Suspense Conrad by Anne L. Parks is a military romance. The story starts out in the war zone of Syria. There is an instant attraction between the two of them. While there they get a feeling that something isn't right. Conrad ends up getting hurt and blames Julie. She currently resides in the Washington D.C area. And drinking wine. She currently resides in the Washington D.C area. And drinking wine. Two other series are being planned. Great characters. Plenty of tension between Conrad and Julie. She chalked it up to youth and stupidity. You saved a lost wandering soul Dr. Sutton. And released him in a way that was honorable. I love reading these romances. They give hope where little to none exist. The third soul ties them together. I hope to read more in the Brotherhood Protectors series. First on his agenda: locating his four-legged best friend. Little does he know that when Dr. Doc Julie comes in to play as injuries occur.> This book is appropriate for an adult audience. I am giving this book 5 stars. Parks. Conrad Matthews was fed up with Syria and the sand. Dr. She had only four weeks left before she went home. The book is really good and keeps you on your toes. It is a great summer read to escape book. Mystery Romance Suspense.
