

## Promise the moony harry

I loved Dell on the first books and I am so glad that Edwards gave her her own books! This book went deeper into pack life as a female and Dell's background growing up and pack life as a submissive to being the pack's second in command. **Promise the moonzz** I would definitely recommend this book especially because it continues the storyline of the first- This is a winner on my book shelf and cannot wait to get my read on with the following books!! 263 Ohhh my dear GAWD. **Promise the Moon paranormal** I guess I'm trying to say that stepping into Dell's head as she attempts to keep the Lorimar pack doing their thing while the alphas are off playing nice with the conclave makes me happy. **Book Promise the moonlight** But know before you read this book it's helpful if you read the Black Dog series then the Gemini series then this series as they are all part of the same world with some of the same characters. **Fantasy Promise the moonlight** 263 Hailey Edwards has crafted such a sympathetic heroine in Dell I just want to surround her in bubble wrap and protect her poor fragile heart until it finally has a chance to heal. **Promise the Moon pdf download** The book was feel good emotion dump with some supernatural stuff going on bogged down in too much peopling and way too much on the day-to-day workings of a wolf pack and then sprinkle a boring love triangle. **Promise the Moon paranormal book** All the assertions and zero enforcement of boundaries no healthy coping mechanisms and just "sis fix your crap!!!" I do respect and commend writers who write for their own eyes or build worlds they find comfortable I do. **Book Promise the moon and stars** However when they intend to publish I wish they'd use more complexities or make an effort to pique the interest of other readers and open the world more for others to enjoy. **Promise the moonzz** She's one tough cookie Beta of the Pack hurting since she is estranged with her mate and really taking on too much plus she's been burned one too many times in the past. **Book Promise the moonlight** I'm reeling from the ending or should I say it leaves you wanting more NOW!! I enjoyed Promise the Moon and look forward to more and seeing what will happen next for Dell and the Pack. **Promise the Moon pdf converter** 263 Promise the Moon Gemini By: Hailey Edwards Narrated by: Brittany Pressley Lots of layers of issues in here! Very interesting! Fae are being kidnapped and the shifter pack is getting the blame. **Book Promise the moonshine** What they find is very dangerous and unexpected! Great adventure and mystery besides all the other issues going on that kept me listen! Great book! Narration was excellent! 263 Review to come. **Promise the Moon pdf editor** Even if that means playing nice with her ex Isaac the fae who savaged her wolf's soul and Enzo Garza the flirty witch who ought to be focused on building up their magical defenses instead of tearing down the walls around Dell's heart. **Promise the Moon fantasy 5** Promise the Moon (Lorimar Pack #1) Hailey Edwards writes about questionable applications of otherwise perfectly good magic the transformative power of love the family you choose for yourself and blowing stuff up. **Promise the mooncozy** Please email her via her website: {site\_link} Hailey Edwards writes about questionable applications of otherwise perfectly good magic the transformative power of love the family you choose for yourself and blowing stuff up: **Promise the moonz** I mean sure I'd die in it in a heartbeat but I completely love reading about it, **Book Promise the moon by john** Even when things are all sorts of messed up I'm thrilled, **Promise the moon 1997** Isaac's reappearance into her life after loving and leaving throws her for a loop, **Promise the moonz** Enzo's nice as far as witches who tortured her packmates go but he's not the one who's renting space in her heart and there's not much she can do about that, **PDF Promise the moonlight** Things are complicated for the Lorimar pack right now and they really don't look like they'll be getting any better in the near future: **Promise the moonzycat** Admittedly one's more flirty than the other but that happens. **Promise the moonz** He gave us a few hints that there's more to him than you can see on the surface and I like him and Dell together, **Book Promise the moon by john** So go out and read everything you can find with these characters and this world and this

crazy war that's brewing: **Promise the Moon paranormal** -Kelly @ Reading the Paranormal 263 Before I say anything else let me just start by saying I read these books totally out of order. **Promise the Moon book pdf** I started with the Gemini series and read Dead in the Water first: **Promise the Moon book series** I totally skipped the Black Dog Series and to this day I have only read book 1 in that series. **Promise the Moon paranormal** I really enjoyed this series I loved the Gemini series so much that I didn't want to leave those main characters and put off reading this one for awhile, **Promise the moonzycat** But I did like it and I really liked seeing everything from Dell's point of view, **Book Promise the moon knight** I really love the misfits coming together for the Lorimar pack, **Promise the Moon paranormal cirque** She is tough as nails and she has to be as the beta standing in for the absent alpha pair of the Lorimar pack. **Promise the moonzy isaacwhy** She is juggling a misfit band of wolves new recruits financial troubles: **Promise the Moon booking** Because that's what happen when your chosen mate doesn't choose you back, **Book Promise the moonbin** Yes he comes back and obviously has some feelings for her: **Promise the moonz** What I'm not conflicted about was how much I enjoyed this book and this world, **Promise the Moon epubz air** Other than the romantic elements there is a mystery surrounding missing townspeople a rift between our world and faerie and a fabulous cast of characters in and around the pack: **Promise the Moon book series** )Be prepared for a big cliffhanger here but the plus side of reading backlist books is that the whole series is ready to inhale at once: **Book Promise the moonlight** I just don't care about the day-to-day runnings of establishing a pack: **Promise the Moon ebook download** ☐☐I feel like there are two kinds of book; there are the books a writer writes for his/herself and books a writer writes for an audience. **Promise the Moon book pdf** The pace the details the author chose to highlight the dynamics of the relationships and the focus in the dialogues all point to that: **Promise the Moon book pdf** It all felt like a world the author built for her own purposes (likely escapism) and not a world that is particularly shareable or intriguing to other readers: **Promise the moonzz** The missing person case was a side show some not-so-well-developed add-on to the dynamic: **Promise the moonzy** It felt like a cheap way to placate readers and an even cheaper attempt at movement in the plot, **Promise the Moon book summary** In other words the "crime" "mystery" "investigation" and eventual antagonist sucked donkey balls, **Promise the Moon fantasy 5** The only ultimatum and dangers came towards the end and it was too little too late. **Kindle Promise the moonbin** Still there was no true big bad to avoid nothing to root for and no one to champion. **Book Promise the moonlight** If anything I wanted to throttle the main character for having no relationship boundaries, **Promise the Moon booklet** I truly do not relish giving bad reviews especially not this one, **Promise the Moon paranormal cirque 5\*My Thoughts\*** Promise the Moon by author Hailey Edwards was originally called the first installment in the Lorimar Pack series. **Promise the moon hailey edwards** But it is now been called the fourth book in the Gemini series. **Promise the moonzycat** The Lorimar Pack / Gemini series features Dell Preston who is the Beta of the Pack, **Book Promise the moonlight** Even though it is a whole new adventure it does take place after the events of Hell or High Water which featured Camille Ellis, **Promise the Moon paranormal cirque 263** Dell is left in charge of the pack when her Alphas are called away on a meeting. **Promise the moonzycat** What's supposed to be business as usual turns out to be trickier than that when fae disapperas her ex comes back and a flirty witch tempts her with more than just his wits. **Promise the moon hailey edwards** This is going to get busy for Dell if she wants her Alphas to return to what they left, **Book Promise the moonlight** Disclaimer; I was given a free copy in exchange for an honest review: **Promise the moon 1997 263** Promise the Moon is book one in the Lorimar Pack series by Hailey Edwards. **Promise the moonz** This was a nice start to a new series in the Black Dog world. **Promise the moonzy harry** The writing is incredible she mixes characters from her other series and has way of pulling the reader into the adventure: **Book Promise the moonshine** One has always had a thing for Dell but she never gave him a chance nor did she lead him on then her estranged mate well that's complicated: **Promise the Moon pdf** But the romance or lack of takes second places to the troubles that are plaguing the Lorimar Pack: **Paranormal Promise the moonshiners** People in town are going missing and fae from fairy are

