

The Curse of 27 By Sarah Milne **The curse of frankenstein 1957 full book** On the plus side Milne steers well clear of sensationalist writing and (for the most part) wacky conspiracy theories so you need not necessarily believe that there's any strange significance to the 27 Club to enjoy simply reading about these musicians who died far too young,5 StarsA mildly interesting book made up of short bios of some of the Forever 27s: **Curse 2 the bite** There isn't a great deal of information here certainly nothing Wikipedia couldn't tell you and as such it won't hold much interest for hardcore fans[1]
