

Sins Needles (The Artists Trilogy, #1) By Karina Halle **Book Sins needles ca** My thoughts : Sins & Needles is an absolute Karina Halle is an expert when it comes to creating characters who are fucked up and story lines which are messed up ! To put it correctly I'll say she creates the best characters ever ! They cant get any more 'human' than this . **Book Sins needlestick** They may not seem right to us.

You think because of your leg and your scars that gives you a right to punish people? Rob people? Cheat scam and steal? You think you can use that to justify what you do for a living?Do you think because you can't see my scars that they don't exist? That's the trouble with pain Ellie. **Sins Needles travel** Camden saw through her when he said You're afraid to come to peace with your scars because the minute you do the minute you accept them you have to let go of your anger. **Sins needlesports uk** I get that Ellie was a flawed character with a lot of issues but hasn't anyone ever told her life isn't fair? \*this is me playing the world's smallest violin\* I understand that Halle was trying to show the other side of the coin where a person doesn't make the right decisions. **Sins Needles book** ) Second how did Javier continue finding her? Her cell phone is my obvious guess but it was clear the cell phone was not even thought of in this case and Javier seemed to locate her a little too well. **Book Sins needles california** Ellie's off in her corner of the hotel hating Camden and Camden is off in his corner hating Ellie and secretly thinking of raping her so that he can humiliate her just as she humiliated him in high school. **Sins needlesports**

Yes I'm on a Karina-fied high right now ! Damn this woman and her work turns me into a junkie ! And I'm already craving my next fix . **Sins Needles kindle cloud** But Uncle Jim's kinda reluctant to help her but gives her time to settle down for some days and find herself some sort of an employment which does not involve her getting into anymore trouble . **Sins needlestack alameda** That blurb up there yeah that doesn't even begin to cover what you're in for once the book crosses that stage ! Hell hell they might even end up looking down right suicidal but that's just how these two roll . **Book Sins needles eye** He may not be your knight in a shining armor but he sure as hell isn't a douchebag in a

tin foil ! Broken on the inside add to that a sinfully sexy epitome of art . **Sins Needles booking** he can instantly turn into a creep who can scare the bejeebus out of you ! Relatable and Real Sins and Needles is a 110% movie material . **Book Sins needles eye** Oozing action adventure humor drama romance and steamy sex the book is a definite page-turner that's bound to keep you glued to the edge of your seats till the very last page . **Sins Needles Chick lithium** SINS & NEEDLES IS AN ABSOLUTE MUST-READ!!!! This book was just BRILLIANT!!! I swear it was like watching one of my favorite Tarantino movies except it wasn't a movie it was a book and it's the very first time a book has ever made me feel that way. **Book Sins needlestick** From shady drug lords to sexy tattoo artists to the maffia and visits to a casino this book had everything in it to earn itself a place on my favorites of 2013-list (although the year has only just started. **Sins Needles Chick litter box** There was action suspense humor and romance (but not at all in a cliché-way) and to top it all the story was accompanied by an awesome soundtrack!!!Sins & Needles is the story of a girl named Ellie Watt -- I'm not a bad. **Sins Needles travelocity flights** Now Ellie has decided it is time for her to go back to her roots spent some time with her uncle commit one final scam and maybe start a new life away from the troubles that come along with being on the run the entire time. **Sins Needles kindle paperwhite** Camden McQueen --Once upon a time Camden used to be a freak he used to be the most tormented kid in high school and he used to dress himself as a goth (long hair black painted nails and long leather coat included) but now. **Sins needlestick ror2** Now Camden has become a very attractive successful tattoo artist (he even had an appearance on Kat Von D's LA Ink) and in no way this Camden resembles the young weird-looking boy he once used to be. **Sins Needles pdf converter** I mean I completely get that authors make use of cliffhangers to keep the audience on the edge of their seat and it's probably a good thing because it makes us crave the next part of the story even more. **Sins Needles pdf converter** It left me speechless and wishing that the next part in the series would come out like RIGHT NOW!!!!But either way I still LOVED this book and I would recommend reading it to EVERYONE because it really has a bit of everything in it and it's the kind of story I think all kinds of readers will be able to relate to. **Sins needless lip** Sins & Needles was my very first book by Karina Halle and I already know it won't be my last!!!!5 UNIQUE and ACTION-FILLED STARS!!!!\*\*\*\* 145552194 4 1/2 starsSorry for using such a cheap trick to drag you in but this is the picture Halle used as inspiration for Camden. **Sins needless lip** It's not that I don't like a good romance but it is so seldom told well - delving either into misogyny cliches or both - that I tend to avoid books with a romantic focus. **Sins needlestack alameda** But this book is all those things too minus a ton of disgusting control-freakery sexism and general stupidity from the heroine minus extremely bad writing plus some well-rounded characterization that goes beyond my mummy abused me so now I like to beat you WAAAAAH! Sins & Needles has the flirty fun to make you giggle it has some darkness and danger to keep your eyes glued to the page (I stayed up until 5am and was literally on the verge of passing out) and it has some DAMN HAWT sex scenes. **Sins Needles pdfescape** Camden is a character with a well-woven story that compiles elements of the nerdy outsider he was in high school and the strong good-looking man he is now to create a very interesting package. **Sins Needles pdf editor** The main story is surprisingly dark in many ways but

