Sure. Her one and only regret. Gosh these two characters. They've been through some extremely difficult years. Tyler especially. I don't even want to think what our POW's live through. What a hero to make it outside again. Tyler is determined to get Cassie to see him. To be with him. Be his. Gosh their love story might break your heart. These two characters definitely deserve an HEA. And OMG you want to read all about it. It had a different spin on the same old story. I thought this was going to be refreshing. I was sorta right. I do like Tyler and his role in this book. I think he was sweet and charming. My rating has come down to Cassie though. She was so selfish and self absorbed. It took her waaaayyyy to long to come around on that. I think this is a it's me not you on this book. Tyler is by far the best character. He is so raw and vulnerable. He has flashbacks and has deep fear. So much that you see his bravery but also vulnerability. Tyler is awesome. So strong and real. Cassie on the other hand will have you go grrr....She is selfish in the beginning. Her continual pushing Tyler away will drive you batty. Everyone believed him dead - including Cassie. She has been racked with guilt ever since. When she discovers he is actually alive she is overjoyed. Tyler deserves better. All he wants. Tyler's determined though. For him losing just isn't an option. Definitely a recommended read.

An entertaining and endearing tale. I want inside you baby. We can talk later. "Now kiss me d**n it. "Blue Cassie. They're blue. So not nice to tease me right now." Okay so her tactic was freaking brilliant. She had him by the balls and she knew it. I loved this book and Tyler. And I can't tell you. I really can't. Because absolutely anything I can say is a spoiler. And then I was sad it was over. I recommend this book. even though I really can't say all the reasons why. Romance Contemporary
