What happens when Logan has to decide between street racing and Liv?Hmmm? Wouldn't you like to know!!Wrap-UpJoin me in smacking Liv upside her head every time she backs away from Logan.... **The Fine Line contemporary art** For me 'The Fine Line was over the top addictive! Sexy! Wicked! Swoon-Worthy! And extremely Painful to read at times! But most of all it was Heart-breaking when she didn't see what was right in front of her face! This book was everything you could ever hope for in a book. **The fine line pub** And yes my review turned into a lot of rambling because of how much I enjoyed it!! Sorry not sorry!! ## **Fiction The Fine lines**

But it had me worried for a bit when we were thrown HUGE curb ball!Engaging story-telling! Sweet and endearing hero! Excellent debut by Alicia Kobishop. **The thin line book** Sometimes I just wanted to shout at her to take a chance (well I was shouting at my Ipad lol) she couldnt see the obvious and I could it left me on the edge off my seat. **The fine line pub** I loved how the author added the fact that Logan was a street racer that danger is enough to give anyone a rush the reference to 'Fast and Furious' brought a huge smile to my face I love them films :-). Throughout this book I could of banged Liv's and Logan's heads together it was so frustrating at some parts because I just wanted them to get what they both wanted. **The fine line tucson** I lost myself in this book and found it REALLY hard to put down sometimes I thought the characters was abit young for me to be reading about (maybe its the 10year age difference between me and them lol) but this is what I like I like to be able to put my mind on something other than reality and thats what this book did for me. **The fine line pub** Release Date: January 12 2014Genre: YA/NA Contemporary RomancePOV: Heroine - 1st personHeat: 2 out of 5Type Standalone Alicia Kobishop \*Copy received from the author in exchange for an honest review. **The Fine Line fiction vs** It literally had all the things I read a hundred times before - someone the protagonist holds dear dying in a car accident and as a result she "puts up the wall" to not feel the pain again. **The fine line pub** At times I understood her way of things especially at the beginning but throughout the book she was just overreacting and acting so immature she reminded me of kindergarten and how little girls would act. **The fine line music cafe** It felt like one of those stupid old films on TV that are always playing and you're so sick of it and seen it so many times you can describe what everyone is saying and what will happen next. **Fine line quotes** So well done for that but there is a long and tiring road ahead of you Mrs Kobishop if you are to become a best-selling author who writes gripping realistic and outstanding romance novels. **The fine line canary wharf** Liv's mom had several boyfriends and they were all really nice guys that she built attachments to only to have them either leave her mom for other women or unexpectedly pass away. **The fine line pub** when Chloe bitch slapped Liv I was actually cheering for Chloe!! Who ever thought I'd cheer for the slutty competition?!!There was one part I loved and cheered another character on!! Liv was so incredibly annoying it made it hard for me to fall in love with this story. **The fine line agro** I wanted Logan to just dump the bitch and move on!!Why he kept going back and following her like a love sick puppy dog was beyond me!!I kept thinking What the hell is so special about this chick?!!At one point it looks like Liv is getting an epiphany!!Yes finally she's going to stop acting like a stupid bitch and grab that yummy man and make him hers!!BUT THEN. **The fine line pub** Before trying her hand in writing she worked her way up in the field of administrative healthcare with experiences ranging from working within a large local healthcare organization to smaller independent physician practices. **The fine line canary wharf** She reclaimed her childhood passion for reading and after reading tons of fictional novels in a short amount of time and loving every moment of it she became absor Facebook: {site\_link} Instagram: {site\_link} : {site\_link} Kobishop is a contemporary romance writer who lives in Milwaukee WI USA.

