

204 Rosewood Lane (Cedar Cove, #2) By Debbie Macomber Several story lines were continued & begun throughout this novel which keeps me curious but the stories were not interesting enough that I have to read the next one in the series right away. But a few days ago when I was between books I was feeling the need for something that was completely an escapist read especially since I've got a Sanderson book going on audio right now. Most of my same complaints about Macomber's writing are still there like the amount of telling instead of showing the way the books skip over weeks and months at a time and the fact that too many of the characters are just too afraid to commit to the person they are interested in romantically. This book ended kind of abruptly with more than one story line unfinished Maryellen's pregnancy and her relationship with Jon is the one I really wanted to see a conclusion to. Review also posted at Writings of a Reader Fiction Cooking Food Wine Romance I read this book because I read the first one in the series and was left hanging wondering about Dan's disappearance. It's becoming really annoying From the first book Olivia pushing away Jack Justine pushing away Seth Cecelia pushing away Ian and in this book Olivia still pushing away Jack Grace pushing away Cliff Maryellen pushing away Jon. It's so unrealistic is anyone capable of having a mature relationship without game playing in these books? And the men are portrayed even worse as big love struck saps that follow around the women like puppy dogs. Obwohl die Original-Buchtitel immer auf eine spezielle Adresse einer der Protagonisten verweist geht es im Buch dann nicht hauptsächlich um diese eine Figur sondern zu gleichen Teilen um mehrere. Debbie Macomber is a #1 New York Times bestselling author and one of today's most popular writers with than 200 million copies of her books in print worldwide. Then there's Jack who's been pursuing a romance with Olivia and his son Eric and Eric's girlfriend Shelly (I think she's pregnant) and Zach and Rosemary Cox whose marriage is reputedly on the skids and...Well just come on over and we'll talk! Grace 204 Rosewood Lane (Cedar Cove #2)I love Macomber's Blossom Street books and I've enjoyed many of her others as well. Instead we had Grace Maryellen Kelly Olivia Stan Justine Seth Olivia's brother Olivia's son Charlotte Jack Jon Eric Shelly their twin boys Todd and Tedd Zac Rosie and their kids Allison and Eddie Janice and her son Chris Bob and Peggy Beldon Troy Davis the sheriff Roy and Corrie. I can't say much more of I'll give too much away but definitely pick this read up after you read the first one! Fiction Cooking Food Wine Romance Another delightfully sweet and saccharine serving from Cedar Cove. A nice way to spend a couple of days light reading is nothing to complain about! There are various storylines in the book and a few of them are unresolved at the end; it is a small-town-life-romance-chick-lit-soap series after all! Nevertheless the good news is that librarian Grace Sherman gets answers to her husband of thirty-five years Dan's disappearance that had us wondering in 16 Lighthouse Road. And they are about to get even more crowded when Jack's previously estranged son Eric stops by...for how long? And how about Olivia's ex Stan?Then there is Zack and Rosie Cox accountant and stay-at-home-mom respectively; married seventeen years they are stumbling toward a split. I do like the author's comment on the fact that once couples become financially secure they can drift apart - pulled by varying interest and demands - and lose that sense of being partners

against the world,

RTC Fiction Cooking Food Wine Romance This book reminds me of a reading soap opera, I read the first book 16 Lighthouse Road and enjoyed it but I wanted to know more about Grace and her family which lead me to read this novel, I had hoped that things would be cleared up about Dan and why he left but nope, I'll pick up book three eventually maybe when I need to take a break from the intense paranormal novels that are my usual reading: Fiction Cooking Food Wine Romance After finishing 16 Lighthouse Road I had put this series on hold for a while because I wasn't sure if I would ever want to revisit it. I saw these on my Kindle so I decided to give the series another try and I ended up completely engrossed this time. And also once again there is the couple who is having marital problems. I just wanted to hit them both over the head! Also Maryellen I can hardly stand her right now: But despite all of that I liked this book for what it is an easy read about people in a small town. Poor Jon she really mistreated him! and that annoyed me a little but it also drew me right into the next book which I'm sure the author did by design, I will read the next one in the series too because this one leaves you hanging as well: I'm seeing a trend in these books that will probably make me stop reading after the next if it continues, What really bothers me is Macomber's portrayal of all the female characters: It seems like every single female fights with herself over feelings for men and pushes men away and they all appear to be naive and childish with their emotions. No matter how many times the women reject them or push them away they just keep coming back for more swooning over everything the woman does, Fiction Cooking Food Wine Romance 35

SterneRosenträume führt uns einmal mehr in die beschauliche Kleinstadt Cedar Cove im Nordwesten der USA: Somit werden in den folgenden Teilen dann auch die Geschichten mehrerer Figuren weitererzählt was ich sehr begrüße. Der 'neue' Trend bei solchen Reihen ist es ja Standalone-Romane zu schreiben und da kommen die anderen Figuren (fast) immer viel zu kurz, Die Geschichten an sich drehen sich im Grunde immer um Beziehungsfragen, Werden aber keineswegs nur rein aus der weiblichen Sichtweise geschildert - auch die Männer kommen hier 'zu Wort'. Für mich am interessantesten war tatsächlich die Geschichte um 2 neue Figuren: Rosie & Zach und ob sie ihre Ehe nochmal auf die Reihe kriegen oder nicht: Auch das Verschwinden um Graces Ehemann Dan wird aufgelöst - diese hat mich allerdings etwas enttäuscht da hätte ich mir mehr erwartet: Insgesamt ist es eine Buchreihe die ernste Themen anspricht und keineswegs voller Jubel Trubel Heiterkeit ist aber dennoch eine gewisse Behaglichkeit vermittelt. Das geht allerdings auch ein bisschen auf Kosten der Spannung: In her novels Macomber brings to life compelling relationships that embrace family and enduring friendships uplifting her readers with stories of connection and hope. which inspired the Cedar Cove series: [{site\\_link}](#) Grace Sherman204 Rosewood Lane Cedar Cove Washington Dear Listener If you've been to Cedar Cove before we've probably met: You can usually find me either at home or at the public library where I work: I've lived in this town all my life and raised two daughters here, But my husband and I - well about six months ago he disappeared. Where's Dan? Why did he go? Who's he with? Will I ever find out? My hometown my family and friends bring me comfort during this difficult time, For instance everyone's been discussing weddings and babies lately, Justine - the only daughter of my best friend Olivia Lockhart - impulsively got married a little while ago: Unfortunately she refuses to accept that Dan might not return to see his first grandchild, I think she's seeing a new man but for some reason she won't tell me who it is: Unfortunately I can't say that this book was a particularly good read for a number of reasons: 1: One page later the two characters are watching the sun setting over the water: A lot of time lapses between events and we're never given details. I realize this is a series but everyone does not have to be introduced in one book: Rosie was neglecting her family and not once do we see her think about that, Zac had issues with communication for sure but he was in the right about her volunteerism. Never once did she consider cutting back on her volunteering though: Why not? Seems she might have given it some thought at least once, Instead she decided that he was wrong to expect her to cook a meal once in awhile and she decided with zero evidence that he was cheating on her, So you were hurt in your first marriage so you have regrets, How old are you two? 12? There's no reason Eric moving in with Jack should have come between you. Keep your regular Tuesday night dates learn to schedule your lives for God's sake: And learn to pick up the phone and talk to each other: I will continue reading the series but I really hope Macomber gets a grip on her characters and dials it back a bit as the series continues, Fiction Cooking Food Wine Romance This was an enjoyable read: The second instalment to the Cedar Cove series and I really enjoyed it, It is nice to see how the characters from the first book are doing while also being introduced to a new couple Zachary and Rosie, The story made me laugh and I am glad that we find out what happened to Grace's husband: Debbie Macomber really has a way with her stories and I can't wait for 311 Pelican Court, Fiction Cooking Food Wine Romance Well this is the second book from the Cedar Cove series and I must say this is a great series of books: I love the way that you aren't just tied up with one heroine/hero. You have several (just in case you aren't thrilled with one of their lives turn the page and there's a new story line). Starting off in the beginning the book pretty much starts off where 16 Lighthouse Road left off. You have most of the same characters as well to follow from the previous novel: I loved the stories and interactions between all of the characters in the book: I love how they live in this small town and everybody pretty much knows everybody and no one's business is a secret: The positives to this series is that they are very wholesome and non challenging reading: Not all reading needs to be of the literary type! It takes all types to make the world go round'. There were a couple of characters I wasn't loving in this one Zach and Rosemary who were divorcing and this scenario wasn't realistic to me at all. These stories are a little humorous to me in the simplistic way they weave from one family to another they are very predictable. Debbie Macomber has splashed some mystery into this one an answer from book number one and a new one for this offering, What is Olivia up to considering her ex again or just playing hard to get?! I'll find out soon, Warning: Don't study the red legend too carefully there are spoilers there. In fact maybe I should just tell you a few locations critical to the story:  is the home of Zack and Rosie Cox and  is the bed and breakfast/home of Peggy and Bob Beldon, If you just click on the pic instead of the hyperlink it should take you to a larger pic where the legend is still too blurry to read, The narrator Sandra Burr again does a wonderful job of bringing Ms. Macomber's characters of Cedar Cove to life in this second book of the series, Sometimes it is difficult for a female to do the male voices but Ms, Burr is great putting a different inflection on each voice in a nice way and adding a touch of subtle humorous tone in the appropriate scenes: Grace has her new golden-retriever sweet little "Buttercup" (isn't that a Gilbert and Sullivan song?) and interested Cliff Harding to help her through it all. We are updated on Justine and Seth Gunderson's marriage weeks after their elopement as well as on her grandmother Charlotte: The skittish divorcée Maryellen Sherman an art gallery manager

