

Teen Titans Go! Vol. 1: Party, Party! By Sholly Fisch **Teen titans go vol 1 party party** Perfect for the younger comic fan! Sholly Fisch If you haven't watched the Teen Titans Go! series on Cartoon Network.

## **Teen titans go vol 1 party party**

Teen Titans Go! is currently one of my daughter's fan favourite ones cartoon shows and I love it too The Night Begins To Shine the rock '80s-style track that's Cyborg's favorite song in various episodes is currently my smartphone's ringtone (watch the clip here and enjoy: [https://www. Teen titans go vol 1 party party](https://www.teen-titans-go.com)) This volume like many other static comic-book adaptations from animated series was just as not good as the show that inspired it for me but stories collected here were funny at last and little Giorgia just loves her daddy reading them to her at bedtime again and again. **Teen titans go vol 1 party party** It manages to capture all the over the top sight gags and ridiculous expressions and actions of the characters which is something I was worried about when I started reading this. **Teen titans go vol 1 party party** One thing he might do with it is cut it into confetti and use it the next time Speedy does something better than him!) and DC Universe as a whole (the Riddler owns a mini golf course the Titans ruin Darkseid judges a talent show a la X factor Captain Cold is shocked when he freezes Robin solid). **Teen titans go vol 1 party party** Read the rest of this review at Comics Cosplay and Geek Culture in Libraries! Sholly Fisch JUSTICE HAS NEVER BEEN THIS MUCH FUN! Robin Starfire Cyborg Raven and Beast Boy are the Teen Titans the coolest teenage superhero team in the universe! Watch as they battle a pizza monster a video game console that becomes alive and a legion of incompetent super villains. **Teen titans go vol 1 party party** The Teen Titans are always getting into crazy hijinks like destroying a superhero themed mini golf course becoming CEOs of a Silicon Valley startup company playing a deadly game of go fish making intergalactic prank phone calls or throwing a girls only superhero slumber party. **Teen titans go vol 1 party party** ) TEEN TITANS GO! VOLUME 1: PARTY PARTY! collects issues #1-6 of the fun filled series based on the hit cartoon show on Cartoon Network featuring work from an array of comic creators including Sholly Fisch Lea Hernandez Amy Wolfram Jorge Corona Ben Bates and many more! Teen Titans Go! Vol. **Teen titans go vol 1 party party** Teen Titans Go! is is a zany madcap show with the emphasis firmly on humor and this trade collects issues #1-6 of the tie-in comic book (with each issues having two stories). **Teen titans go vol 1 party party** In fact it almost does too good a job copying the feel of the show overall - the adventures here are almost redundant since set-ups and gags are recycled with frequency in both. **Teen titans go vol 1 party party** So nothing Earth-shattering here and some of the jokes are eye-roll inducing but if you're a fan of the show and/or up for some light brainless humor there are laughs to be had here. **Teen titans go vol 1 party party** Sholly Fisch good Sholly Fisch I am watching this series (Teen Titans Go!) and when I found out it also had comics I decided to check it out and see if it was just as good as the cartoon series is. **Teen titans go vol 1 party party** At least one chapter spoils the outcome of an episode and while in that specific episode it was quite clear what happened I think it would still be a shame if you didn't watch it and later watched it and knew all about it. **Teen titans go vol 1 party party** It is great to see the characters in this format and because I watched the series (at least the first one I am still going through the other one) I could just imagine the voices with the stories. **Teen titans go vol 1 party party** In the comic/cinematic/television landscape of mostly serious-borderline-dark superhero franchises it's refreshing to be able to sit down and read something fun that isn't trying to be fun and edgy. **Teen titans go vol 1 party party** Who wants to see just how involved a game of Go Fish can be? How about what a teenage superhero slumber party is really like? What happens when a series of prank calls almost ends in alien invasion? How do you feel about constantly taking the mickey out of Robin the Boy Wonder? This comic features the heroes we know and love from the show continue being footloose and fancy-free while focusing on what they do on their off-days when not catchin' villians. **Teen titans go vol 1 party party** His comics for kids have won a Comics Buyer's Guide Fan Award and been nominated for an Eisner Award and two Diamond gem awards

while several of his stories for older readers were included in the #1 New York Times bestselling graphic novels Action Comics,

