Little Mole has the brilliant idea to turn the snowball into a bear but the next bus driver who comes along sees right through the illusion and refuses to let them get on. I couldn't help but feel sorry for Little Mole (what kind of bus driver leaves a child by himself in the snow and drives off?!) but everything turned out all right in the end. Readers will have a series of surprises as the book goes on including the two riding the bus together and then the final surprise that ensures everyone will know that wishes come true. They are full of small touches that bring the entire world to life with an owl sleeping in the hollow tree Mole having a similar teddy bear to the bear he builds from snow and each bus matching its driver in design including the final bus having deer antlers.
