But it just was not for me. As the years progressed so did her writing style. As the years progressed so did her writing style. She hopes the same thing happens to you. It's a risky feat that even adept witches find challenging. She really does create some amazing worlds in her books. Finished it before I went back to sleep. It was a true page turner. Brennan. Good strong characters with a fun and interesting story. Good read. Paperback Did not like the story at all. I just.sigh.didn't like Jane!Well that's not entirely accurate. I did like her towards the beginning.someone (spoilers!).and those horrid things happened.insipid.at best.Also.Its written entirely from Jane's POV in the first person.It moves at speed like rocket speed in places. Blink and you missed something important. Speed readers would have to go back a time or two. I had to. Hence why I've filed it under crime/thriller. Also under darker/grittier because of what happens to Jane. All in all a good book just not a brilliant one.co.uk Amazon. Paperback
