Book Serafina and the Silent vampire weekend

Really hard to get into at first. **Book Serafina and the Silent vampire diaries** Too bad she can't anticipate the arrival of a real vampire who can only communicate telepathically- though she isn't convinced it's not another con artist horning in on her job- nor the real death of the man's son Jason Bell. **Serafina and the Silent Vampire books** Blair is torn between finding the deletable human female who hears his thoughts so he can get her in his bed and sink his fangs into her and finding the mysterious vampire who drank from the banker and has the ability to speak aloud among other things. **Serafina and the Silent Vampire booking** The female Sera is on his mind even as he encounters her during his efforts to find out who these new vampires are and what they are up to with their different gifts and making multitudes of others. **Serafina and the Silent vampirethemasq** This one has a lot of the "normal" vampire troupes like the sexuality involved in being bitten but it sort of took a broad view of vampirism without getting too specifically into the hows and whys. **Book Serafina and the Silent vampire** I don't think I ever saw one of Blair's set write text use a computer but at least for this one the action is pretty constant so you don't end up feeling like the story itself is depressed. **EPub Serafina and the Silent vampire academy** Having grown bored with city life she resides these days in a picturesque village by the sea where she is lucky enough to enjoy herself avoiding housework and writing sensual stories of paranormal romance and fantasy. **Serafina and the Silent vampirethemasq** Catch all her latest news on Facebook {site_link} subscribe to her Newsletter: {site_link} the party on her new blog: Marie Treanors Romantic Theme Party {site_link} Marie Treanor lives in Scotland with her eccentric husband and three much too smart children. **Book Serafina and the Silent vampire** Having grown bored with city life she resides these days in a picturesque village by the sea where she is lucky enough to enjoy herself avoiding housework and writing sensual stories of paranormal romance and fantasy. **Serafina and the Silent Vampire kindle app** Catch all her latest news on Facebook {site_link} subscribe to her Newsletter: {site_link} the party on her new blog: Marie Treanor's Romantic Theme Party {site_link} {site_link} Engaging secondary characters lively and funny dialogue a sizzling hot couple and an intriguing angle on the vampire theme. **EPub Serafina and the Silent vampire** When her assignment proves to be much more than anticipated Serafina uncovers a conspiracy that involves the banker's son her too-hot-to-touch-but-will-anyway new vampire acquaintance and the past she's still carrying on her shoulders. **Serafina and the Silent vampirethemasq** Unfortunately this is not sex so the shuffling of positions wasn't meaningful < grin >Add that nothing in Serafina was that interesting except her con life and you may get my meh attitude. **Book Serafina and the Silent vampire** No other character is grabbing and over all I had some difficulty in accepting people's behaviour from the heroine's refusal to harm the villain (on the whimsy base that she's his unacknowledged-before/unknown to both/ daughter which by the way doesn't stop him from trying to strangle her) to her juvenile and childish guilt for the natural death of her foster family to her friend's jealousy. **Serafina and the Silent vampirethemasq** In that case a vamp fight in Holyrod Park might be enough :D Serafina and the Silent Vampire (Serafina's #1) What a very interesting take on vampires both the originals and the newbies. **Book Serafina and the Silent vampire** Soon Sera is drawn into the bizarre world of the undead where danger lurks in the shadows along with forbidden sensual delights - and a murderous conspiracy to flood the world with financially astute vampires who talk. **Book Serafina and the Silent vampire** Supported and hindered by Blair's eccentric undead friends and by her own motley crew from Serafina's Sera and Blair uncover surprising truths about each other and about the mysterious Founder from whom all

The strange vampires are out to take over the world and she has made some shocking discoveries beyond that: **Book Serafina and the Silent vampire** She needs Blair's help even though she'd rather push him away because of the feelings he brings to the surface: **Kindle Serafina and the Silent vampire knight** This turned out to be a rather different sort of story in many ways: **Book Serafina and the Silent vampire academy** I really liked this author's take on vampires and the lore she created: **Book Serafina and the Silent vampire** They really are very different from humans and aren't the creatures of romance: **Book Serafina and the Silent vampirella** Gotta say the villain's plot cracked me up when it finally came out, **Book Serafina and the Silent vampire** The story is told from alternating point of views mostly the two main characters.

