

Theories of Human Learning: What the Old Man Said By Guy R. Lefrancois In fact professors familiar with previous editions of this book may conclude that he is related to those extraterrestrials Kongor and Kro who so successfully guided students through the maze of historic and current theories that help us understand how humans learn. **Book Theories of Human learning genie** Both a serious academic text and a delightful story this book offers a clear readable look at a full range of learning theories-from behavioristic to cognitive-examining memory and motivation and concluding with a comprehensive synthesis. **Book Theories of Human learning center** And wise as he is the old man does the job even more effectively than his predecessors in this Fourth Edition of THEORIES OF HUMAN LEARNING: WHAT THE OLD MAN SAID, **Theories of Human learningview app** Its most apparent strength is its easily accessible style but its greatest value lies in the clarity of its concepts[1]

The old man isn't just anyone. Theories of Human Learning: What the Old Man Said.