invading earth, **Promise the moonzy isaacwhy** She never fully grabbed me like so many other characters in the Black Dog world, **PDF Promise the moonlight** I read all the Gemini series; before picking up this spin-off series, **Promise the Moon booking** I got to meet Dell in that series so I have a better understanding on what's going on and her character. **Kindle Promise the moonlight** I would recommend reading the Gemini series; before this but you don't have too. **Book Promise the moon by john** I highly recommend Hailey Edward's especially if you enjoy Urban Fantasy. **Promise the Moon book pdf** You will be taken on an adventure full of action mystery suspense and more. **Promise the Moon paranormal** 5 Promise Stars\*Disclaimer: I received a complimentary copy provided by CrushStar Multimedia LLC via NetGalley with the sole purpose of an honest review. **Promise the Moon fantasy football** Tension is rising and our heroes go out to try to find out what is going on. **Promise the Moon book pdf** 263 Lorimar Pack Book 1 War is a constant threat on Dell Preston's horizon: **Promise the Moon pdf** As beta of the Lorimar pack her job is to maintain the peace on the new border between Faerie and Earth at all costs. **Promise the Moon ebook free download** Butler Tennessee is a pinprick on the map with a diverse population of supernaturals, **PDF Promise the moonshine** It's also chockful of humans who are unaware of the magical rift bruising the sky or the otherworldly insurgents raining down into their zipcode. **Book Promise the moonbin** A local fae's disappearance catches Dell's attention but she dismisses it as an isolated event, **Book Promise the moonshine** Unable to ignore the strange happenings in her town she begins an investigation that uncovers so much more than a simple rash of kidnappings, **Promise the Moon paranormal witness** Now Dell finds herself at the sharp end of a pointed ultimatum, **Book Promise the moonshine** Find the missing and return them to their families or get ready for prime time. Love a strong female lead that overcomes her past. I love this world. I sincerely love it. So happy. And things are all sorts of messed up. Dell's running on fumes. Oh and there's the matter of those missing folks. FOR REASONS. Big reasons. Buuuut we did get some flirty time with Dell's two dudes. I'm rooting for Isaac. But all good things take time. That's what I keep telling myself. Right. You'll thank me later. Promise. Don't get me wrong. Dell is no wilting flower. and a broken heart. Your heart breaks. We met Isaac in the earlier Gemini books. He's Cam's cousin. and I want to set him on fire. Dell loves him so much and he DOESN'T PICK HER. But dammit Enzo deserves her more. Only. Enzo isn't who her heart wants. I am so conflicted. (Who else here loves Zed? Raise your hand. Now excuse me as I jump into the next installment. 263 Book description in one word: Boring. This book feel to me like the former. I don't know if this makes any sense. There was no true conflict build up or climax. It honestly felt like an afterthought. 263

\*Source\* Booklending.com\*Genre\* Urban Fantasy\*Rating\* 3. Cam makes a very brief appearance in this story. \*Full Review @ Gizmos Reviews\*<http://gizmosreviews.blogspot.com/201>. Great addition to the series love Dell and her capabilities. PNR action suspense and fluff in a great combo. It's fast-paced non-stop action and adventure. Ms. Edwards is a remarkable author. Promise the Moon is a spin-off. Dell is introduced to us in the Gemini series. This story is in Dell's POV. Some of those people from her past want a second chance. I wasn't a fan of the rival triangle. As for Dell I like her but don't love her. And last OMG.... Rated: 3. All thoughts comments and ratings are my own. Until it happens again. Botch this job and forget coming soon. The war will become tomorrow's featured attraction instead. Not necessarily all at once. That could get messy. Hailey isn't on Goodreads. Not
