

Classic Rock Albums: Nirvana Nevermind By Jim Berkenstadt **Book Classic Rock albums** It was enlightening to read about the recording process of this multi-platinum/Diamond certified magnum opus (the phenomenon that followed makes me use the word rather liberally) by the band that just wanted like-minded people to listen to their music and promote related acts but managed to move several generations of music lovers across the globe. **Classic rock albums released in december** I was under the impression that it was a demo tape (which it eventually became) as opposed to a second LP under Nirvana's older label with the same producer as on Nevermind; bonus that he was a small-time producer at the time and it was a gamble that paid off. **Classic Rock Albums books** And while I love Nevermind as it is I definitely cherish the amped up guitars on the Smart Sessions more with the In-Bloom version recorded here especially outclassing the one on Nevermind. **Classic Rock Albums ebookers** But interestingly while he basically regurgitated Chad's drum lines on the songs that had been recorded during the Smart Sessions one cannot argue that his drum fills were so much more organic as compared to Chad's which were pivotal to elevating the tunes that much. **Book Classic Rock albums** I'd love to read something similar for few other rock albums that are important in rock music (in my book) - The Wall (Pink Floyd) Loveless (My Bloody Valentine) Definitely Maybe/(What's the Story) Morning Glory/Be Here Now (Oasis) Blood Sugar Sex Magik/Californiacation (RHCP) Hybrid Theory/Meteora (Linkin Park) - I'm sure there are more that I am missing. **Book Classic Rock albums** An international authority on Rock And Roll he served as historical consultant to Olivia Harrison's HBO Emmy winning film George Harrison: Living in the Material World directed by Martin Scorsese and as historical consultant to The Beatles' Company Apple Corps and the Estate of George Harrison. **Classic Rock Albums kindle books** An international authority on Rock And Roll he served as historical consultant to Olivia Harrison's HBO Emmy winning film George Harrison: Living in the Material World directed by Martin Scorsese and as historical consultant to The Beatles' Company Apple Corps and the Estate of George Harrison:
