Story was a bit bizarre . Not the typical PDA formula. Slightly disappointed. Kindle Edition What was that? Apparently Gerri has changed. Moreover this isn't about mates. Not a great addition to this world. It had potential but just didn't meet it. There was very little about Natalie that I liked. There is rude or snarky and then there is obnoxious. No love spoken no mates acknowledged just ends. Don't take any reviewer's word on any book. Yeah I really said that. I read this title through my Kindle Unlimited subscription. Kindle Edition Mama knows best. That's right Gerri Wilder matchmaker beyond compare. So she's not about to start with her cousin Nikko. Recommended. Kindle Edition 3.5 Stars I enjoyed this short story. I liked Natalie. I liked her sass at the beginning. I liked Nikko. The scene with his mother truly got to me. I loved how determined Nikko was to make Natalie his. However I didn't feel it fit the world. Past these problems I liked the characters. Nikko seek out Gerri Wilde.