and Grace's oldest daughter has a love interest in Joe Bowman a chef by vocation and photographer by avocation, Oh what a tangled web we weave...and that's all I'm going to say on that, Judge Olivia Lockhart and newspaper reporter Jack Griffin are discovering their feelings for one another and their relationship: Both are worrying over the same thing - about not being with each other enough; however they both have so much on their crowded plates: Their arguments and disagreements are doozies as both parties have valid points: Macomber does a wonderful job of conveying how an argument can spiral out of control, I had to wonder if DM is going to be a bit cliché here and lead us down the neglected man path - comforted by the ever efficient office assistant: There is plenty of life going on in this little town: babies secrets arguments and romance. Some of it will have to be resolved in 311 Pelican Court. I'm ready for a listen! Fiction Cooking Food Wine Romance.

. I am as unclear as before. All I know is that Dan is dead. They were not really that fun to read about. Some of them are endearing and others are annoying. I got my escapist read and I'm satisfied. It's getting to be annoying. Da gefällt mir Debbie Macomber's Herangehensweise viel besser. Fifteen of these novels hit the number one spot. Fifteen of these novels hit the number one spot. Just...disappeared. Comfort and a sense of shelter. I'm continually reminded that life can and does go on. My own daughter Kelly recently had a baby. My older daughter Maryellen is more realistic. Inconsistencies. In one scene it is mentioned that it's nearly 9 p.m. at night. At 9 p.m. at night? That would not happen in the Pacific Northwest. I'm from there the sun sets much sooner than that. She tells us things rather than shows us.2. There are way too many characters in this book. She needed to dial it back and concentrate on a few. I'm probably missing a few. It was an insane number of characters for one book.3. The situation with Rosie and Zac was totally ridiculous. I was rooting for Zac all the way there. But no. OK. Insanity party of one.4. Maryellen and the situation with the baby. Really? Get a grip woman. We all do. Suck it up and live life.5. Olivia and Jack. Out of all the characters my favourite is Charlotte. She is awesome and I love her so much. I thought it was funny and witty. Overall a great read. □ is Olivia Lockhart's house. □ is Grace Sherman's house.