I kind of wish I'd written this review before reading the equally good short prequel - On Every Street - because this changes your perspective on quite a few things. **Chick Lit Sins needles t shirt** I love authors that do that give you an idea and let you think you know what's going on but then turn it on its head introduce some new information and completely change the rules of the game. **EBook Sins needlestick** I'm going to spoiler tag some of my favourite lyrics so you can skip over them if you like but I simply HAVE to include these beauties: A three-chord symphony crashes into space

At first I disliked her but then I love her!  
She is shaped by events from when she is a young girl and crime is really the only way she knows how to get ahead. **Book Sins needles highway** holy shit!!!! Cant wait for the second book!!!! Favourite quotes

(!! ) I have both been dying to and dreading reviewing this book because I want to just pour my heart out but at the same time I'm afraid nothing I say can do it justice. **Sins Needles booklet** To layer her even more we regularly get taken into her past where we see what she has been through; how she was damaged and emotionally beaten into the person she is today. **Sins Needles kindle** Before I start on Camden let me give you Karina's inspired by visualization:  
If you are even able to get your eyes off of that picture to read the rest of this review I can tell you that you heart will be in shreds when this book is over. **Kindle Sins needlestick** And the book I'm reading now which I put on pause to read this one tastes kind of pasty now! Oh wait... should I be eating it? Damn! I forgot how to read! \*sobs\* Dark gritty and sexy as hell Sins & Needles is pure perfection for fans of contemporary novels with a dangerous edge,

After a scam gone awry and being on the road for two months Ellie Watts decides to return home because she ran short of money. **Sins Needles ebook** Because of her criminal lifestyle Ellie does not have a lot of friends. **Travel Sins needles highway** As it is friends are dangerous liabilities when you're a grifter, **Book Sins needles eye** That's the reason she has not a lot of options and goes back to her uncle Jim who is living in the Coachella Valley: **Sins Needles Chick little caesars** Shortly after Ellie runs into an old friend from high school tattooed and pierced Camden McQueen. **Sins Needles booklet** Camden is chatting her up and before she knows it he invites her to attend his gig that takes place the same evening: **Sins Needles booker** Camden is a tattoo artist painter and amateur musician who is playing for the band Kettle Black. **PDF Sins needles ca** Ellie intends to scam Camden ASAP however what she does not know yet is the fact that Camden is out for revenge: **Sins Needles book** During high school Ellie betrayed his friendship and humiliated him in front of their classmates, **Sins needless lip** And he's been waiting for this moment for a very long time, **Sins needlessly complex** Anyway Ellie's plan backfired since Camden caught her red-handed and offers her a deal because he has his own problems to deal with after all, **Sins Needles Chick little caesars** But now he wants out he wants to leave this place and he wants to leave it with the money of the Madano family. **PDF Sins needles highway** It's needless to say that a bumpy road lies ahead for Camden and Ellie. **Sins needlestack alameda** Due to the constant stress of her turbulent life Ellie is hooked on Ativan and other pills has a giant case of paranoia suffers from anxiety and Trouble is her middle name. **EPub Sins needles california** Also she thinks that she is entitled to her activities due to her scarred leg and bad childhood: **Sins Needles kindle paperwhite** If you're lucky you can wear it for all the world to see. **Sins needlesports** Most people have their pain deep inside in places no one ever goes. **Sins Needles pdf** Do you ever look at yourself in the mirror? he asked his voice rising, **Book Sins needles eye** Do you like what you see?I know what I know of you he whispered into my ear his breath hot: **Chick Lit Sins needles eye** And then who would you be? Granted he is flawed as well and he made mistakes but I can relate to his actions. **Sins needlestack alameda** Hence it was understandable that he acted the way he did because he'd been blackmailed into money laundering to save his son and ex-wife, **Book Sins needles eye** However when it comes to Ellie I just can't feel any empathy or pity for this woman. **Book Sins needles ca** The world is bad and I'm just trying to survive in it: **Book Sins needles ca** Grow up already assume responsibility for Pete's sake! After all we all make our own paths in life, **Sins Needles Chick lite** With that said I hope she'll be given the chance to make things right again: **Sins Needles booklet** There are plenty of ambivalent feelings between the two mistrust pain lies and anger, **Travel Sins needles** Also both of them have a lot of baggage to deal with and for what's it worth it would be wise to seek professional help. **Sins Needles Chick little caesars** What didn't work out for meI'm not sure if it's me or the story/characters but I felt there

