When they were trying candy bars together I now realize you need to take the time to appreciate the art and realize it's more serial than encapsulated. **Teen titans deathstroke** 171 OH MY GODDDDDDI'm not into graphic novels but guys this is about my baby RAVENNNNNNN!!!! 171 I'll just start off by saying this isn't Raven from the Teen Titans you know either from cartoons or comics. **Teen titans house** 5 Stars Raven is my favorite hero from the DC world (I am a Marvel fan to be honest) I remember the excitement I had when I was in middle school and I wanted to go back home to watch Teen Titans! That's why I immediately ordered this when I saw it on Edelweiss (Thanks for the publisher for the E-ARC which does not affect my opinions on this). **Teen titans kitty** It is also drawn by Gabriel Picolo who I follow on Twitter and is a fan of! I feel that rating this is a hard task because it is written by Kami and drawn by Picolo. **Teen titans beast boy loves raven book** So in short: The art is amazing is expected but it could have used a better storyline! 171 Mel [ ] [ ] [ ] [ ] 171 [ ] When I have a daughter this is the book I will read to let her know what kind of boys she must stay away from at school. **Teen titans beast boy and raven** Seriously what's the point of stretching so much to the point of killing all kinds of interest? It would have been much better as a 20 paged fast paced short read with all the paranormal elements introduced at the right time. **Teen titans house** Raven no se encuentra a sí misma después de un accidente que le causa amnesia por lo que se juega muy bien con los colores desaturados y dibujos que parecen no estar terminado a dibujos con mucho color y muy vivos cuando las emociones están a flor de piel o hay algún tipo de recuerdo. **Teen titans cartoon** No paran de suceder cosas pero no se deja de lado la introducción de personajes bien caracterizados así como un conocimiento de la protagonista y lo que pasa por su mente en todo momento. **Teen titans book series** 171 When a tragic accident takes the life of seventeen-year-old Raven Roth's foster mom—and Raven's memory—she moves to New Orleans to live with her foster mother's family and finish her senior year of high school. **Teen titans beast boy and raven** But as she grows closer to her foster sister Max her new friends and Tommy Torres a guy who accepts her for who she is now Raven has to decide if she's ready to face what's buried in the past. **Teen titans earth one** From the #1 New York Times best-selling co-author of Beautiful Creatures Kami Garcia and artist Gabriel Picolo comes this first graphic novel in the Teen Titans series for DC Ink Teen Titans: Raven. The relationship Raven had with her foster sister was also so well done and so important. **Teen titans batman** I loved seeing two females getting along and bringing each other up, **Teen titans book series** The ending fell a little flat for me but other than that I don't have much to complain about, **Teen titans book** I was honestly really impressed and found myself relating to this in a lot of aspects, **Teen titans facebook** I am looking forward to reading the next graphic novel in this series: **Teen titans starfire book** I was asked this week by a teenager why I didn't read graphic novels. **Teen titans images** In consideration.

This story follows a seventeen-year-old girl named Raven: **Teen titans raven book** She now has to start over and live in a foster home while also experiencing high school: **Teen titans cartoon** The art in this was STUNNING! I loved the grey black and purple color palette. **Teen titans batman** The illustrations were overall extremely well done and expressive, **Teen titans beast boy and raven** A graphic novel has its own artistry that I can appreciate but it's a different experience: **Teen titans easter bunny** Clearly from the foreshadowing in this Garcia plans to put her own spin on the Teen Titans as a whole: **Teen titans raven book** Her dad is still a demon trying to get into our world by corrupting her, **Teen titans house** She's an empath although I'm not sure Garcia knows what an empath is: **Teen titans raven book** She mentions it twice but then Raven's powers are more telepathic instead as she reads all her classmates thoughts instead of emotions: **Teen titans raven book** Plus there's lots of boy trouble along with a trope-y popular mean girl who serves no purpose whatsoever. **Teen titans book club** For what takes place in it it could have been edited down to half the size: **Teen titans justice league** I'll probably check out Teen Titans: Beast Boy from the library when it comes out. **Teen titans colouring pages** (The muted color palette seems to be a thing across all these DC Ink books. **Teen titans beast boy book pdf** I feel like I already know this and that Raven deserves more: **Teen titans book** This was like a story of Raven discovering her powers and origin but Raven was not the Raven I know from the Teen Titans series, **Teen titans go comic book** Smooth talker stalker and pukey and the girl just fell for him straightaway. **Teen titans fighting game** Girl your character crashed in pieces just like that! This book is one of the most super annoying reads of 2019. **Teen titans let's go** So much was hyped about in the first few pages regarding the past some unknown magic a dark world and something mysterious to come up. **Teen titans let's go** But heck once the guy appears everything is hearts and roses and yes the book is over, **Teen titans download** I don't really care about the sequel if the book is like this: **Teen titans logo** Otherwise I don't like any of the characters specially the main protagonist. **Teen titans kitty** Ok granted she is young and at an age where everything is confusing: **Teen titans go starfire** And yes something happened to her and she is struggling because of it. **Teen titans comic book** The chemistry between the characters was so aloof and not working at all, **Teen titans go season 8** 80 per cent of the book is only about 'oh I cannot remember anything' and just general talk: **Books teen titans go** Esta primera entrega de las novelas gráficas de Teen Titans guionizadas por Kami Garcia e ilustradas por Gabriel Picolo ha sido bastante gratificante de leer: **Teen titans formation episode**

