A mom who is Betty Crocker even though she's an exotic one bores me to tears and makes me want to go out back and chug some beer—and I don't

even drink beer. **The art of leaving anna stothard** Her memoir *The Art of Leaving* is almost a companion to her book of short stories - she covers many of the same places and I recognize the sensibilities and experiences of her main characters. **Appreciating art leaving cert book** Each chapter focuses on a different aspect of her life - her father's death her military service her travels to India time spent in New York returning to Israel to learn more about her family becoming a mother etc... For being my 'jump-to-it' inspiration. I had justified my 'waiting'. I related - closely with Ayelet. Ayelet lost her father to death at age 10. I was 4 when my dad died. I related to this except . This is a rich memoir with lots of food for thought. I'm definitely looking forward to her next book. In exchange for the ARC I offer my unbiased review. The Art of Leaving<sup>3</sup>. That said I loved the chapters at the beginning and end. Each story so personal - the characters come alive. Themes center around growing up: childhood. adolescence and young adult. This was 'tons' more enjoyable than I was expecting. After the horrible news .S. The book is very smart. Joy Jar-Metaphors galore. And I mean good ones. The author gets an A-plus in this department—just wow. There's atmosphere out the ying-yang." "Lights burn yellow holes in the dark buildings." -She's a total bad ass. You just don't. - Loved the introspection. I liked her struggle to become a writer. -Loved her adventures and chronicle of her relationships. She makes everything juicy but in a quiet way. -Loved to visit different continents. She also did a long stint in India. Her life in the different countries was fascinating." -A woman in search of a home. Fascinating culture and the author chronicles it well. Way too much on daddy-poo. Sorry. There were also too many relatives to keep track of. The last chapters were especially heritage-centric. -Give me more adventure. The metaphors were truly great but they require work. Drama and dialogue are my thing. Nor does a wholesome hang-out session in the kitchen. Food replaced her words; cooking became her currency. Still I'm in a snit about the whole recipe thing. -Motherhood oh dear. It's just that sometimes we like to relate. Final word: Not enough people know about this great writer. Check her out! Thanks to NetGalley for the advance copy. Tsabari was born in Israel to parents of Yemeni origin. Her father died when she was 10 years old. I highlighted so many passages and shed too many tears. She does this in a way that is genuinely her own. The words and images she uses are beautiful. Her metaphors fit naturally into her writing. They are utterly original and creative. This is a book and author I will not forget. I look forward to future books by her. 0812988981 3. The descriptions of food and place were lovely. The Art of Leaving is the story of that search. It is raw gutsy and honest. 0812988981