was a lack of chemistry between the two: **Chick Lit Sins needles lyrics** While the steam level was alright I would have loved to see way more foreplay and a better build-up. **Book Sins needles highway** Furthermore I was not happy when the baddies kidnapped Camden's ex and son and Ellie refused to call the cops: **Sins needlesports peak** I'm sorry but that's not reasonable from my point of view, **Sins needless lip** However I suppose the author needed to write this plot twist that led to the final highlight which was very predictable yet well-written and thrilling. **Sins Needles booklet** The story is told in first person from Ellie's POV and alternates between Now and Then to offer a better insight into Ellie and Camden's lives: **Sins needlestack alameda** A well-paced story an interesting plot and some nice action/suspense will keep you turn the pages. **Sins Needles booker** I'm not a fan of cliffhangers but this one is definitely so good that you will want to keep on reading: **Sins Needles travelers** As a consequence of the final highlight I'm looking forward to reading Shooting ScarsSteam 2. **Sins Needles booklet 5 - 3 1455552194** Before we even get this par-TAY started I'm going to throw something out there: This was not a bad book. **Sins needlestick** I'm saying this now because I know I'm about to be the black sheep when it comes to Sins & Needles. **Sins Needles kindle paperwhite** So before everyone in my Goodreads friends list comes out with their torches and pitch forks guys I can totally see why you all love this book. **EPub Sins needles california** Alright now that we've got the basics out of the way strap in because I'm about to light it up, **Sins needless lip** The main character Ellie Watt has a great presence and voice. **Sins Needles epubor** Obviously her profession demands nothing less with her being a con artist and all: **Chick Lit Sins needles eye** But for once in her life Ellie feels like she's had enough and goes home to Palm Valley, **EBook Sins needles highway** It's there where Ellie must now face the ultimate human challenge: Getting a job: **Sins Needles booker** But just as her first and only attempt fails in comes Camden McQueen. **PDF Sins needlestick** Ellie is instantly attracted to this tattooed stud-muffin but doesn't recognize him as the bullied goth from high school (and former best friend): **Sins needlestick** Anyway they hit it off and somehow end up on this wild Bonnie and Clyde type adventure, **Sins Needles Chick little caesars** Up until around 50% I was feelin' this book somethin' serious, **Sins Needles Chick litter** Like I said Ellie has a great voice and the writing wasn't bad either (even though I do think it was stronger in the first half). **Book Sins needles eye** But somehow along the way I found myself caring less and less about finishing the book, **Sins Needles kindle reader** Here are three reasons why my happy cat died along the way complete with pop culture references FTW (because obviously I was bored enough to soundtrack my review):1. **Sins Needles booking** She makes a living from conning men out of money left and right, **Book Sins needles ca** She meets them on internet dating sites (She fed me lies while she cast her spells, **Book Sins needles california** ) pretends to be their girlfriend for months (Save me she's a liar: **Sins Needles booklet** ) and then makes off with their cash (Gypsy woman robbed me of my best: **Sins Needles booker** Your ability to love this novel is really going to be dependent on if you can relate to her situation and past: **Sins needlesports** I liked the idea of a con artist trying to go legit and finding love along the way, **Sins Needles ebook** So check it Ellie goes back home and tries to get a job at ONE LOCATION fails sees Camden McMoneyPants walk in and says Fuck it: **Sins Needles booklet** It's all she knows and she's used to just taking from everyone else but that is no excuse to me: **Kindle Sins needles ca** And honestly I think Ellie was just being lazy and I can't stand lazy people, **Sins needlesports uk** I wanted to shake her and make her get off her ass and get a job: **Sins needlestick ror2** But no instead she tries to rob Camden because obviously that's way easier and more logical. **Sins Needles travelocity** But wait! Ellie is JUSTIFIED because the world has wronged her: **Sins Needles booker** My issue is that I couldn't understand WHY she was making them. **Sins needlestack alameda** POP QUIZ!If you had a tragic accident due to a career choice made by your parents what would you do?A. **Book Sins needles eye** Guess what Ellie chooses? That's right B! Makes complete sense right? (I've got that lefty curse. **Book Sins needles** And awkwardly reversed) But it gets better because this is Ellie-fucking-Watt we're talking about. **Sins needless lip** So Ellie's parents tried to con a drug lord and she ends up paying the price by getting acid poured all over her leg. **Sins needlestack alameda** I'm not sure I would go back to the

