

Court of Shadows (Forbidden Magic, #1) By K.N. Lee 136 This was really good and I can't wait for book 2! I will say though it's irritating for you to think a book is longer than it is only to have it end at 84% with some added content at the end. Download the epic reverse harem fantasy with dark magic spellbinding romance and heart-pounding action similar to Harry Potter Lord of the Rings and The Vampire Diaries today! Court of Shadows (Forbidden Magic #1)K. It was far too short in my opinion though we have the Fae and humans (being ignorant stupid prejudiced bigoted pains in the rear as always it seems in stories like these) servers kingdomsthe seeliethe unseeliethe veil darkness and deathlong drawn out warsseveral different races and elemental's etc. Soo much going on but but despite this feeling like more of a prequel(to me anyway) than a true first part of series (which is f a r too short (stopping at 83% to show us other things) nothing is really explained I felt like I was supposed to have been with Celeste all this time in the tower soo I too would understand the different divisions in these worldswhy exactly they were at war and what all existed and why. She meets her 1st prince an air elemental but she isn't allowed ore than a few hours with him (they met at night and go off to restless sleep alone) and a few chaste kisses on her hands or forehead when she's kidnapped which was very confusing for a whilethen returned to her new kingdom and meets and gets reacquainted two more of her princes everything kept very chaste and g rated. Then later that night of meeting her earth elemental Maxim they get very frisky in the garden but just as it getting good it fades to black and it's the next morning where she wakes up In his arms and your just given a hint that they've had lots of fun but she's still a virginunlike Stellan what sounds like he's a man whore . Anyway that was odd why ? One minute she's chaperoned and watched her virtues seeming to be closely watched when she met her air prince and she's nervous and fluttery and next she's off alone doing things we don't even get to see and spending the night w/a guy she's met betrothed or not. Not sure if I want moresince this wasn't a prequel and it wasn't very helpful or fun and despite the warning (I don't understandweren't really needednot G rated I guess but not really PG either) (better safe than sorry ?) felt way to YA for my tastes.

I wanted more! I can't wait to see what happens next. 136 I didn't really dislike this but I can't say I liked/really enjoyed it either. I didn't really dislike this but I can't say I liked/really enjoyed it either: Lee does seem to be mainly a YA author with all the warning I gotta say I was hoping for more. More world □ building: Ok.

A decade or more in solidarity confinement changes a person. They either burrow deep inside themselves or become almost desperate to live life to the fullest. She goes from being cowed in the carriage after her release to kidnapped to flirty (damned near an exhibitionist) pretty quickly with barely a hiccup in between gears. This set contains Court of Shadows and Court of Dragons which are the first two books in the Forbidden Magic series, These are not standalones and have a soft cliffhanger ending for the next book in the series: The book blurb adequately describes the storyline so I'm not going to repeat that all of that info here, There are clues in the storyline that keep you guessing what will be revealed next. Overall it is an interesting storyline and worth taking the time to read. 136 I'm a big fan of KN Lee and was pleased to receive an ARC of this book, I think this may be my favorite book from her thus far: In this book.

Join New York Times bestselling author K. Lee on a journey through Rune where magic and mystery collide: After the mages of my ancestors destroyed the barrier between the living and the dead the humans were justified in their war against my people, Then the executions began and when my parents were taken from me my life was fated to be forever changed, The future is a cold bleak wasteland and I am prepared to die, The White Tower is my home and my prison but when the queen of the fairy nation arrives to take me away I know I am destined for greater things: We've won the war but the world needs us to banish the evil that haunts us all, Their love for me is unmistakable and I must make a choice: Lee is a New York Times and USA Today bestselling author who resides in Charlotte North Carolina. When she is not writing twisted tales fantasy novels and dark poetry she

