

Sunstone, Vol. 1 By Stjepan Šejić **Sunstone, Vol. 1oak** As a submissive myself I went into Sunstone thinking it would normalize BDSM; it'd make BDSM seem regular so to speak and demonstrate that kink culture isn't something to be frightened of but rather something quite romantic - personal exciting and deeply intimate. **Sunstone, Vol. 1 fantasy art** Reading it I did think well this is cute and sweet and charming and funny and it sure does make BDSM seem regular and make kink culture out as nothing to be frightened of - something innately human romantic exciting and deeply intimate. **Sunstone, Vol. 1 epub** So I'm not sure how well Sunstone really achieves its goal of broadening the horizons of vanilla (that's what us BDSM people call not-BDSM people) readers and making BDSM seem a little more accessible and appropriate than not at all. **Epub Sunstone, Vol. 1080p** Kind of how the typical boy meets girl romcom plot is a ridiculous oversimplification of the actual scenarios that inspire it Sunstone's girl meets girl plot is an excuse for little more than a sweet borderline saccharine romance tale. **EBook Sunstone, Vol. 1990** That might be a thing that happens sure and the book does a decent job of rationalizing the intense nervous emotion that it entails but boiled down to its elements it's a sappy love story fast-tracked to get to the meat of the relationship. **Sunstone, Vol. 1 kindle paperwhite** A sappy love story lives and dies on its characters after all and writer and artist Stjepan Šejić has created two genuinely wonderful people in his characters of Lisa and Ally. **Book Sunstone, Vol. 1998** Honestly (and I'm not too sure how honest I should be about this) this book's biggest strength - at least for me - is the way it manages to so perfectly capture the feelings of the bondage fetish masochism and even sadism. **Sunstone, Vol. 1st** Like it seems to focus very specifically on the urges as if they are innate and primal; there's no sugar-coated guff about experimenting it's all since I was a teenager I've wanted to be dominated stuff. **Sunstone, Vol. 1p36 deletion** I've always wanted to be tied up - that's how people think! It's so respectful and regular and it warms my heart that it doesn't tip-toe around the subject like it's alien or weird. **Book Sunstone, Vol. 1996** So hey here's a dilemma - am I meant to rate this book on how sexy it is? Because y'know it is pretty sexy (again it aligns with my desires and interests so not exactly a trustworthy judgement call coming from me) but I don't know if. **Book Sunstone, Vol. 1997** Is that important? Is it important that this stuff can be represented in the same frank normalized way as your the overused and generally accepted as red boy meets girl archetype? Perhaps it is. **Sunstone, Vol. 1u server** Stjepan Šejić Bullet Review: This was recommended oddly enough by my local comic bookstore guy - and he recommended it to me not for the hot lesbian bondage sex but for the insane humor and narrative. **Fantasy Sunstone, Vol. 1995** I've never read any erotic comics before certainly no lesbian BDSM but this was absolutely charming and adorable! Fifty Shades eat your heart out! Side note: did you notice the offhand remark to Twilight?! 10 points if you do! Reread: Still as hilarious as the first time. **Sunstone, Vol. 1u server** Can't wait to hop onto Vol 2 finally! Stjepan Šejić A lot of great reviews have already been written on this work so I'll keep this short and point out my impressions as a non-BDSM lesbian who has triggers around exploitive porn. **Book Sunstone, Vol. 1999** At least I thought it did a good job of normalizing the desires from both the domme and sub perspectives where the kink aspect of their sexuality was innate in both characters from early on in their lives. **Sunstone, Vol. 1 kindle paperwhite** If you've read 'Owning Regina' by Lorelei Elstrom it has a similar take where the kink (and good partner match) takes precedence as a sexual orientation in itself over the actual gender/sex of the partner. **Sunstone, Vol. 1oak** Despite this seeming to be only about BDSM the author spent time showing these characters in their friendship (the non-BDSM aspect) vs them in their BDSM play and also independent of each other in their own lives. **Book Sunstone, Vol. 1998** pleasantly surprised! not sure how i feel about the guy friend (he said something that kind of rubbed me the wrong way) but i'm interested to see where this goes Stjepan Šejić Re-read 1/16/20: I didn't love this quite as much on re-read as I did the first time I read it but it was still really good and I'm excited to finally dive further into the series! Original read 12/11/18: I LOVED THIS SO MUCH OMG. **Sunstone, Vol. 1p36 deletion** *kisses my gay ass fingertips* Stjepan Šejić It appears at a glance here at the beginning of some reviews that it is important to quickly write something like "well it's not my kinda thing" or "Whoa! I was not expecting that!" as this series focuses on an F/F relationship with a (light

he defensively says!) (but constantly present) bdsm theme. **Book Sunstone, Vol. 1995** I read everything from picture books to Russian novels to YA to romances now so knowing the series focused on this topic wasn't something that would make me run away from it let's say. **Kindle Sunstone, Vol. 1984** I got it from the library system (which NO library in our system had bought until recently probably because of the topic) because I had just read and fallen in love (especially) with the artwork of Stjepan Šejić's Harleen though that story had this darkly dangerous and possibly seductive aspect of the love story where a psychiatrist Dr. **Fantasy Sunstone, Vol. 1995** So Sunstone the title of this series is also the "safe word" that two women (one with no actual experience in this area) use for their developing "play" together (and I have the feeling based on the unthreatening tone of the series so far that they will never feel the need to use it). **Kindle Sunstone, Vol. 1 review** This is fantasy so it's okay if everything is red if the two main characters Allison and Lisa are redheads and Ally's best friend and former partner a male Alan--who designs furniture and other equipment for this kind of play--is also a redhead. **Sunstone, Vol. 1st** What does it mean that every single person we meet is basically gorgeous and that these three in particular look very similar and have similar-sounding names? And they go to a club to help develop their fantasies The Crimson Club? I'm not sure yet but I have to say almost nothing explicitly physical happens (yet) which would seem to be the point here about desire/sex that much of it is about performance role-playing the imagination what goes on in one's head (maybe) even more than what happens between and with bodies. **Book Sunstone, Vol. 1984** This is really (so far?) quite sweet a kind of fictional introduction to bdsm (for Lisa and us) in a romantic we're-all-just-friends setting where everything is beautiful and they mainly talk all the time as a kind of foreplay I think. **Book Sunstone, Vol. 1990** In their personal lives they work (though in the way of romance from Austen to now these people seem to talk a lot and have coffee in upscale coffee shops and go to sophisticated clubs) and they also take it all down a level and all play video games and are Trekkie geeks and Ally reads comics. **Sunstone, Vol. 1oak** The point is that bdsm play is perfectly all within the range of "normal" and they are all normal not pervs any more than anyone else are pervs! Sex positivity! So this came out five years ago and I think it is a very good artistic accomplishment. **Sunstone, Vol. 1vs1** It's basically a romance where two women who share a similar kink meet online become friends want to have sex with each other but find out that they may be getting into more than they bargained for (no not a dungeon! I mean love! It's a romance I said!). **Book Sunstone, Vol. 1990** It's about the importance of trust an issue in any developing relationship but this one also asks the eternal question you all want to know: Can there be a true bond that is formed through bondage? Are any of these people "real"? Well we also meet Alan's partner Cris (not into bdsm but designs equipment with him and he makes fun of the whole bondage thing so we won't take it all TOO seriously) Cassie and Tom and they are all also red-haired people! Hmm! And this takes place in autumn with its reddening leaves. **Sunstone, Vol. 1vs1** I'll read on! I do this for you as your friendly reviewer! Hey somebody's gotta do it! Might as well be me (joining the thousands of those who have already read and rated it). **PDF Sunstone, Vol. 1997** And can I just say how freaking adorable and heartwarming it was to see how nervous both of them were to dive into this world for the first time? Like it was the cutest thing I've read in forever. **Book Sunstone, Vol. 1999** Blog | Twitter | Tumblr | Instagram | Youtube | Twitch Stjepan Šejić If I catch you reading Fifty Shades of Grey I am going to politely remove it from your grasp and hand you a copy of Sunstone instead. **Sunstone, Vol. 1wqj4** First of all it is an incredibly beautiful informative and healthy exploration of sexuality that forces us to acknowledge that sex is a completely normal part of our lives which we need to stop being so damn taboo about. **EPub Sunstone, Vol. 1999** Their first in-person meeting has all the awkward moments that anyone on a first date can imagine and as their relationship blossoms beyond the boudoir it's hard not to fall for the characters as well. **Sunstone, Vol. 1 pdf download** They explore their roles as sub and domme but mainly through Lisa the story also deals with friendship relationships and that butterfly feeling you get in your stomach (and elsewhere) when you fall in love:

Sunstone, Vol. 1 booklet

Stjepan Šejić is a Croatian comic book writer and artist known for his work on the series Witchblade Aphrodite IX Sunstone and The Darkness among others, **EPub Sunstone, Vol. 123books** »From critically-acclaimed creator Stjepan Šejić (Death Vigil Ravine Aphrodite IX Witchblade) comes Sunstone a love story like no other: **Book Sunstone, Vol. 1990** Lisa always felt like something was missing from her love life—until she met Ally: **Book Sunstone, Vol. 1995** Ally was implacably ordinary—successful job nice house an average childhood—except for her preference for bedroom domination: **Book Sunstone, Vol. 1991** Originally posted on DeviantArt this books collects the first volume of the often erotic always amusing and surprisingly heartfelt Sunstone, **Sunstone, Vol. 1vs1** Stjepan Šejić I'd really like to read Sunstone from the perspective of someone who isn't intimately familiar with BDSM culture: **Sunstone, Vol. 1vs1** Trying to gain acceptance and understanding I guess with a readerbase that has no motivation to accept it and no basis of understanding it. **Sunstone, Vol. 1n914** I already accept BDSM as something approaching the core of my very being so I can't say either way. **Sunstone, Vol. 1tb ssd** What I can do is tell you exactly why I liked this book: **Sunstone, Vol. 1oak** It might not be especially useful but if you're considering reading it yourself you probably already know if you're turned off by the subject matter, **Sunstone, Vol. 1ms** I'll fill you in then on what I thought of the actual content. **Book Sunstone, Vol. 1997** And like a romcom it breaks most all the rules of believable human interaction almost immediately, **Sunstone, Vol. 1 ebook reader** Neither a thumbs down or thumbs up this is merely an observation: Sunstone isn't realistic in the slightest: **Sunstone, Vol. 1n914** Lisa and Ally meet online and within two months they're walking naked through each other's houses. **Sunstone, Vol. 1tb ssd** They play to tropes just as the overall plot does but again - there's certainly nothing wrong with that, **Sunstone, Vol. 1x12** Both girls are silly shy a little crazy perhaps but they've got huge hearts and we explore their blossoming relationship in a way that makes us care for them: **Book Sunstone, Vol. 1998** Their inner voices in particular are very natural and believable though certainly exaggerated in a way that makes them, **Book Sunstone, Vol. 1996** They're very appealingly rough human beings - that kind of imperfect in all the perfect ways quality that makes their mundane lives exciting to read instead of just dull. **Kindle Sunstone, Vol. 1999** (It helps that Šejić has a wit and warmth to his writing that seems to come instinctively - nothing feels particularly forced: **Book Sunstone, Vol. 1984**)Ally is desperately lonely girl who lives her dreams with no-one to share them with. **Book Sunstone, Vol. 1995** Lisa is a repressed excited girl who is exploring her desires: **EBook Sunstone, Vol. 1990** The two fall in love and are of course perfect for each other: **Book Sunstone, Vol. 1999** There are complications there are perfect moments of pure bliss there are dopey and terrible unromantic scenes of uneventful domestic time-wasting and that's really all there is to it: **Book Sunstone, Vol. 1995** Two nice characters fall in love in a way that makes you want to read about their falling in love, **Sunstone, Vol. 1 booklet** It isn't some huge taboo it isn't treated with a deft touch or a subtle twist it's just all out in the open, **Book Sunstone, Vol. 1968** Hell it feels so normal so factual that when the actual sex happened I was kind of taken aback, **Sunstone, Vol. 1 books** I mean it's not like porn (well it is but shhhh) but some scenes got me a bit hot under the collar certainly, **Sunstone, Vol. 1 ebook reader** Usually I wouldn't mention either way if a book accomplished that so what IS that an accomplishment? I have never reviewed an erotic comic before, **Sunstone, Vol. 1st** Fraction and Zdarksy explored sexual awakenings and exploration and how it links with romance and humanity and life and Šejić has basically done the same here. **Sunstone, Vol. 1 epublising** Sex Criminals is a clever book with a minimalist art style and storytelling intrigue and a sort of sci-fi hook towards the end of the first volume: **Sunstone, Vol. 1oak** Sunstone spares no room for subtly with deft richly illustrated panels of squeaking latex and nude bodies and women having orgasms, **Sunstone, Vol. 1vs1** It's not complex per se but you know I wouldn't dare say Sunstone isn't varied. **Book Sunstone, Vol. 1991** Is Sunstone important? The fact that I can only name one genuine contemporary is perhaps a little concerning but honestly when

it comes down to brass tacks Sunstone is fluff, **Sunstone, Vol. 1 kindle app** It's also deeply erotic and explores the emotions and sensations attached to prevalent yet oft misunderstood set of interconnecting fetishes. **Book Sunstone, Vol. 1984** I won't say though that Sunstone isn't cheap quasi-manipulative romantic fluff, **Sunstone, Vol. 1wqj4** It hit my buttons (no pun intended) pretty flawlessly it's stunningly illustrated and it's cute. **Sunstone, Vol. 1z tracking** It's a feelgood adorable thoroughly entertaining time with some new gay best friends of yours who fall in love who just also happen to often have insatiable kinky gay sex: **Book Sunstone, Vol. 1991** Why not eh? I guess in its own way on its own time Sunstone really is very very important, **Sunstone, Vol. 1 ebook free** Stjepan Šejić Seeing a book called Sunstone from Top Cow comics I expected some kind of fantasy book: **Sunstone, Vol. 1u server** I never could have guessed that Sunstone would refer to the safe word between a BDSM couple, **Book Sunstone, Vol. 1999** That being said Sejić writes really snappy dialogue and is a gifted artist: **Sunstone, Vol. 1 kindle direct** The book reminds me of the humor and art style of Strangers in Paradise crossed with Fifty Shades of Gray: **EPub Sunstone, Vol. 1990** You know what? He hit the nail on the head - this book is hilarious and charming with the most adorable narrative voice I've read in a long while. **Book Sunstone, Vol. 1984** Does a male author/illustrator somehow adversely impact the depiction of a f/f relationship? No. **Book Sunstone, Vol. 1999** The cover looks like it may be but this is a contemporary romance in our everyday world: **Sunstone, Vol. 1oak** It seems both characters are heterosexual and this is their first time with another woman: **EPub Sunstone, Vol. 1997** Does the lack of woman on woman experience or bisexuality make the f/f aspect any less sincere? No. **Sunstone, Vol. 1tb ssd** It actually ends up being a fluffy and sweet romance between Ally and Lisa. **Sunstone, Vol. 1ms** Ally though the domme is a rather geeky gamer type person while Lisa the sub actually shows some dominance outside of the BDSM, **EPub Sunstone, Vol. 1995** Overall with this read we get gorgeous artwork and a sweet romance with a nice dose of humor that also happens to have graphic depictions of Lisa and Ally's sexual relationship. **Sunstone, Vol. 1 kindle paperwhite** Stjepan Šejić i was curious about this series and honestly a little nervous going into it but it turns out this was actually quite sweet, **Sunstone, Vol. 1z tracking** The only reason I'm not giving it a full 5 star is bc the sex scenes were fade to black but everything else about this was PERFECT: **Sunstone, Vol. 1 kindle fire** Harleen Quinn tries to "save" Joker and gets sucked down into his madness becoming the wild and dangerous Harley Quinn instead, **Book Sunstone, Vol. 1997** Harleen will make my Best Of comics list of the year I know this already: **EPub Sunstone, Vol. 1996** Part of Lisa's (she's writing this) introduction to bdsm seems to be an argument for how normal and important desire is in its various forms. **Book Sunstone, Vol. 1995** So many of the people in this are described as "nerds" on the various technologies of this practice. **Sunstone, Vol. 1 kindle paperwhite** they are just (gorgeous) yuppies not some kind of stereotypical alt freaks (whatever that might even mean I know). **PDF Sunstone, Vol. 1997** It's lovely dreamy soft-lit seductive/hot red coloring cloudy pastel backgrounds the very foundation of fantasy: **Sunstone, Vol. 1 fantasy art** but it doesn't matter it's romance fantasy and (safely?) sweeter than I expected: **Sunstone, Vol. 1oak** Stjepan Šejić Sunstone was everything I wanted and oh so much more! I'm so pleased I'm actually grinning writing this review: **Sunstone, Vol. 1x12** I laid on the floor in front of my bookshelves read this got up came to my computer and started typing this review with a goofy grin on my face, **Sunstone, Vol. 1 comics online** It just won't go away! I'm so impressed! Stjepan Šejić worked on the end art of Rat Queens Vol. **Book Sunstone, Vol. 1996** 2: The Far Reaching Tentacles of N'rygoth and I have to say that I wasn't that impressed with it. **Book Sunstone, Vol. 1995** I was a little apprehensive to go into this but when I finally found a F/F BDSM graphic-novel (thank you Chelsea) I really couldn't pass it up. **Fantasy Sunstone, Vol. 1995** I ended up not only loving the content of this but also Stjepan Šejić's art, **Sunstone, Vol. 1 comics online** The whole thing just felt like a positive celebration of female sexuality. **Kindle Sunstone, Vol. 1 review** Oh and the entire color pallet of this comic is actually to die for too. **Book Sunstone, Vol. 1996** Obviously by now you should get the idea what this is about and how this is totally for adults with open minds, **Book Sunstone, Vol. 1998** If you can't admire the female body and you don't want to read about BDSM

themes then this probably isn't the graphic-novel for you: **Book Sunstone, Vol. 1991** This story is about two adorable girls that meet online because of a particular itch they both want scratched desperately: **Book Sunstone, Vol. 1990** This story is actually Tarantino-ed a little bit where we see our sub Lisa writing a story about the love of her life: **Book Sunstone, Vol. 1968** We are then transported into the past where Lisa is meeting Ally her Dom online. **Sunstone, Vol. 1x12** One night Lisa ends up asking Ally if she would finally like to meet so that they can scratch that itch I talked about previously: **Sunstone, Vol. 1u server** This comic portrays BDSM so healthily and highlights how important trust and communication are, **Book Sunstone, Vol. 1990** Open lines of communication and asking questions were both such pivotal plot points in this story and so important to be represented, **Book Sunstone, Vol. 1993** Stjepan Šejić is doing the Lord's work with this comic I swear. **Book Sunstone, Vol. 1999** They even touch on the importance of aftercare and how it's not just for bodies but for minds too: **Sunstone, Vol. 1oak** Honestly this graphic-novel impressed the hell out of me and I cannot wait to order the rest of these. **PDF Sunstone, Vol. 1992** Also I loved Stjepan Šejić's drawn out note in the back, **Book Sunstone, Vol. 1999** Like can I please have creative blocks that end up developing into something as amazing as Sunstone: **Sunstone, Vol. 1 kindle paperwhite** I loved this personal touch and it made me want to read everything he has ever touched. **Book Sunstone, Vol. 1990** He also made me fall in love with his wife and now I need to read Blood Stain , **Sunstone, Vol. 1p36 deletion** Also let's talk about how they are totally the pinnacle of relationship goals. **Book Sunstone, Vol. 1996** And if you're into great characters and wonderful sweet funny romance stories that explore sexuality then I am also going to hand you a copy of Sunstone: **Sunstone, Vol. 1u server** To be clear this is a story that heavily features BDSM but I want you to set aside any preconceived notions you have about that and read it anyway. **Sunstone, Vol. 1x12** Now while BDSM might be a kink for some people that does not make it any less important as a part of sexual exploration, **Sunstone, Vol. 1z tracking** But the key to BDSM is something that unlike Fifty Shades Sunstone makes very clear: BDSM is about consent and it is about trust: **Sunstone, Vol. 1 kindle paperwhite** Lisa and Ally meet online and begin a friendship based on their shared kink and their respective roles as sub and domme: **Sunstone, Vol. 1vs1** Yes this book features BDSM and erotica but just as importantly it is about very human characters that many of us can relate to in many ways. «Sexual nerds. That is what BDSM people are behind all the pretense. Lisa's tastes were always unique. Longing to be restrained without restraint. Sunstone Vol. 1

this was magic. Putting down the book though I realize. well I ALREADY thought those things. So all Sunstone really did was reaffirm my beliefs. Ah poop. So Sunstone. it's a romcom really. That's not a problem of course. It suits the genre perfectly. well they're like friends you haven't met yet really. Like I said - it works perfectly for a romcom. Again it's very natural. It's the perfect execution of a very traditional formula. What else is there to say? Oh. Right. Also there's bondage sex in it. Frank open and. well. yeah normalized completely. Like. oh full frontal female nudity. Oh right yeah this is an erotic romantic comedy. I had legitimately forgotten. And now there's tits. Ohhhh myyyyy. like is that okay to say? This book's hot. A bit turned-on so to speak. Not even Sex Criminals was quite on this level of. sexy. sex. sextimes. On the other hand. it is very similar to Sex Criminals. It's a lot more to-the-point than Sex Criminals though. And. sitting on the bus and buying coffee and playing videogames. I said Sex Criminals was important. Really light fluffy lesbian romantic comedy.

Sunstone perhaps is important. Important? Sure. Artful? .maybe not so much. I love it a lot though. The subject matter isn't really my thing. First off is it exploitive? No. Is this in the fantasy genre (i.e. vampires demons unicorns dragons)? No. Is BDSM well represented? I think so. It didn't seem fetishized or anything. Are the characters lesbian? No. so I guess ultimately bisexual. Is there nudity? Yes. Is it erotic? For some maybe. Is this a romance? Yes. Are the characters good? Yep. Recommend? Yes. The art again is gorgeous sexy mostly in shades of red. . . It was so beautifully done without ever feeling like porn. They talk for over two months and become fast friends. The rest is about the beginnings of their BDSM relationship. Hence my still stupid grin. Sunstone is to date the best graphic-novel I've ever read. I wish I could give it all the stars. Read more at [WWAC Stjepan Šejić](#).