same drug lord with the intention of conning him alone because ahem he's a DRUG LORD. **Sins Needles booklet** But she finds love in one of the drug lord's right hand men Javier, **Book Sins needles** Surprise: it doesn't work out and she steals his money and car, **Book Sins needles highway** Look at your choices! The girl is addicted to Making Bad Decisions, **Sins needlestack alameda** You would think after that huge fail she would quit while she was ahead but nooooo. **Chick Lit Sins needlestick** She goes on to con more and more men leaving a trail of bread crumbs until eventually her past catches up to her. **Book Sins needles** Now there are two really big bones I gotta pick with Ellie here. **Book Sins needles eye** First why does she never throw away her cell phone? What kind of con artist keeps the same phone from con to con? A shitty one. **Sins needless lip** So I can throw it in a public pool and watch it float: **Sins Needles booker** Sheesh I can't believe she thought that was romantic at some point, **Sins Needles booking** And yet she never fully takes responsibility for her actions, **Sins Needles kindle books** I really don't think novels with dysfunctional relationships are for me. **Book Sins needles eye** I'm a firm believer in the idea that if you don't have your own shit together perhaps you should not get involved with someone else's: **Sins Needles epub** This might have something to do with how well I understand them which is virtually nil. **Kindle Sins needles california** My only exposure to them is Fifty Shades of Grey and a page of Beautiful Disaster. **PDF Sins needles highway** I'm sure we all can agree that those characters need to sit down with someone and get some well-needed advice, **Sins Needles kindle store** \*skip track\*Ellie's uncle warns her about getting involved with Camden and urges her to focus on getting on her feet, **EBook Sins needles eye** That makes sense considering it was her entire point of returning home and begging for a place to stay, **Book Sins needles** But right after Camden discovers Ellie's plan and double crosses her they go on the run together. **Chick Lit Sins needles california** Are you telling me this Grown Ass Man is still angry about something that happened YEARS AGO in high school? But wait he also loves her: **Sins Needles book** Ellie in turn resents Camden because she got caught trying to rob him, **Sins Needles Chick little caesars** She keeps saying things like How could he do that to me? And I'm like WTF dude. **Sins needlestack alameda** You broke and entered his house and tried to steal his money: **Sins needlesports peak** Also she loves him and he's howt and she can't stop staring at his abs because yeah there goes his shirt, **Sins Needles booklet** )So somewhere along the lines they stop hating each other so much because due to Ellie's stupidity a character dies. **Sins Needles Chick little caesars** Then she's all loosen up my buttons baby sexy time on a car and declarations of love. **Sins needlestack alameda** (Love-love-love I want your love)I hate you Ellie Watt he whispered lips coming closer to mine because I still love you after all these years: **Sins Needles Chick little caesars** "So all the while I'm having this internal discussion if you will with Ellie, **Sins Needles epub file** I'm grilling her about this love that she has with Camden. **Book Sins needles highway** )Oh really? You love him huh? And where did you find this love? I bet it was In A Hopeless Place: **Kindle Sins needles eye** )That's a yes isn't it?I might not be an expert on love and relationships but their. **Sins Needles kindle store** However seeking revenge on someone you claim you've been in love with for years? Does not compute. **Sins Needles booklet** This is probably an indication of where my personal beliefs just got in the way of sympathizing with the two characters, **Sins needlessly complex** I couldn't suspend logic long enough to simply go with it. **Book Sins needles ca** I couldn't relate to the story the characters and their subsequent decisions despite the strong start. **Sins Needles Chick little caesars** Clearly I am in the minority with not loving Sins & Needles so feel free to tell me to kick rocks blow bubbles throw stones and STFU. **Sins Needles travel insurance** More reviews and other fantastical things at Cuddlebuggery Book Blog, **Sins needlessly complex** 1455552194 OH MY FUDGEKNUCKLES !!!!WHAT DID I JUST READ ?!!!! I : **Sins Needles book** " Shock seized me first the butterflies shredding me to pieces, **Sins needless lip** Sins & Needles will be Karina Halle's first release of 2013 and all I can say right now is : **Book Sins needles ca** \*sigh\* okay then lets move on with the review shall we , **Sins Needles Chick litter** That's exactly what Ellie Watt tells herself when she's in the middle of conning someone or paying up for her conning abilities , **Sins Needles booking** Ofcourse we all know that wont be the case anytime soon . **Sins Needles booklet** Escaping from

