

Her Sheikh Boss By Carol Grace

Young Adult Adoro las historias de jeques y sobre todo clichés de jefe - secretaria y esta historia me ha encantado de esas que disfrutas en un fin de semana en mi caso fue casi en 1 día. Samir esta comprometido en matrimonio arreglado con una chica de su mismo país y debe ir a formalizar el compromiso pero quiere llevar a Claudia su secretaria y mano derecha al cierre de una fusión empresarial súper importante. I just wanted to know what was going on in Samir's thoughts when it came to Claudia a bit more I guess because we sure knew what Claudia was thinking/feeling/hoping/dreaming about with Samir. There were times when I was rooting for her to just quit on Sam and then there were times I just wanted her to yell at him that she loves him! I hope that there is another story of Amina, Claudia tiene roto el corazón pues ama en secreto a Sam pero por el bien de la fusión accede a ir y ese viaje será crucial para su vida. Recomiendo muchísimo esta historia súper ligera y muy buena trama, Claudia Bradford has a secret: she's head-over-heels in love with the most unsuitable man possible—her boss gorgeous sheikh Samir Al-Hamri. And he's taking her on a business trip to his desert home, Her boss's desert proposal? Samir knows his sensible assistant is captivated by the exotic sights of Tazzatine. Her Sheikh Boss I love this book in the beginning I could not stop laughing it was funny, Romance Young Adult lame no heat Romance Young Adult

Carol Grace is the author of over 35 romance novels. In her former life she worked as a translator and an ESL teacher: She has traveled the world from Africa to Singapore for work and pleasure. Carol speaks French whenever she can and sails the seas on cruise ships, When not on deck sipping tropical drinks and brainstorming ideas for her next novel she gives writing classes: What do the critics say about Carol Grace? Carol Grace is best known for her humor witty dialog compelling characters and touching romance. Read one of Carols books and youre transported to San Francisco Bay or a ranch in Montana or even faraway romantic Italy, Wherever you go youll find love in the air by choosing a C Carol Grace is the author of over 35 romance novels: In her former life she worked as a translator and an ESL teacher, She has traveled the world from Africa to Singapore for work and pleasure, Carol speaks French whenever she can and sails the seas on cruise ships: When not on deck sipping tropical drinks and brainstorming ideas for her next novel she gives writing classes, What do the critics say about Carol Grace? The only thing that detracted some stars was I wanted a bit more of Samir to show through in the book, For most of the story we only get Claudia's POV as she's pining for Samir: Samir keeps things professional and gives every indication that he's not interested in her that way until the end. I was missing just a little bit more of that connection a little bit more of their attraction to each other play out. This book is clean the most they do is kiss (3 times?) which wasn't the problem, Romance Young Adult I don't know if it's just me or they really don't have chemistry, I guess I really expected a lot from this book since it's one of my favorite tropes - the secretary-secretly-in-love-with-her-boss. But the build-up of their story was too slow and there are too many unnecessary scenes between the H/h and nowhere near as many

emotions as they should have. Romance Young Adult I thought this book was good but for me it was predictable: When the sheikh and Zahara cancelled their wedding I knew that Sam would get together with Claudia, The author did do a great job of really making you feel how Claudia felt. I would like to see her get a happy ever after ending. Romance.

His secretary's secret. In his desert oasis he sees Claudia in a new light. Spirited and fun she makes him feel alive. But Samir's always vowed to only marry for duty. These two people were meant for one another. I did not want to put the book down. Its a tough job but somebody has to do it. It's a tough job but somebody has to do it. Romance Young Adult 3.5I enjoyed it. As in none. Na-da! I am disappointed really. It was honestly promising. So I guess this book just wasn't for me. Romance Young Adult.