does a great deal of traveling and promotes other authors. Lee also enjoys helping others reach their writing and publishing goals: She is a winner of the Elevate Lifestyle Top 30 Under 30 Future Leaders of Charlotte award for her success as a writer business owner and for community service, Lee is a New York Times and USA Today bestselling author who resides in Charlotte North Carolina. She is a winner of the Elevate Lifestyle Top 30 Under 30 Future Leaders of Charlotte award for her success as a writer business owner and for community service. Prologue and you're already supposed to know everything: the world the map the characters and the fucking customs: You might not understand shit about the plot but you keep going with hope it will make sense at some point, 136 An interesting start to a new and sexy series! I enjoyed the fast pace and the introduction of all the different characters: It was weird some of the thoughts in Celesta 's head were repetitive and yet at the same time I felt I was learning very little. I found this very frustrating as wellmost the story is taken up just traveling from her tower prison to her new home and place in a far off land, Note: not a fan of the H's being MW's while the h is forced to be a virgin: Nervous guarded never been around a man one minute and kinda slutty but hidden from us the next, All the while we're fed all this doom and gloom and nothing is really explained or shown. I still don't get the whole nervous guarded virgin thing one minute and diving into unseen sex acts the next: Lee while I think your very talentedI didn't enjoy myself and I'm not sure I'll return, 136

I would love to give this a better rating but it felt more like a summary of a book than a book itself, I really loved the premise - but honestly you don't learn much more about the idea even by the end of the book: Who are the princes? Can't really answer that the story didn't elaborate. I guess we must just take ideas from other stories to sort that out, Which is a waste as the story just had so much promise: I wish the author would remove this book write more (as this was more of a draft) and then re-release it. 136 A small teaseCeleste has been a prisoner of war for a decade (or 11 years both are mentioned). Locked in a warded tower in the human realm her only crime was to be born into magic: With only Kala at her side she sees no one else other than the guards until the day her freedom comes. But with that freedom comes the fulfilling of an agreement that will unite the magical kingdoms of Seelie and Unseelie light and dark. The dark court is not happy about this and seeks to stop it at all costs. And to top it all off Celeste is supposed to be the greatest magical being ever born as well as the ruler of all magical beings. So far she can't even sense her magic let alone access it. While we get a little bit of the background story in this novella we don't get a real sense of who the characters are: I know this is an introduction but it seems very brief for the depth I feel the series will try to convey, What started the war? Why did the Unseelie toss Celeste's family out? I'd love some cultural references too: Poly marriages are mentioned both 1f/multiple males and 1m/multiple females but not whether that is the norm or not, Why was the human prison tower warded if humans hate magic? Tell us more about these elemental kingdoms and the beings there. There's so much more I would like to know and this feels almost more like a prequel than the 1st of a series. The plot is intriguing and I'm anxious to find out what happens nextAt times I had difficulty discerning reality from dreams states, However it was just a small part of the story and so it did not interfere with my enjoyment of it: The characters though complex left me wanting more information about them and

their backgrounds, In fact I believe that a separate book could be written about each of these characters leading up until the time that they come together: However it is not a typical cliffhanger because it does not truly leave the reader hanging merely anxious to find out the rest of the story. In my opinion this story could be told through many many volumes. Due to the unique qualities of each character I believe this series of stories could maintain a reader's interest for a very long time. It is really good so far but reads more like the introduction or set up to a book rather than an actual book itself: It was just too short and ended before it ever actually started. Other than that it was great start so I'll definitely keep reading the series. I voluntarily reviewed an arc from the author. 136 So. Many. Typos. So much potential but fell way short. I know Ms. But not just sex or violence or anything just more period. 136 3.5 stars. They are short quick reads. There is some violence and sex. It definitely kept me reading. I look forward to reading more in this series. N. Elemental. Fairy. Prisoner. I was born in a world where magic is outlawed. That's where the other elementals come in. Me three princes one destiny that binds us as one. Fire water earth and wind. Together we can restore the balance. But the choice isn't mine. It belongs to the creature who stole my soul. N. Too fucking short. Even shorter than the 200 pages announced. The book ended at 83% on my kindle. Not cool. - In serious need of some foreplay. You don't? That's your problem. - But it's pleasantly written. So. I guess it was okay. Okkkkkk. Thank you Ma. Why are the unseelie hated? Don't know that either. Zero worldbuilding - and I mean absolutely zero. The humans still hate all magic. The POV changes and the scenes are short. Especially as a couple parties in both don't seem thrilled. Also KN Lee's description of scenes is visceral. The story's ending is incomplete. 136 Would've given more stars if the book was longer. 136.