one of her such Oh-shit-I-fucked-up-with-the-wrong-man situation Ellie finds herself driving back to her hometown . **Kindle Sins needles california** The place that was her refuge and her hell at the same time : **Sins Needles book** Uncle Jim being Ellie's only saving grace every time she or her family needs saving . **Sins Needles pdf editor** Ellie decides to get a job at a Coffee shop somethings better than nothing right something a little too inconspicuous , **Sins Needles Chick litter** And that's where trouble walks in the form of Camden McQueen ! Well that's one trouble I'd handle any day . **Book Sins needlestick** Right ? Hmm lets just say somethings are not forgotten that easily : **Book Sins needles ca** Some wounds definitely know how to resurface when you least expect them . **Sins Needles kindle app** I'm gonna have to stop talking here because If I continue I'll probably develop a verbal diarrhea or something . **Kindle Sins needles eye** Ellie is contradiction on legs ! She has scars that have probably governed her life so far reminders of where she's been : **EBook Sins needles ca** But the choices that she makes here has turned me into a contradictory mess ! I started off unsure of whether I would like her or not , **Sins Needles travel** But holy hell she is FAN-FREAKIN-TASTIC !!!! And then there is Camden , **Sins Needles booking** Karina Halle has quite an exquisite 'Desert Playlist' that bodes well with the feel of this book . **Book Sins needles ca** Sins and Needles is her first Dark Contemporary romance and the woman sure knows how to spin one hell of a tale : **EPub Sins needles eye** So guys and gals grab those popcorns soda cans and candy floss sit back and enjoy your ride ! 1455552194 OH, **Sins needless lip** The story kept me enthralled the entire time and I loved every minute of it, **Sins Needles booker** The world is bad and I'm just trying to survive in it, **Book Sins needlestick** Ellie Watt is not just any other girl she's a con artist and an excellent one at that: **Sins needlesports** She's spent her entire life being on the run from the people she's framed and she's spent her entire life being someone else: **Kindle Sins needles california** I don't think I'd ever gone on a vacation my whole life, **Sins needlessly complex** I've said it while talking to myself in the mirror like some Tarantino cliché, **Sins Needles booker** What she didn't expect was for her former high school friend Camden McQueen to still be in the same town they grew up in, **Sins needlessly complex** He was like a living breathing painting on an all-male canvas: **Book Sins needles highway** In high school Camden used to have a crush on Ellie but she never really returned his feelings: **Sins needlestick ror2** Now with Camden being so successful Ellie has found herself the perfect target of her new and hopefully final scam. **Sins needlestack alameda** She hopes to use the feelings he had for her to make the scam an easy job: **EPub Sins needles** But what seems like a done deal turns out to be a whole lot more difficult than anyone could have ever expected. **Book Sins needles** What follows next is a roller coaster ride of events-- The story is fast-paced and constantly keeps you on edge. **Sins needlestack alameda** Whenever you think you've figured it out something unexpected happens that will make you re-evaluate your opinion about everything you've just read and all the people involved in it. **Book Sins needles** And I know many people have used that image in their reviews but come on do you really ever get tired of looking at that?This book came as a complete shock to me. **Sins Needles Chick little caesars** It's one of those where I have no idea why I read it it must be some sort of masochistic curiosity that makes me pick up books I'm almost certain I won't like: **Book Sins needles highway** For one thing it's an indie novel and my luck with those is virtually non-existent. **PDF Sins needles eye** For another thing it's a contemporary romance and as soon as I hear those two words put together I can feel the eye rolls starting. **Book Sins needles** But Sins & Needles is my own personal rule-breaker and I cannot fully convey just how delighted I am to have discovered the dark sexy world of Karina Halle. **PDF Sins needles california** I'm so sorry to drag it down with such an awful comparison but Sins & Needles just makes me wonder more than ever why Fifty Shades of Grey is so popular: **Sins needlesports** That question has played on my mind ever since reading the cringyness that is Christian and Ana but I have come up with suggestions like, **Sins Needles pdf converter** Though I'm no writer myself I imagine it must be very difficult to find that perfect balance with a love interest, **Book Sins needles california** To make a character that you simultaneously want to cuddle because he's so freaking adorable and want to tear his clothes off a moment later, **Book Sins needlestick** He is flawed and doesn't always do the right thing but you