Allowing the reader to move smoothly from panel to panel. **Teen titans go vol 1 party party** With thanks to NetGalley for the opportunity to read an advanced copy of this graphic novel in exchange for an honest review. **Teen titans go vol 1 party party** com Sholly Fisch Hilarious collection of all ages short stories featuring the Teen Titans as portrayed in the latest cartoon show: **Teen titans go vol 1 party party** These stories are funny and full of hi-jinx but still keep the basic nature and relationships of the characters that are so popular: **Teen titans go vol 1 party party** Lots of superhero goodness as well with numerous bad guys including The Riddler and Captain Cold, **Teen titans go vol 1 party party** Sholly Fisch My children lately are obsessed with this TV series, **Teen titans go vol 1 party party** And when they finished all the available seasons they watched them again from the beginning: **Teen titans go vol 1 party party** And when they finished everything they have started it again: **Teen titans go vol 1 party party** My daughter keeps singing the burrito song and the hamburger song from that episode in which Cyborg and Beast Boy were fighting for the tastier food: **Teen titans go vol 1 party party** Generally we are having a Titans month because me as well watch the Titans. **Teen titans go vol 1 party party** Anyway naturally we tried to find as many books as possible based on the "Teen Titans Go!" Series: **Teen titans go vol 1 party party** Sholly Fisch My kids and I miss the 2003 Teen Titans cartoon. **Teen titans go vol 1 party party** The new Teen Titans GO! cartoon foregoes the latter opting more for irreverence and amusement rather than important morals but there's still a lot to make us laugh. **Teen titans go vol 1 party party** Teen Titans GO! volume 1 Party does a great job of capturing all that goodness—and the ridiculousness of the cartoon, **Teen titans go vol 1 party party** From crazy stories about Robin and Beast Boy's mini-putt show down to demon pizzas this has just about everything. **Teen titans go vol 1 party party** Translating an animated cartoon to a static comic book page has the potential to lose much which was the problem I had with Adventure Time Vol. **Teen titans go vol 1 party party** But unlike the latter Teen Titans GO! doesn't forget that imagery colour and movement are as much a part of the story, **Teen titans go vol 1 party party** While it does not neglect dialogue and occasional plot points it doesn't get bogged down with words I suggest you correct your error very soon, **Teen titans go vol 1 party party** This wacky show where DC parodies itself is consistently hilarious and off the wall: **Teen titans go vol 1 party party** It's a bit like company-sanctioned fanfiction for the original Teen Titans series many of us remember from Cartoon Network in the mid-2000s: **Teen titans go vol 1 party party** So you think it's awesome right? I'm glad we're in agreement: **Teen titans go vol 1 party party** Of course when I saw that there was a new graphic novel coming out I couldn't help myself: **Teen titans go vol 1 party party** Clean crisp artwork consistently funny writing and references to both the older Teen Titans show (Beast Boy and Robin have a bet; Beast Boy's prize is Robin's cape, **Teen titans go vol 1 party party** Thru all the mayhem and zanynest these friends always come out victorious (most of the time. **Teen titans go vol 1 party party** 1: Party Party! Disclosure: I received a free copy of this book through First Reads. **Teen titans go vol 1 party party** The Teen Titans are back in another version of their cartoon series (at the expense of my beloved Young Justice but that's another story), **Teen titans go vol 1 party party** Yes a comic based on a tv version of a comic book team, **Teen titans go vol 1 party party** There's no real overarching plot to the series so there's no depth to be added or mysteries to explain here. **Teen titans go vol 1 party party** Without voices music etc to jazz things up there's a spark missing here that heightens the enjoyment of the cartoon. **Teen titans go vol 1 party party** But again this is a faithful adaptation of the shows characters and humor. **Teen titans go vol 1 party party** As with any comedy it's hit or miss and entirelyly personal preference but I found a few of the stories extremely funny and a number of amusing moments throughout the trade: **Teen titans**

**go vol 1 party party** In 1 the Teen Titans would be participating in an idol show the other they are golfing. **Teen titans go vol 1 party party** It is all great fun and I was laughing quite a few times at parts: **Teen titans go vol 1 party party** It really gave me something extra and made the comic more fun, **Teen titans go vol 1 party party** The art is pretty good not always perfect but it fits the silliness of the Teen Titans, **Teen titans go vol 1 party party** The stories are all over the top so it isn't too bad that the art is that as well: **Teen titans go vol 1 party party** I still love the vibrant colours that always seem to be come with these Teen Titans be it comics or the tv series. **Teen titans go vol 1 party party** But like I said before be sure to also watch the series: **Teen titans go vol 1 party party** com/ Sholly Fisch What makes this comic a pleasure to read is identical to what makes the show a joy to watch: they're both just pure laid-back semi-anarchic fun: **Teen titans go vol 1 party party** It doesn't insist upon itself nor does it try to be anything more than it is, **Teen titans go vol 1 party party** This may sound like a backhanded compliment but there's nothing backhanded about it. **Teen titans go vol 1 party party** To make a Marvel comparison this comic is more Squirrel Girl and less Deadpool. **Teen titans go vol 1 party party** With decades-upon-decades of canon to draw inspiration from (and parody) this first volume of the new TTG comic line is well-worth reading. **Teen titans go vol 1 party party** It's full of great gags humorous stories quotable one-liners and truly unexpected references (Oscar Wilde and Hammacher Schlemmer are two): **Teen titans go vol 1 party party** If any of that sounds fun then this comic is for you: **Teen titans go vol 1 party party** But I adore Teen Titans Go! It's funny and sharp and the overload on colours and talking is right up my alley, **Teen titans go vol 1 party party** Me and my brother can watch this for days my partner has enough after one episode, **Teen titans go vol 1 party party** An overload of things but at the same time not interesting. **Teen titans go vol 1 party party** I feels unfair to compare the comic to the show but I do, **Teen titans go vol 1 party party** Sholly Fisch His credits run the gamut from Superman to Star Wars to Scooby Doo and from Clive Barker's Hellraiser to Looney Tunes.[www.BiblioSanctum.youtube.com/watch?v=uR131](http://www.BiblioSanctum.youtube.com/watch?v=uR131).)An amusing book for young readers. They have watched all the episodes. From the beginning. But the darkest version for the grown ups. I am looking forward to season 2 by the way. We will probably read the whole collection. It was fun and funny and also had some amazing messages. 1.Here's a few clips for the uninitiated: <https://www.youtube.com/watch?v=mhf1v>. For fans of the show this is exactly what you want. This has in no way influenced my review. You get used to it. Tie-in isn't a perfect description in this case. This is quite simply more episodes shared in comic form. The art is very true to show as well. I have to say this: yes it is good. However. I would also recommend that people watch the cartoon series.Each chapter/volume brings a new story.Would I recommend this comic? Yes yes I would.Review first posted at <http://twirlingbookprincess>. Teen Titans Go! (TTG) is irreverent silly and self-referential. Sholly Fisch I loved Teen Titans. It takes a certain kind of person to like the show. This comic wasn't what i expected. It felt too slow. And this fails. Only the art I adored and gave this the extra star.
