grown-up version a magical university. **Book First Time's a charm by john** The book was certainly humorous in parts as the protagonist Mona is definitely having issues with her magic. **Fantasy First Time's a charmander** I like the other characters in the story as well and I am interested to see how the characters will continue to interact and evolve in the next installments of the series. **When did charmed start** While this is supposedly book one of the series it felt more like a prequel like it was introducing the story world with little true meat to the story. **Kindle First Time's a charmander** I don't like stories that feel like they stop in the middle of the action unless it is meant to be episodic, **Epub First Time's a charmer** That said I enjoyed the story about Mona her current and potential men and of course the kittens! Kate did an amazing job on the narration. She really knows how to bring a story to life. But here the characters don't seem so immature. And this one is RH too but it's slower here.
