Her life changes when she meets her new art professor. Morgan knows all about loss and betrayal. These two people are drawn together from the first glance. They complete each other. But their relationship is forbidden. The attraction inevitable. Will they ever be together? I really loved Morgan. He was my favourite. Good job. 3.75 to 4 stars from me. ARC provided by the author in exchange for an honest review. English IT'S ONLY A MATTER OF TIME. Not only his either. Aspen has a balance in her life. Morgan has just recently moved back to California. He hasn't been back in over 5 years. Morgan was who I didn't connect well. I wanted to see him grow like Aspen does. I liked that story I just didn't love it. This was a new author for me. After the first sex scene I was pretty much over them. I much preferred B. Cherry's Loving Mr. Daniels or C. Hoover Slammed to this one. It was sweet and humanized him for me. Then there's Aspens parents. The story wasn't developed enough to convince me. And there was actually no resolution to that situation. Somethings were added strictly for shock value nothing more. It's just not a fav of mine. English
