And they want to be left alone. Give it a try. I think you'll like it a lot. I'm thankful that the couple decided to share their story. This particular story is an example of what not to do. Their naive aspirations nearly got them seriously injured. If it doesn't feel right listen to your instincts. As usual it is beautifully related by Melissa George. A must read story for cryptid lovers. I have to say this book kind of freaked me out. I found myself thoroughly frightened. 117.
