her best interest to go she and her son trek halfway across the world to Slovenia. Dario Nicolescu learned of his estranged grandfather's passing a week ago, Being an only child gives him great hope that the entirety of his grandfather's Slovenian manor will go to him, But when Sloane and her son show up he learns that the house is to be split equally between them, Once the confusion and shock settle Dario and Sloane must decide what they will do with the manor that holds differing values to them, Striking a compromise in way of a business plan the two work together towards a common goal. What will they do when matters of obligation turn to matters of the heart? Dario had been burned from a previous called off engagement and held himself back: Both Sloane & Dario had been

asked to attend a Will reading from a mutual friend/family member, Neither of them expected there to be another person involved in the reading let alone have to share the country house in Slovenia that was left to them: This was an inconvenience for Dario as he had his own dreams and plans but from the minute he laid eyes on Sloane he knew he wanted her, Was it possible to mix business with pleasure? Would she be interested in him or did she want to concentrate on bringing up her son? This was a refreshing read. I really loved the fact Sloane was a single mum due to the unfortunate passing of her husband. When she's not doing any of those things you can find her spending time with her husband son and their springer spaniel Fiona. When she's not doing any of those things you can find her spending time with her husband son and their springer spaniel Fiona. It was such a refreshing change of pace. Alana is your typical 'girl next door' archivist. Then there is Prince Bastian aka Pompous Prince. Not your everyday stuck up royal. And this was where the fairytale started for them. Her writing is beautiful. Secondary characters were good too. Remy's story is next. Bastian: A Crown Prince Chronicle Novel SHE'S A SCHOLAR. SURELY SHE CAN RESIST A PRINCE. Alana Velkan wasn't your typical historian. His schedule keeps him busy with engagements and speeches. I love this book. readers the guy!!! He's droolable. If you like romance you'll love Will Power. They were fun and charming. Only it's much more than either bargained for. She was strong intelligent and confident. Piper lives in the heat of the south. She enjoys reading writing and naps.
