It just doesn't fit in with the theme of the anthology:Crossroads of Opportunity - Doungjai Gam & Ed KurtzThis story didn't start out the book with a bang for me. **Lost highway soundtrack tracklist** Where the Wild Winds Blow - Matt HaywardI really liked the premise in this story (although I was a bit disappointed that Tony didn't get his comeuppance) but the thought of something making you see/relive your (presumably) worst moment is freaky as hell. **Lost highway soundtrack** Favorites include: A Life That Is Not Mine Not From Detroit No Exit Jim's Meats Requital That Pilgrim's Hands Do Touch Outrunning The End Motel Nine Room 4 at the Haymaker then over the road with their own truck. **Epub Lost highways** I do find it interesting that most horror themed road stories take place on deserted country roads usually at night (personally city driving scares the bejeesus out of me having to switch lanes like some demented game of Frogger). **Lost highways alkemia** The stories in this anthology all have elements that were very relatable in their mundane simplicity that once or twice after I'd finished the book I'd find myself in my car on the road or flicking on the car stereo and I'd have a momentary and uneasy flashback to a scene from one of the stories. **Literature Fiction Lost highways crossword** The book opens with by "Crossroads of Opportunity" by Doungjai Gam & Ed Kurtz which had an unsettling Tales from the Crypt vibe that had me actually checking the back seat of my car before driving off just to make sure I had no unwanted passengers. **Lost highway rotten tomatoes** Rarely are so many of the stories in a collection all on point but these just came together really well and some of the more speculative stories still have me lamenting and pondering the end and wondering. **Lost highways alkemia** His most recent novel is POUND OF FLESH and other novels include BENEATH ASH BONE and BLOOD SAVAGES: A Blackguards Novel (Book 1)As an editor he most recently curated the anthology Bram Stoker Award nominated LOST HIGHWAYS: Dark Fictions From the Road from Crystal Lake Publishing. **Lost highway underrated** He also co edited THE SEVEN DEADLIEST as well as the Lovecraftian horror anthologies SHADOWS OVER MAIN STREET Volumes 1 and 2 and also GUTTED: BEAUTIFUL HORROR STORIES from Crystal Lake Publishing. **Lost highway patricia arquette** His most recent novel is POUND OF FLESH and other novels include BENEATH ASH BONE and BLOOD SAVAGES: A Blackguards Novel (Book 1)As an editor he most recently curated the anthology Bram Stoker Award nominated LOST HIGHWAYS: Dark Fictions From the Road from Crystal Lake Publishing. **Lost highways podcast** He also co edited THE SEVEN DEADLIEST as well

Occasionally I am privileged to read a novel novella anthology or single-author collection that leaves me thinking I have insufficient capacity to praise highly enough; a book which instills high awe at the creative power of writers and editors. **Lost Highways ebooks online** There were a few stories that really shined above the rest but when I think about the past books I've read there simply haven't been this many enjoyable short stories in a single anthology. **Lost highway streaming vf** Lansdale's Not From Detroit and Rio Youers' The Widow) who have reached into the darkness of the highway a darkness that travels upon the road beside you or maybe follows behind you just a bit too close for comfort or hides just off the exit or in the woods beyond the stretch of road hoping for some unsuspecting soon-to-be victim to come their way. **Lost highway yify** Two writers doungjai gam (writing with Ed Kurtz) and Jess Landry managing editor of JournalStone make their fiction debuts with Crossroads of Opportunity and The Heart Stops at the End of Laurel Lane respectively. **Lost highways kindle uk** Throughout Lost Highways there exists certain plays on a theme particular notes that are reinforced thanks to Ward's organization of these stories and elements that are echoed in various and striking ways across the book. **Lost highway nitty gritty dirt band** Yes there are stories of cannibals and killers of urban legends and people grappling with madness but it's the overwhelming amount of heart that resonates and overlaps the stories here creating miniature story arcs of emotion that are strengthened or that chafe against one another. **Lost highway van conversion** Kristi DeMeester's A Life That is Not Mine is an excellent story of madness but it's all the things that aren't on the page that ring the most true and provide a powerful examination of depression and self-destruction. **Lost highway media** The Widow by Rio Youers takes a similar tack but one that is strikingly different as his protagonist Faye grapples with the roadside death of her husband and stumbles upon a centuries old supernatural mystery while those around her constantly worry about the state of her mental health. **Lost highway uhd** Owen hit a lot of sweet spots for me with her story of a wrong turn gone seriously awry and one character's early mention of the film Deliverance provides a glimpse of where things are headed. **Ebook lost highways pdf** Speaking of movies it feels safe to say that Matt Hayward found some inspiration from John Carpenter and Stephen King with his story of a roving fog that demands the worst memories of those that drive through it. **PDF Lost highways** Where the Wild Winds Blow ends on a satisfying note that makes one's imagination run wild at the prospect of what comes next and I certainly wouldn't mind it if Hayward opted to explore this story further somewhere down the road. **Lost highway saloon** Lost Highways is also notable at least for me in presenting a return to prose fiction from Rachel Autumn Deering who depicts one of the most honest stories of heartbreak I can recall in Dew Upon the Wing. **Lost highways alkemia** Of particular note too is Cullen Bunn a scribe best known for his work in comic books particularly his Bram Stoker Award-nominated Harrow County whose Outrunning the End makes a nicely apocalyptic short story involving a man on the run chased by demons both personal and otherwise. **Lost highway soundtrack** With a line-up that includes a number of outstanding authors like Jonathan Janz Bracken McLeod and Damian Angelica Walters and a number of strong works from its lesser-known and debut contributors it's truly hard to go wrong. **Literature Fiction Lost highways** Just make sure you've got enough fuel in the tank - you don't want to have stop at some small Podunk gas station late at night in a place you've never heard of or stall out alongside the road your cell phone's signal mysteriously lost with no help in sight, Wayfaring terrors and haunted legends about which seasoned and road-weary travelers only whisper. **PDF Lost highways** Tales that could only be spawned by the endless miles of America's lost highways. **Lost highways van** Lansdale —
