

Viper (Isles of Storm and Sorrow, #1) By Bex Hogan **Viperztv** Bex Hogan Headlines:Fast-paced pirate-y high jinksYA with brutal events descriptive goreTrust issues on trust issuesHooked from the first few pages Viper plunged me into the world of Marianne daughter of a brutal sea captain dictator and killer. **Viper snake** There were plenty of good guys too but I'm not going to mention any of them by name because its much more fun not knowing whose a double crosser and whose genuinely good ;) I'm looking forward to the next book and seeing where Marianne goes next on her journey. **Viper kindle app** I hope its as fun an adventure as this one!!*** Thank you so much to the publisher for a review copy in exchange for a fair and honest review *** Bex Hogan Darkness has me in its unrelenting grip. **Kindle viper valorant** She was soft and weak hating all forms of cruelty and often put her own life at risk because of her unwillingness to cause someone else harm - even if they were trying to kill her. **Kindle viper car** I probably wouldn't have minded so much if she wasn't always saying that she was going to stop her father and his crew to put an end to his violence - she talked a good game but when it came to delivering she would choke and almost get killed. **Viper mini** We see glimpses of each isle and are told about them in little pockets of info dumping but not enough time was spent on any of them for the beauty of the details and history to take form. **Viper sunglasses** If you're going write about a murderous evil captain then he needs to behave as such and there was no shortage of death and violence here which was very fitting for the theme. **Vyprvпн** Ксеню - сказали б мені ці хтосі - уяви там на піратському кораблі майже ніколи не сходячи на землю росте дівчинка а батько в неї - піратський. **Viperngecko** король а з неї ростять убивашку а вона не хоче вбивати бо хоче бути цілителькою кароч все таке бах-бах шабелькою махнули сліди прадавньої магії розшукали політики додали на незнані береги ступили вжух хряць. **Viper fantasy 5** емансипація самовизначення боротьба за справедливість все на місці ну то й що що Обрана ну то й що що любовний трикутник хто в нас без гріха га?. **Viper mini** Внутрішній голос героїні просто не дає читачам шансів про щось здогадатися самим ну там два і два приплюсовати - це надто велике навантаження зараз ми вам все розжуємо проковтнемо ще й животика помасажуємо а то раптом за п'ять хвилин не перетравиться. **Viperx download** І несміливо відредагований переклад що дбайливо береже деякі артефакти оригіналу (скажімо манеру писати все що можна й не можна з Дуже Великої Літери) відправляє і без того захмарний пафос прямісінько в космос: There were a few other characters scattered around but they just filled stereotypical fantasy roles. **EBook viper lineups** Like the cruel father who was hiding a secret of her heritage (a secret that was made very obvious so it wasn't much of a plot twist when it was finally revealed): **Fantasy vaporwave** There are a few time skips and it went in a new direction every few chapters which just meant I struggled to really get into it. **Viper kindle cloud** There was so much travel and so many new places introduced that I couldn't really absorb them all before we'd moved on to a new one: **Viper kindle direct** It seems like it just popped up whenever it suited the storyline with virtually no explanation.

Book of hours viper egg

Spoiler free! I really enjoyed this book: **Viper fantasy 5** I liked the main character she is strong determined and makes right decisions, **Vyprvпн** I liked the plot which was full of pirates murder and action and constantly moving: **PDF viper valorant** There was a great villain and I loved the Sea Serpents! The book is written good and the romance was also ok (though not my favorite part). **Young adult depression treatment** So overall I didn't really have any main complaints or annoyances: **Viper car** Why this book didn't get five stars though was because it wasn't the most original book I have ever read and thus it is a bit predictable: **Fantasy verkehr** Furthermore I wished I got a little more of everything: more world characters magic information of the western islands (but that is probably because I liked the book so much): **Viperztv** Her life was pretty miserable but she'd learnt the art of survival mistrust and battle skills. **Epub viewer** A lot happened in these pages plenty of twists and turns and it was the kind of book that didn't break pace but it

didn't make me exhausted by that fact, **Vyprvpn** For YA this was pretty graphic on the battle stakes killing and torture on the agenda: **Vipermonkey** However it fitted in well with the story the characters and plot: **Book viper** There was a time where Marianne found a family who became hers all the feels gushed over this: **Viperx download** The friends/found family built over the story connections and trust were interesting to read: **Viper chair** I am completely invested in more of this story where the magic takes the crew of the Viper and Marianne herself: **Kindle vipertek** Roll on book two! Find this review at A Take From Two Cities Blog. **Viperwave** Bex Hogan When I read the blurb for Viper I got real Game of Thrones Iron Island vibes. **Viperwave** After reading you need to mix in a whole heap of Pirates of the Caribbean a splash of Hunger Games and a big old dollop of originality and you arrive at Viper. **Viper mini** I love Bex Hogan's debut novel and the adventure it took me on: **Fantasy verb** The world she has created was interesting and well crafted each island with its own personality and landscape: **Fantasy verb** The story itself took enough twists and turns to keep you guessing and there was plenty of piratey gore to add a bit of horror to the read. **Viperz gaming** I found him equal parts terrifying and fascinating a pirate captain to rival Blackbeard himself. **Fantasy verb** If you're looking for a book with 90% of the typical ya tropes and with zero characterisation this gem if for you, **Viper kindle unlimited** Click under picture to see the goodies link THE GOODIES Bex Hogan This book was AMAZING. **Viper gas books** It was so so good and I really hope a sequel is in the works, **Fantasy vaporwave** I could write a huge review but I think I'll leave it with this: it surpassed my expectations and I really enjoyed reading it. **Vipermonkey** This quote sums up everything I thought this book would be: **Viper mini** Marianne is the daughter of the Viper a fearless and merciless captain known for his brutality and unforgiving nature, **Viper publishing** And if she is going to succeed him and claim her birthright as the next Viper she must kill him, **Epub version** I expected her to be fierce and fearless I thought this would be a thrilling and brutal battle between the two, **Vyprvpn** I did love the concept of the book and I think the whole setting with the different isles had the potential to be absolutely stunning: **Viper chair** In fact by the end I couldn't remember what each isle was known for. **Viper kindle** I also loved the piracy aspects and the sheer brutality of some parts of the story, **Epub vers azw3** Unfortunately those moments of brutality were only from Marianne's father and given that he's the fearless Viper it was nothing short of what I expected. **Viper play** One of the main issues I had with this book though was that I just didn't care for the characters at all, **Viper chair** Marianne was quite annoying with her constant moping over how terrible her father was and her inability to commit to anything: **Viper fantasy 5** The love interest Bronn was dull as dishwater and had a predictable "I had to betray you to save you" storyline: **Vipermonkey** The Prince she is betrothed to is of course which is a shame because it could've been one of the most interesting things about the story, **EBook viper remote** Sadly this one wasn't for me and I have no desire to read the next books in the series but I'm sure it'll be a big hit with a lot of readers: **Viper pdf** Bex Hogan This was definitely much darker than I was expecting and I wasn't super into that: **Viperngecko** It was pretty average for the most part and the few torture/murder scenes didn't quite seem to fit the rest of the story. **Viperwave** As well first person present tense is probably my least favourite thing in fantasy books and it definitely took me out of the story. **Viperfish** Bex Hogan Pirates are my catnip and this was one heck of an adventure, **Fantasy vaporwave** Не якби мені хтось скоромовкою переповів синопсис - вийшло б значно краще. **Viperwave** Варто собі уявити найбанальніший сценарій розвитку подальших подій і - бінго. **Viper v2 pro** Я вже змирилася з тим що янг-адалтом нипає перевертень more-dark-more-realistic і срібної кулі на нього нема. **Viper v2 pro** Але їйбо герої які отаке як тут городять зазвичай так довго не живуть. **Young adult depression treatment** Навіть якщо робити поправку на жанр така кількість фейспалмів може спричинити струс мозку. **Book of hours viper egg** Seventeen-year-old Marianne is fated to one day become the Viper defender of the Twelve Isles: **Viper snake** Corrupt and merciless he prowls the seas in his warship killing with impunity leaving only pain and suffering in his wake: **Viper kindle reader** But can she fight for them if it means losing her family her home the boy she loves - and perhaps even her life? Viper (Isles of Storm and Sorrow #1)

Squeaky clean and kind as a button. His faultless personality was boring and predictable. And I can't even remember anyone else. The storyline was quite rushed and jumped around a lot. The magic system was also incredibly poorly explained. I couldn't tell you how it works in the slightest. Overall it is a very solid read. The setting and world were phenomenal and very interesting. The side characters were all well developed and entertaining. There was brutality and heartbreak within these pages. The Viper himself was as villainous as they come. Revenge is my mistress and I will be obedient. Bex Hogan Second Book In March Fairyloot Box. Bex Hogan Darkness has me in its unrelenting grip. Revenge is my mistress and I will be obedient. It was not. In fact it was almost the opposite. Marianne was not what I expected. And honestly it just got annoying. And honestly I was just bored of her by the end. Unfortunately it was quite rushed. And I will give the author props for that. It was a good premise but just feel short for me. Review to come. Bex Hogan Охохонюшки. кгхм. Нууу. Продано. Якби не кілька але. Фабульність. Прямолінійність. Невмотивована жорстокість. Феєрична тупість дорослих персонажів. Дуже невиразний стиль. Це банально погано написано. Пардон в Космос аякже. Але пірати були так. На те й купилася. Bex Hogan He will make me a killer. Or he will have me killed. That is my destiny. But the reigning Viper stands in her way. He's the most dangerous man on the ocean . . and he is Marianne's father. She was born to protect the islands