Serafina and the Silent vampirethemasq

But sometimes by a secondary character, **Book Serafina and the Silent vampire** She has led a hard life growing up in the foster system and feeling the abandonment of parents and family, **Book Serafina and the Silent vampire weekend** She runs a few cons and has no trouble taking people's money: **Book Serafina and the Silent vampire** Granted she tends to discriminate over who she cons and who she cons to help them, **Kindle Serafina and the Silent vampirella** Sera won't allow herself to believe.

Book Serafina and the Silent vampire knight

It still made for a frustrating read. **Serafina and the Silent vampirethemasq** She blew hot and cold and then got angsty when Blair couldn't seem to keep up or had other things going on besides her to deal with: **Serafina and the Silent Vampire kindle** The denials and lying to herself and others just got old. **Serafina and the Silent vampirethemasq** I really liked them together- they sizzled- and I enjoyed the exciting storyline so I tolerated her hang-ups for the most part: **Serafina and the Silent vampires vs** I loved meeting Sera's staff (though Jilly was nearly as annoying as Sera with her tough girl act) and Blair's friend Phil was cool. **Book Serafina and the Silent vampire survivors** They were all well-drawn characters that I look forward to encountering in future books. **Book Serafina and the Silent vampire survivors** Another little tid bit that I liked about this story was that it is set in Edinburgh and is written by a Scottish author: **Serafina and the Silent Vampire kindle direct** Not that I'm opposed to PNR set in America or other popular places.

Etc. **Serafina and the Silent vampirethemasq** They had no means of communication with humans

except body language and the occasional bit of telepathic suggestion until Blair meets Serafina, **Book Serafina and the Silent vampire** It made the vampire world in this book really closed off and separate, **Serafina and the Silent vampire** Even the vampires individually were very disconnected from each other: **Serafina and the Silent Vampire pdf merger** I felt like the location of the story was really dark and oppressive, **Serafina and the Silent Vampire books** Like dark storm clouds hanging around and keeping everything rather drab and gray: **Book Serafina and the Silent vampire** The only place I remember some color was inside Blair's house, **Serafina and the Silent vampire** It's the way lots of vampire stories feel to me.

Book Serafina and the Silent vampire diaries

I kind of want a Blair for myself! Yet even with the super sex this book lacked in pizzazz, **Does serana prefer you as a vampire** It wasn't a story that hasn't been told before and in moments it definitely dragged on, **Serafina and the Silent vampire** I did appreciate the switching perspectives between Blair and Serafina but overall it just didn't spark, **Book Serafina and the Silent vampire** It felt a little removed from the action in parts it should have been drawing me in: **Book Serafina and the Silent vampire** I would recommend it as a solid paranormal investigator novel. **Serafina and the Silent Vampire epub.pub** It's not anything ground breaking or hasn't been done before but for \$3 why not give it a shot? Maybe you'll feel differently. **Book Serafina and the Silent vampire academy** The last third of the book picks up and gives me enough hope that I will try the next in the series, **Serafina and the Silent Vampire ebooks online** Serafina and the Silent Vampire (Serafina's #1) This was one of those rare instances when I was drawn to read a book strictly because of the title, **Serafina and the Silent Vampire books** I didn't read the blurb I didn't check out reviews and I barely glanced at the cover, **Book Serafina and the Silent vampire** She sees the dead and can even communicate with them but many of her other paranormal services are just bunk and strictly for the money, **Serafina and the Silent Vampire ebooks online** Sera and her other employees are busy setting up garlands of garlic and crosses at a retired banker's home during a party because he claims he's being stalked by a vampire. **Book Serafina and the Silent vampire survivors** Bell a show with one of her people acting as a vamp and attacking another of her people and then she'll do her thing getting rid of the vampire and collecting her fee. **PDF Serafina and the Silent vampire survivors** And then more bizarre the son's body vanishes and he turns up alive, **PDF Serafina and the Silent vampire books** Sera's job and her world just got that much more difficult: **Book Serafina and the Silent vampire** He is concerned about their connection with another human who seems to be working with them: **Book Serafina and the Silent vampire diaries** Sera trusts nobody except her best friend Jilly and an old friend Mel but finds herself needing the vampire's help when it comes to working against the other vampires. **Book Serafina and the Silent vampire** She's all worked up because of the way Blair affects her too: **EPub Serafina and the Silent vampire books** She fights the attraction and her secret longing to let him take her and her blood: **Book Serafina and the Silent vampire diaries** Sera knows that he thinks about things from a different perspective and only looks on humans as potential food and distraction: **Serafina and the Silent Vampire pdf24** But the death count is rising trust or feel when it comes to other people, **Kindle Serafina and the Silent vampire** While I understood her issues but it was just a refreshing change: **Serafina and the Silent vampire** All in all this was a good read and I look forward to continuing with the series. **Serafina and the Silent Vampire books** My thanks to Netgalley for the opportunity to read this one in exchange for my honest review thoughts, **Book Serafina and the Silent vampire survivors** Serafina and the Silent Vampire (Serafina's #1) I was really enjoyed this book. **Serafina and the Silent Vampire books** I the title and cover lead me to think i was reading something cheesy but really enjoyed the authors different elements to vampires that I have not read before. **Serafina and the Silent vampires** The writing was a nice easy read the characters were not complex, **Book**

Serafina and the Silent vampire weekend The plot could have been a bit deeper but regardless an enjoyable book. **Serafina and the Silent Vampire books** 5 of 5 stars I was really surprised by how much I liked this one, **Book Serafina and the Silent vampire** I've been out of the vampire scene for quite a while and I wasn't too sure that I wanted to get back into it. **Book Serafina and the Silent vampire** This story is about Serafina MacBride a psychic/telepath who can sense emotions and speak to the dead. **Serafina and the Silent vampire the masq** Interestingly enough she doesn't believe in vampires until she's presented with conclusive evidence: **Serafina and the Silent Vampire pdf filler** She runs a paranormal style agency partly as a scam and partly to resolve her own guilt about the people in her life that she thinks she should have been able to save: **Book Serafina and the Silent vampire academy** She's smart and tough and generally tries to avoid love but she's really protective of her friends and pretty much anyone who's hurting: **Serafina and the Silent vampire the masq** She's so intense that she loses friendships easily but she does whatever she can to give people the benefit of the doubt, **Book Serafina and the Silent vampire weekend** She always is alone because of her psychic abilities but she also feels special because of them: **Serafina and the Silent Vampire epub** He wants to seem all tough and he is but he also really cares for his friends and his responsibilities: **Book Serafina and the Silent vampirella** He pretends like he's unfeeling and cold but it's all an act: **Book Serafina and the Silent vampire** He doesn't express his emotions verbally or even when the story picks up his perspective but he's definitely action oriented and shows he cares pretty obviously: **Serafina and the Silent Vampire pdf drive** It was a really interesting perspective that these vampires are unable to speak, **Serafina and the Silent Vampire booking** Not only are they separate and trying to stay hidden but they have no connection to humans except as a food supply, **Book Serafina and the Silent vampire** In the same vein I kept throwing myself into the Regency period with this one. **Book Serafina and the Silent vampire survivors** It's a modern day story but most of the time it completely works as a Regency too: **Serafina and the Silent Vampire pdf merger** There are only occasional use of cars or phones or modern technology (although there was lots of coffee): **Serafina and the Silent Vampire pdf filler** I'd be reading along and forget the time period until there was a computer thrown into the story and then I'd feel like I got whiplashed back into the modern era: **Serafina and the Silent vampire the masq** The people in this story generally had a positive can-do attitude, **Book Serafina and the Silent vampire books** So even with the closed off and restricted nature of the story it was action packed and enjoyable without feeling depressed or fatalistic, **Kindle Serafina and the Silent vampire academy** Even with all the violence it all gets painted with a somewhat broad brush so we're not sucked into the disaster but can simply look from the outside, **Book Serafina and the Silent vampire knight** We don't have to deal with the nitty-gritty but can enjoy the fast pace and thrill: **Serafina and the Silent vampire the masq** Only getting in a couple pages at a time before I'd get called away again: **EPub Serafina and the Silent vampire knight** But the story was well told and concise enough that I never felt lost re-entering this world, **Serafina and the Silent vampire rave** It's the first book in a series so there were lots of pieces thrown into the story that weren't resolved yet. **Vampire queen from seraph of the end** Nothing like a cliff hanger but just lots of whys that I hope will be resolved later in the series. **Book Serafina and the Silent vampire** I liked this story a lot and I will definitely read the next book in the series. **Book Serafina and the Silent vampire survivors** I received a complementary ARC of this book in exchange for my honest review, **Serafina and the Silent vampire tale** Serafina and the Silent Vampire (Serafina's #1) The story line was okay. **Serafina and the Silent Vampire kindle books** I like Serafina even though she got to be a little annoying with her internal focus: **EPub Serafina and the Silent vampire academy** She doesn't reach out to Blair and refuses to trust him which after how many pages is just downright rude, **Book Serafina and the Silent vampire survivors** * I must say they have some pretty awesome sex scenes #1) Marie Treanor lives in Scotland with her eccentric husband and three much too smart children. **Serafina and the Silent vampire the masq** You can find out about Marie and her books on her website: {site_link} www, **Serafina