Is love worth the struggle? Is it worth fighting for? Will you like this book? The Fine Line is a friends-to-lovers standalone with an HEA and no cliffhanger. **The Fine Line contemporary art** If you love new adult romance and enjoy a delicious combination of drama heartbreak humor action a heavy dose of angst and a sexy bad-boy who comes to reveal a swoon-worthy sweet side. **The fine line wayne watson lyrics** The storyline in this was about Olivia and Logan meeting and having feelings for each other but Olivia insisting that they couldn't be more than friends because she didn't do relationships. **Fine line near me** The pace was quite slow and Olivia kept pushing Logan away again and again but once they eventually got together they were quite sweet even if things didn't go exactly smoothly. **Book the fine print** 25 out of 10 Alicia Kobishop Book - The Fine Line Author - Alicia Kobishop Publication Date - December 6 2013 Type - Stand Alone Genre - Romance Rating - 4 out of 5 Stars Book provided by Author in exchange for an honest review. **The Fine Line fiction vs** Review What is there not to love about Fast Cars So Co Nitrous tanks Virgins Drugs and Guns in a story? I'll tell you what I didn't love in this story and that was Liv - annoying thick headed little "B" word. **The fine line traduzione** He put Liv on a pedestal and worshipped the ground she walked on - RIGHT IN FRONT OF YOUR FACE LIV??? Do you need contacts? Love was staring you in the face and if I had to hear you say "Just Friends" one more time.... **Fine line review** It wasn't until Liv finally tore down the walls built around her heart that I was huffing or puffing every time I heard "F-R-I-E-N-D-S" Re-Cap Liv stays single for one reason and one reason only.... **The fine line traduzione** Logan has no problems telling Liv how he feels about her Free E-books and Giveaways Alicia Kobishop THE FINE LINE: I am so glad I said YES when the author approached me to review this I admit the whiplash in this book was real!! It's like sitting at a tennis match watching the players as the ball goes from one competitor to the other Liv has this exact same reaction on my neck but it's what makes me an angst whore I love books like this!! Logan gave me all those teenager butterflies that set him up to be the perfect book boyfriend he is just perfect. **The fine line canary wharf** But like a whore on crack I just had to keep going because even though it's a trainwreck of emotions I loved the pull on all my senses the heartache the angst the love like a boy racer and that adrenaline coursing through their blood streams with the race this is what I'm feeling reading this angst fueled book. **Kindle the fine line review** As a reviewer it's so easy to sit back and say how much we disliked Liv I know because I did too god did I but then flip that around and this book would flat line there would be no angst and all those crazy flippy floppy moments would be zilch but by the end she kind of grew on me her decisiveness and insecurities with her crazy ups and downs Liv brought to the story there would be zilch and my rating would be less being a angst whore this book ticked all those boxes and this is why this deserves my five stars it made me feel all those twisty uppy angst feels. **Pdf thin line command** You need to put all feelings aside when it comes to Liv and then you'll kind of understand where she was coming from at such a young age every time she loved unconditionally everyone up and left her from her father to her mother's various partners so in retrospect to stop herself feeling she put up huge barriers to stop from caring so deeply. **The fine line canary wharf** She never wanted to jeopardize the friendship her and Logan had she always friend zoned him Melissa Patty Elizabeth Anesha Rebecca and Lisa Jayne! "Nobody had ever looked at me the way he was looking at me right now. **The Fine Line contemporary art** All the ups and downs and backs and forths eventually saw Logan and Liv to a sweet ending if you're looking for a story with plenty of up's and down's then look no further this story has more drama than your average day time soap opera. **Fiction The Fine lines** Call me silly but this book was actually beyond addictive it certainly had it's fair share of eye roll worthy moments but I'm actually looking out for more from this debut author. **The fine line**

**canary wharf** This lifestyle choice suits her well until she meets Logan Tanner a dangerously attractive car racer who instantly grabs her attention and threatens to break down those walls around her heart. **Book the fine print** Logan and Olivia quickly become firm friends but when friendship starts to feel like it could be more Olivia has to learn how to follow her heart and allow herself to break her own rules. **The fine line pub** What did I like? This author certainly knows how to deliver on the edge of your seat drama and enticing high school first love I have to say I didn't find this story the least bit predictable. **Fine line quotes** The twists and turns were enjoyable albeit a little over the top but the story from beginning to end had me glued to my kindle anxiously awaiting what would happen next to Olivia and Logan. **Book the fine print** The characters certainly had their own shining moments Logan and Olivia were interesting to say the least and I was drawn in by their attraction and chemistry I enjoyed the car racing theme to Logan's character development and the additional tidbits of history of the characters slotted in well running alongside the main love story theme. **The Fine Line contemporary art** Why not five? As with some similar books in this genre the plot tended to verge on the slightly ridiculous the drama teetered towards over the top and yes sadly I had some issues with the heroine Olivia. **The Fine Line contemporary art** I can already predict that for some readers this plot will drive them crazy with it's back and forth drama and relationship indecision but for me overall the author played it well, This is a "just friends" relationship or no relationship at all. **The Fine Line fiction vs** The two of them go through so much sexual tension and a roller-coaster ride full of tears and happiness. **The fine line between love and hate** I'll take him off your hands! <3For more reviews.
