

Rise of the Flame (The Eura Chronicles #1) By K.N. Lee **Rise of the flame fantasy game** Lilae is taken from her home just an hour after she is born and we follow her life with her younger years just getting cameos so it's not bogging down the forward movement of the plot. **Book Rise of the flame retardant** The misogyny was strong with this one and it almost felt like the author was accepting of that? Encouraging it? I don't know what that was about but it was gross and skeevey. **Rise of the Flame fiction** And his initial obsession over Lily (I refuse to call her Lilae as all I can hear when I read that is a valley girl going Lilaaaaaaay!) made no damn sense other than as a plot device. **Fantasy Rise of the flame retardant** I think the lack of information might have been done to add some mystery to the story and for the most part it worked because it kept me guessing and turning the pages to find out what was going on. **Rise of the flame ebook pdf download** I don't mind when an author leaves room for the imagination because we get less descriptions and more characters and plot.

The Seer and The Inquisitor have all been given special abilities to help lead their race in the upcoming battle. **PDF Rise of the flameless** With six races four realms - including humans - there are a lot of pieces to the puzzle to keep a hold of when reading the book much like reading JR Tolkien's Lord of the Rings series. **PDF Rise of the flame broiler** Immediately after birth she is taken and hidden from her people and all those who would wish to find this girl - gifted with a power so enormous she can bring all of the realms and races to their knees. **PDF Rise of the flamenco** The world building wasn't executed very well with info dumps in the form of teaching characters who already should have known the info or having them repeat aloud things they had previously learned. **Rise of the Flame kindle store** At time it felt a little all over the place there was too many POV's there were a few main ones but I didn't really like how they slipped other ones in here and there. **PDF Rise of the flame full book** 4 out of 5 stars Fantasy Fiction Horror I enjoyed this book it's well written and a bit of a different take on dragons it is part of a series so there is more to come and I look forward to reading more of this world! Steel and Inquisitor ultimately will be the saviors or destroyers of the world of Eura. **Book Rise of the flame retardant** Lilae is our mc for most of this good and is the Flame; Liam who is Storm has a pretty big role in this book with the other Chosen having lesser roles so far: **Rise of the Flame book series** Liam's story starts to get interwoven about half way through the book and starts to give us more details on the past and what is to come. **Book Rise of the flame retardant** I think this is going to be a more character driven story but the world building was still sufficient. **Book Rise of the flamethrower** Oddly its Kavien the Cursed One that I really want to see what happens.

Shitty depiction of women in general and pretty rapey. All depictions of dudes were straight up terrible. But sufficed to say I hoped they all died. Its the type of story you get fully immersed in. I loved most of the characters in this book. They were all well written with great character arcs. The 2 main characters.

However if you give yourself over to Ms. In book one of The Eura Chronicles we meet Lilae. Everyone and anyone can become something or someone else. We are also introduced to Liam. Ms.*The first half of this book dragged a lot for me. I found the story to be a little boring at first. . somehow. No joke. At least not when it comes to Lilae. So I guess it's just too bad. She escaped. Nani is the Inquisitor. He strips her naked and bites her. He whips her. He's some kind of sadistic but case. He's a jerk to her cruelly sending her to Dragnor. He is the Cursed. I call bull. Lilae kisses his forehead and leaves for the Barrier. Note: Some swearing. Violence. Almost rape. Mild sex. A creepy sadistic Shadow Elf. A very enjoyable marathon though. I like Lilae she was clever but she's a little naive. Liam was fun and sounded like a really good leader. I can see many girls swooning over him. The good. The characters were interesting and all very different. There were lots of twists most I didn't guess. The bad. The names were just thrown out and not explained. Rise of the Flame was fairly fast paced and entertaining. Because of her hair the other people don't like her. It's the first book of K. Fantasy Fiction Horror Bad dialogue garbage plot. I can get down with that kind of slow. Not to mention she had the personality of a table leg. I can't remember one character I liked. Maybe the fairy Nani couldn't be bothered after 80%. The only thing good about this was the premise. RATING: 4. I wanted to know where Avia'Torena was located. There's so much going on. I loved the concept of this book. Nani the fairy is definitely one of my favorites. 5 stars. Fantasy Fiction Horror From international bestselling author K.N. Six races. Four realms. One human girl who can bring them together in peace. or war. Rise of the Flame (The Eura Chronicles #1).