and the Silent Vampire kindle direct** You can find out {site_link} [www](#): **Book Serafina and the Silent vampire weekend** It's about a psychic woman with a strong will who is hired to protect a retired banker's son from a stalking vampire. **Book Serafina and the Silent vampire academy** The mere idea is ludicrous but Serafina goes along with it for the money: **Book Serafina and the Silent vampire** She runs a business that deals with communicating with the spirit of the departed, **Kindle Serafina and the Silent vampirella** She might appear callous at first but she caters for her clients' needs in a deeper way. **Serafina and the Silent Vampire books** Her difficult past has made her tough sharp-tongued and straight-to-the point. **Serafina and the Silent Vampire books** Nothing has prepared her though for her first encounter with a real vampire, **Book Serafina and the Silent vampire** The future of humankind might be at stake if she doesn't do anything about it: **Serafina and the Silent Vampire ebooks online** What I find so appealing of this story is that it combines many good paranormal elements with a fast-paced intelligent plot and a really hot love story: **Book Serafina and the Silent vampire books** It's got a mystery to solve regarding Serafina's family and the vampires in the city. **Book Serafina and the Silent vampire** A fresh enough angle is offered to want to know this slightly different vampires in depth. **Book Serafina and the Silent vampire** And it gives plenty of room to explore for future stories. **Book Serafina and the Silent vampire survivors** I want them to overcome all obstacles even the ones they harbour inside and get their happy ending. **Serafina and the Silent vampirethemasq** Apart from the gripping storyline and the witty dialogue the lust-slash-love relationship between Blair and Serafina made me a merry reader: **Serafina and the Silent Vampire ebookers** It got pretty steamy every time and when it was almost impossible for them to get together I was actually frustrated: **Serafina and the Silent Vampire ebook3000** I think this novel is well-written quick-witted it's got a sexy romance and an engaging plot with vampire lore and psychic magic that will appeal to all paranormal lovers. **Book Serafina and the Silent vampire** Serafina and the Silent Vampire (Serafina's #1) Pretty good and interesting read: **EPub Serafina and the Silent vampire weekend** It sort of felt like a cross between Sookie Stackhouse and Buffy with a dash of Sherlock Holmes and adult Scooby Doo, **Book Serafina and the Silent vampire books** That isn't bad but that's just what it kind of reminds me of. **Book Serafina and the Silent vampire weekend** She's been hired by a family to seek out their son's stalker who they believe is a vampire: **Serafina and the Silent vampirethemasq** When they Sera and Blair first meet there is an instant connection and not just the psychic connection. **Serafina and the Silent Vampire publishing** However I would have really liked the sex scenes to be longer and more descriptive. **Book Serafina and the Silent vampire survivors** I received a copy of this book via Netgalley in exchange for an honest review, **Book Serafina and the Silent vampire books** Serafina is a take on Ms Treanor's other books The Awakened series and Hunting Karoly: **Serafina and the Silent vampirethemasq** A mix-and-match that has nothing new the only fresh take being the vampire's weird muteness: **Serafina and the Silent vampiremeerkat** Otherwise it has the same setting (which is not that problematic) and the same plot with some switched positions. **PDF Serafina and the Silent vampire books** But if you are not burned out on the genre you might want to read it, **Book Serafina and the Silent vampire** I can't really think a reason why you should pick this book over others unless you love Edinburgh that is: **EPub Serafina and the Silent vampire weekend** The original vampires such as Blair don't have the capacity to speak, **Book Serafina and the Silent vampire weekend** They speak telepathically to one another and have no reason to speak to humans so it doesn't hinder them much: **Book Serafina and the Silent vampirella** Serafina is a psychic and able to communicate with Blair through her mind: **Book Serafina and the Silent vampire diaries** She had a quite a tough life which made her a rather cynical yet tough adult: **Serafina and the Silent Vampire booking** She doesn't believe in vampires and was in for the shock of her life when she discovers they are real: **Serafina and the Silent vampirethemasq** After much trepidation Serafina and her friends team up with Blair to stop a wayward group new vampires who have plans to wreak havoc on the world, **Book Serafina and the Silent vampire weekend** He was a sad sort of fella he had grown very bored with his un-life.