La presentación de los conflictos y personajes están hechos de una manera magistral que te atrapa desde el primer momento. **Teen titans pdf** Las ilustraciones de Picolo de quien llevo siendo fan de sus dibujos en redes sociales bastantes años son una delicia. **Teen titans characters names** ¡Me ha encantado! Creo que podríamos haber conocido un poquito más de Raven pero entiendo que es una presentación y que veremos cómo se desarrolla más adelante. **Teen titans book club** Aun y todo no puedo evitar sentir que me han faltado unas cuantas páginas más sobre todo para conocer más de Max: **Teen titans free** Todo el tema de sus orígenes reales el tema del cuervo y SOBRE TODO lo del vudú en Nueva Orleans: **Teen titans academy** Como he comentado creo que la manera de introducir todos los elementos en este primer volumen ha sido impoluta. **Teen titans pfp** No solo engancha desde la primera página sino en todas ellas por su buen ritmo y te lo vas a terminar sin apenas darte cuenta, **Teen titans book series** He disfrutado me he emocionado y me he quedado pegado a sus páginas sin poder separarme: **Teen titans let's go** Estoy deseando conocer más del personaje y obviamente del Chico Bestia. **Teen titans beast boy pdf** 5 stars A YA retelling of Raven that could have sucked a lot more, **Teen titans book series** To be honest I almost DNF'ed it after the first issue because it just seemed stupid to me, **Teen titans book series** I'm not a Raven/Titans expert but nothing about this story was getting me excited. **Teen titans images** But then I ran out of shit to read so I just kept going, **Teen titans fanart** What's not to love right? Anyway in the first few panels Raven's adopted/foster mother dies in a car wreck that also takes Raven's memories, **Teen titans kitty** She ends up in New Orleans with her mom's sister and her daughter: **Teen titans go season 8** Bonds form magic happens and some of her questions get answered. **Teen titans comic book** The voodoo stuff was cool but I can't see myself going back for more of this sort of comic because it's just too teeny bopper for me: **Teen titans book** Raven remembers how to solve math equations and make pasta but she can't remember her favorite song or who she was before the accident, **Teen titans characters** When strange things start happening—things most people would consider impossible—Raven starts to think it might be better not to know who she was in her previous life[1]

I just thought that was adorable. 171 Raven's back story in graphic novel format. Dark. Great artwork. Plenty of high school angst along with the supernatural. I've had this on my shelf from a conference last year. Find Kami online at kamigarcia. It was interesting to see a bit of her backstory. She loses her memory in a car accident that occurred. Reading to me is a movie or my own visual. More theatre than escaping in a novel. At least for me. Entertaining for sure. This is its own thing. Raven is still the same character at her core though. She has similar powers. This book oozes teen angst. Raven has lost her memory and her adopted mother. The book is REALLY drawn out. Hopefully it'll have a little more substance. I enjoyed Picolo's art and the muted color palette.) 171

Actual Rating: 3. The art is perfect and I have no objections on it. A solid 4 or even 5 stars for the art. The story however was a little bit underwhelming. Toooooo cringy. I like the art style. That's pretty much it. She is always so confused and seemingly appears shallow. But the hype of the first few pages does not last long. There's a lot of dragging on in between. And I got so damn bored. It got too repetitive and nothing much was happening. The romance is so instant and assuming. The

guy seems really desperate and creepy to me. It's not romantic at all. Too superficial. The important things are very much left out. Reading this one was like it's testing my patience. And yes for no good. All it does focus on is teen drama and prom issues. Saywha?! I change my mind. It cannot be 3 stars. 2 stars. A star for the cover. Another star for the art. The rest is trash.\*\*\*Congrats on entering my worst reads of 2019. 171 Una buena inmersión en los Teen Titans. En este caso además se juega bastante con el color. Me ha flipado en ese sentido. En cuanto a la historia. y Tommy. chef's kiss. El ritmo de esta novela gráfica está perfectamente medido. Teen Titans: Raven ha sido una muy buena experiencia. 171 2. It kind of got better. Amnesia high school angst & voodoo. Eh. I'm not the target audience. Starting over isn't easy. and the darkness building inside her. Teen Titans: Raven (Teen Titans #1).