can't help but love him all the same. **Sins Needles Chick litter box** The plot of this book is about Ellie Watt the troubled daughter of two criminals who has been left physically and emotionally scarred by their escapades: **Sins Needles epubor** Ellie Watt doesn't know who she is she's afraid to be who she is so she creates new identities as she goes, **Book Sins needlestick** Her dodgy past chases her back to her hometown to live with her uncle she is sure no one will recognise her. **Sins Needles booklet** Camden McQueen remembers her all too well and with him comes memories that Ellie has been trying to forget. **Book Sins needles california** The other thing about contemporary romances that make them not a favourite of mine is the formula that all of them seem to follow: **Sins Needles booker** The characters all seem to have similar characteristics the plot moves through the same points of denial and jealousy. **EBook Sins needles california** but Sins & Needles feels so different from all of that, **Book Sins needles ca** Perhaps its because the characters aren't always completely likeable, **Sins Needles booking** Or perhaps its because Halle throws in some well-placed surprises that take you off guard several times: **Sins Needles Chick little caesars** Perhaps its the exciting mafia subplot that makes this book so different turning Ellie and Camden into a kind of Bonnie and Clyde duo. **Book Sins needlestick** On the subject of not entirely likeable characters I've read where some people say they don't like Ellie and I can see why, **Chick Lit Sins needles gif** She's not a good person and she's willing to screw people over to get her own way: **EBook Sins needles ca** You should be aware of this before reading because it could affect your enjoyment: **Sins Needles booking** Or maybe not so much like her as I care about her and I'm curious about her: **Book Sins needles california** She's not evil for me she's trying to make her way in the world, **Kindle Sins needles highway** She's done many things I hate but she hates herself for them equally and I just love the complexity of her character. **Sins Needles traveling** Maybe you think I'm crazy but there's always been something about love stories with bad people that has totally pulled me in. **Book Sins needles eye** Where both of them have dark sides that make them as bad as each other that make them absolutely perfect for one another, **Book Sins needles** It's one of the reasons I love Cathy and Heathcliff and it's one of my favourite elements of Gone Girl: **Sins Needles book** Plus I absolutely loved the musical references in this book I felt like it created a soundtrack to the story which constantly played in the background, **Book Sins needlestick** I'm also a big Dire Straits fan and I had to break out my old albums to listen again after reading this, **Book Sins needles california** Come up on different streetsThey both were streets of shameBoth dirty both mean Yes and the dream was just the same. **Sins needlestack alameda** I don't know why Halle didn't go the traditional publishing route because this is far better than many books that the main publishers churn out: **Sins needlestick ror2** 145552194