Book Serafina and the Silent vampire He was a vampire with heart I really hope he and Serafina are in the next book in the series which I definitely plan to read, **Serafina and the Silent Vampire books** **I received this eARC on behalf of the publisher via NetGalley for my honest review.

Silence has never been so sinful... Welcome to Edinburgh's unique psychic investigation agency Serafina's, **Book Serafina and the Silent vampire books** While staging a hilarious vampire attack at a client's party Sera is stunned to encounter a real vampire - annoying gorgeous and inaudible to everyone but her. **Book Serafina and the Silent vampire knight** When her client's son is found dead with puncture wounds in his neck she tracks the silent vampire to his lair: **Book Serafina and the Silent vampire** But the amoral and seductive Blair is also on a mission - to find and kill a nest of young vampires who've invaded his territory. Why I found it funny I won't say for spoiler issues. And that leads me to speaking about the characters. Sera is a gifted human. She has grown up hard and strong so she'll survive. She too has some larceny in her. I loved the scene with the two greedy guys she conned. The secondary characters were true gems too. It felt very low to the ground. Almost a steampunk/post-apocalyptic feeling. I didn't particularly like Serafina or Blair. Nope I was just intrigued by the title. Silent Vampire? Girl with a name like Serafina? Interesting. Serafina MacBride is a psychic. She is both the real thing and a fake. Like this gig she is engaged in now for instance. Sera plans to give Mr. For the first time in years he's interested in something. Paranormal or vampire romance lovers should give this a try. Serafina and the Silent Vampire (Serafina's #1) Rating: 4. Serafina is really complex. She was very relatable. I liked her and knew where she was coming from. Blair was also a likable but complex character. I didn't find him to be all that emotionally intelligent. I ended up taking quite a while to read this one. Especially when he has done nothing but help her *smh. MarieTreanor.com. MarieTreanor.com. I loved the whole story. Blair is fast dangerously hypnotic and never utters a word. Except that she can hear him due to her psychic powers. From that moment on utter chaos ensues. And it all begins in Edinburgh. I care for the characters too. I care for the love story. And oh my what a happy and steaming hot ending. I was very invested in their romance. That of course made the last chapters so much better. Serafina is a multitasking psychic who speaks to the dead. Which Sera doesn't believe in vampires. until she meets Blair the silent vampire. None of Sera's friends can hear Blair speak. However Sera can because she can speak to the dead. Blair is charismatic and sexy 300 year old vampire. Overall it's interesting and I will read the next book. They were a little mild for my taste. This also has a HFN ending. Serafina and the Silent Vampire (Serafina's #1) Disappointed. Not enough to keep me interested. Really they have no need to. I liked Serafina. I also really liked Blair. As an immortal that's never a good thing. He meets Serafina and everything changes for him. Serafina and the Silent Vampire (Serafina's #1) 4. Serafina MacBride is psychic - but not strictly honest. REVIEW: I found this book on NetGalley. Right off the bat we get a feel for Serafina. The whole book was flavored with a charming British slang. She's snarky. She's psychic. If he wanted to scam her she'd scam him right back. Only she underestimated him. I wasn't necessarily sold on Serafina in the beginning. I actually had to re-start the book twice. Sera was just as scarred as Blair. Posted from my site: www.StaceyBrutger. Serafina MacBride is psychic - but not strictly honest. Serafina and the Silent Vampire (Serafina's #1).
