showed that just that area alone would have been sufficient to provide a feorm of one night for every day of the year. **Epub Kingship, Legislation and Power in Anglo-Saxon England** national Being everywhere at once delegation and authority in Late Anglo-Saxon England A Trousdale This paper concentrates on the legislation (and possible legislation) of King Edmund and how it reflected a need to delegate authority within a larger realm. **Book Kingship, Legislation and Power in Anglo-Saxon England** flag Trousdale draws upon the lawcodes to show how certain elements were delegated to bishops and hundred courts with the fines in some instances being paid into the local administration instead of being remitted to the king:
