## **Framing of the witchk king**

A good humorous mystery. I enjoy this series. It just gets better. The plot is good. I like the characters. There is humor. Some if it provided by Wiggles the Hellhound. Tempest has her hands full. Mystery Paranormal Crime A dead warlock. A missing sister. A race against time. The problem is that entire night is a blank for her. Add to that her sister Aurora is missing. More bad news follows her sister is missing as well. This is one of those series that you wish never ends. Countless fun moments and a lot of drama. There are loveable characters to enjoy the journey with. Fantastic writing style and paced really well. Mystery Paranormal Crime It's become a bit too -- much. I'm completely let down by the Angels in this series. It's beyond humorous or just inept. It became too personal. Eh. Taking a break. May not return to the series. Mystery Paranormal Crime