I liked Ellie and Cam's journey towards redemption, **Sins Needles booking** And I have no idea whether the last one can be redeemed or not, **Sins Needles booking** Along with the twists and turns suspense and drama Karina Halle has done a wonderful job in portraying this dark side of human nature. **Sins needles sports peak** Ta-Ta!! 1455552194 Sometimes you need to bury yourself so deep in fiction that you forget that the real world exists: **Sins needles sports** Sins & Needles is a story about drug lords con artists the Mafia and a sexy tattoo artist. **Kindle Sins needles eye** But isn't that what makes fiction so amazing? There's no rules anything can happen anything goes. **Book Sins needles california** It's like Quentin Tarantino & Martin Scorsese wrote a book and had Kristen Ashley and M. **Sins needless lip** I won't give a lot away about the plot because experiencing it raw is half the fun but I will say that the characters are nothing short of perfect: **Sins Needles book** When she's not being kick ass she's saying things that are: **Sins needless definition** Get your head out of your vagina I told myself and sat up in the chair a little straighter. **Sins Needles booklet** Sergei my future fake husband wasn't short but I had long arms and as I pushed aside his gut I found his balls And of course the banter: **Book Sins needles highway** Camden's transformation from sweet goth friend to tattooed take me in the grass alpha-male was toe curling. **Book Sins needlestick** yesterday!! Not just because of how I was left hanging but everything between Ellie and Camden was perfect. **Book Sins needles ca** And if we're lucky we're given the chance to make things right again. **Sins Needles pdf** " Don't try and con a con man A-helluva-lot STARS!!! Do you think because you can't see my scars that they don't exist? That's the trouble with pain Ellie, **Book Sins needles eye** If you're lucky you can wear it for all the world to see. **Sins needles sports peak** Most people have their pain deep inside in places no one ever goes. **Book Sins needles eye** Camden McQueen is the last person Ellie would have expected to meet again: **Sins needlestick** The town's Sheriff son ex-goth and school scapegoat altogether freak and only friend grew up to be a gorgeous tattoo artist, **Sins Needles travelers insurance** He doesn't have the scars but he has the burdens that come with them, **Sins Needles epub reader** I hate you Ellie Watt he whispered lips coming closer to

For information visit {site\_link} [www.authorkarinahalle.com/books](http://www.authorkarinahalle.com/books). . Ellie Watt is a woman on the run. Ellie swears

