The writer did a great job with the character development.I am the author of books that won't stay normal.One super species captor. One human captured. But that ambition proved our downfall. But I refuse to be reduced to a mere commodity. Her hatred for my kind is as deep as mine for hers. And now the thought of her won't leave me head. If I do I lose my best friend's trust and love. There's a scene warning in the front matter of the book. It is definitely worth reading! Terina Adams.
