What a wonderful Book. Mr. Who is Ethan Hale> He's Hollywood's latest heartthrob. He's arrogant and pushes all of her buttons. The author will take you on an amazing journey. 2 Thumbs up for a great book. This book had it all. Unfortunately Nova and Ethan are about to become stepsiblings. Sounds like a line that shouldn't be crossed right? Wrong. So, so wrong. Nova Sparks is a small town girl from Montana. Then there's Ethan who is a professional actor. He's hesitant about meeting Nova and her mother. However once he meets Nova. The smut and sparks was good. but it also made things super complicated. Whether it was work or family related. things kind of went too far too fast. However it also made it a bit more annoying. Overall I loved their relationship and how they handled things. the only thing they still cared about was them. By fate really and they got their happy ending. It was cute funny and kind of hot. This book was so much fun. It was light and fluffy and adorable. Definitely recommend. Ethan really seems that way in the beginning. The banter and chemistry these two share is extraordinary. Makes me want to concur my fear of flying. I love Logan Chances work. He never disappoints. A SUCCESSFUL LIFE IS A HAPPY ONE! So very true. She's a hairstylist and part time local tv personality. She's just the sweetest girl all around. She has dreams to make something of herself. He's gorgeous arrogant and goes after what he wants. Who he finds very attractive and intriguing. Ethan's life is about to become complicated. Ethan and Nova are off the chart chemistry wise. But oh my the story. It's sooo good. Bravo great job. facebook.com/loganchanceauthor {site_link} www.