she's through with her life of crime. His name is Camden McQueen. The mark becomes the master. . . Approx. 100000 words. This is about taking control. Now Camden wants to get back at her. I own you Ellie Watt he whispered. Ellie is a con artist a liar and a thief. Camden thinks of her as an unredeemable soul. Not until it's too late. And I want to know more. You have to let go of your quest. His eyes looked wet in the table lamp's amber light. Art? Like an abstract painting. But your beauty is just staring you in the face. Ellie he said sitting back down. Let me tattoo your scars. (...) I put my sins in his hands. I'm not bad. Well that's where you are completely wrong dear Ellie. You are bad. You did all kinds of bad illegal and stupid deeds. All those petty excuses. I just can't hear it anymore. Overall I enjoyed Sins & Needles. BTW yeah spoilers 'cause that's how I roll. Sins & Needles started off very strong for me. She's someone I'd even consider badass. at first. Gypsy Woman stay the hell away from me. Ellie is one special character. Or at the very least sympathize with her. I thought I could. I mean I tried really really hard to. It's just the way Ellie went about it that bothered me. I'll just rob him. (Trifling friend indeed.) Actually I kinda am. I know I know. 2. I always put myself in destructive situations. Choose a different career when you grew up. B. Choose the same career path of your parents because of reasons. Where everything I do is flipped. Look at your life Ellie. Intervention I say! I see. (Somebody get my phone. All the reader is given is some one liner from Mr. Creep saying he'd always find her. (I don't look innocent with this big big mess on.)) 3. I want your love and I want your revenge. No not you Tay-Tay. (I want your drama. The touch of your hand.) Wait what? I'm raging right about now. Does your head hurt? Great. Here's an ice pack. But that's not even the half of it. again. (I want your leather-studded kiss in the sand. What is your deal?! I scream at her grabbing her shoulders. (It's the way I'm feeling I just can't deny. (But I've gotta let it go. whatever-you-wanna-call-it. doesn't make sense to me. But I get it. Sometimes you can't decide who you love or whatnot. So yeah. Not my kind of book. I'M . I DON'T KNOW WHAT TO SAY HERE . I . I need to think and calm down before I . Then he grabbed my face and kissed me hard. This will be the last time . Ellie and Camden . they have a history . A history that did not quite end on a good note . But hey that was the past and this is now . Camden fucking McQueen ! He . And this book was no exception . MY.GOD. ). I was always working always on. It was a full-time job pretending to be someone else. This will be the last time. I've said that before. I've said it a lot. And that ending. But that ending. well there's the hot sex. There's the confident alpha male thing. There's the flirty banter. To make him sexy and yet more than a sex object. Awesome. Eden White. Emily Watson. The list goes on. But she's wrong. But I like her because of this. Two bad people who completely deserve one another. God it's so beautiful. Oh well whatever. I love this very sexy series and cannot wait for more. She is a con artist and he is a tattoo-artist. She has the SINS and he has the NEEDLES. Watch her surrender her sins to his needles. Jesus he whispered gaze lingering everywhere. I keep forgetting that you're art already. I put my sins in his hands. But one time she got hurt. and it changed her life forever. She did what she had learned the best. grifting. Finally being Ellie Watt again. Now Readers. He was the only person more weird than her. He was Camden McQueen. He was always there for her. But they had one major difference. And then one day. She got a chance to be accepted by everyone. She took it without thinking twice. What did she give up?? Camden McQueen. She crushed his heart beneath her feet that day. I'm not bad. The world is bad and I'm just trying to survive in it. And now seven years later they meet again. But this time he is no longer a weirdo. They meet and sparks fly but. Pleasure's a sin and sometimes sin's a pleasure. She decides to rob Camden McQueen. Oh she justifies herself like hundreds of times before. But this time something unexpected happens. This time she had chosen the wrong pawn. This time. No more Readers. You'll have to grab this book to know what happens next. But I'll tell you this much. it's just the beginning. You're a con artist. A liar. A thief. An unredeemable soul. You can't be reformed. You can't be saved. And you'll die alone. And you have no inkling about what is to come next. Someone's about to enter. A new story will unfold. And by the end you'll be left reeling. Javier. So Readers prepare yourself for the onslaught that is. Sins & Needles. I hated her for trying to justify her actions. I hated her for blaming others. I hated her for wearing her scars as a badge. Camden too choose the wrong path. And there's this last individual. A beast. A monster. Both of them still have a long way to go. The side which lives on

spite. Which is capable of hating with a passion. Which lives for revenge. Capable of ruining others for gain and never looking back. And now I'm breathlessly waiting for. Perhaps love can be their redemption after all. -----That's all for now Readers. It's a story about redemption, justification. It's a story that perhaps seems a little unbelievable. Leighton edit. A hot sexy romantic action packed book. Ellie is a kick ass tell it like it is con artist. I mean who hasn't thought that!? Then there's. I pried my hands off of it and reached out. I glared at him. Is the gun really necessary? No he admitted. It's just fun to have one. Like an extra penis I mused. He smiled unkindly. Something like that. The sexual tension was palpable and the pace was gripping. It swept me away entertained me and left me. OH MY GOD I can't believe how it left me. The ending killed me and the sequel better be released. The perfect blend of push and pull. The perfect blend of salty and sweet. The perfect blend of making love and f\*\*king. Sometimes you just need to get lost in the unbelievable. Get lost in the crazy. Get lost in fiction. I'm not even sure I wanted to be found. READ ON! You don't want it to be compared. This was one of them. Was. Blown. So. it may not completely make sense you have been warned. It's a fully adult contemporary novel. The character development in this book is unsurpassable. These people are REAL. They are 100% completely genuine. Together they work! They just do! Plain and simple. The ending: it broke me. I was a complete mess. Then I went into instant withdrawal. --An advance copy was provided by the publisher for review
