

Smoke Rubber (Burnout, #1) By Adell Ryan **Smoke Rubber fiction meaning** There's a lot of comments about how impressive and different it is that Remi knows stuff about cars and Remi talks about how she doesn't own any skirts and I just found that really annoying. **Book Smoke rubberized** If you want to make your characters unique.

And Crow (sort of) pretty quickly but then they never progressed past referring to each other as a one-night stand which made the relationship seem very slow. **Smoke rubbery** This book ended really suddenly and I do wish there was a little more substance in this one but I do think it could be a really good set-up for the next part and I'm interested to see what happens. **Contemporary Smoke rubber mats** Will the secrets she hides be her undoing or will a hot street team be her salvation? They sure never got that he trained her when she was a teenager. **Book Smoke rubber** And why were Remi and Porter there when her Dad was killed? Was Porter somehow involved? I think it annoys me the most that we actually do not get a lot information about all the questions we have. **Smoke rubbery** The Characters: Names and descriptions of the persons Remi Delancy: Trenton: Barkeeper at The Crowbar hits it off with Remi the first time she visits involved in illegal car racing drives a Monte Carlo Crow: Burke aka Crow tattooed guy and friend of Trenton involved in illegal racing drives a Supra Hayes: Bumps into Remi on their first meeting outside the door of The Crowbar is friends with Crow and Trenton the nerd of the group not a big talker involved in illegal car racing drives a Bimmer Jude Delancy: Remi's older and protective brother friend of Porter dark brown eyes moved from Cali to Florida and lives with Remi and Porter great guy Porter: Jude's friend long time family business partner rapist Remi's Ex who trained her before she turned 18 to do what he likes then he slept with her after turning 18 likes to physically abuse Remi lives in with Remi and Jude cold blue eyes Remi is his plaything and he makes her life hell Troy Delancey: Father of Remi and Jude was infamous and recently deceased was killed Summery: detailed lot's of spoiler At the beginning we meet Remi she moved to Florida with her brother Jude and his friend Porter. **Smoke rubberpaws** The day in-between pass without incident but when Remi wants to leave for her date Porter again assaults her forces many finger into her and when she say no he hits her on the same cheek like the time when he raped her. **Fiction Smoke rubber mats** Adell Ryan Ever make it your life goal to stay far far away from sexy men who live and breathe vehicles? 3 Stars- It was good! Let me start by saying that I don't usually like Contemporary RH. **EBook Smoke rubber** There was enough going on that it kept me entertained and invested and wasn't full of OW/ Miscommunication drama you tend to see as the main plot points for most Contemp RH. **Book Smoke rubber band** I also have to admit that I don't know ANYTHING about cars (besides the basics everyone else knows/ needs to know to have a car) so I was a little uneasy going into this book. **Book Smoke rubber mats** I was worried I wouldn't understand half of the scenes but I was pleasantly surprised! Most things mentioned you don't need to understand to understand the story (although i'm sure having knowledge of this enhances reader experience) and some of it can kinda be understood through context clues and basic dialogue. **Kindle Smoke rubberwood** If all these guys are noticing her bruises why the hell isnt her 'protective' older brother?? and porter is dropping read flags left right and center even in front of her brother so wtf is going on here? 3. **EPub Smoke rubberized**) there were some necessary details that slipped through the cracks for the whole 'mysterious situation' thing the author is trying to do which don't get me wrong I enjoyed a lot but there were too many things glossed over in order to keep readers intrigued. **Smoke rubberross** Like why was porter in charge of all of her dads affairs and made head of estate? I know this will probably be explained next book but it just doesn't make sense to me. **Book Smoke rubber stamps** Other than that writing was great there were little obvious errors and the plot line flowed fairly well so I would definitely recommend this book! Adell Ryan That was definitely..., She finds herself in a situation where she's going to have to make a touch choice, **Book Smoke rubberized** We also get a couple sexy times and even a little multiple player action if you know what I mean: **Smoke Rubber epub air** So I just want to address something about this book and it is mentioned in the forward of the book. **Smoke Rubber kindle unlimited** Remi finds herself in a mentally and physically abusive situation. **Book Smoke rubber mulch** If this is a trigger for you then you may want to skip this book, **EPub Smoke rubberized** It's nothing that is overly descriptive or terribly traumatizing to read. **Smoke Rubber fiction vs** It has a major part to play in the book and is there for a reason though: **Book Smoke rubber mats** Remi wouldn't be in the situation she's in if these things hadn't happened: **Smoke Rubber fiction meaning** I can't wait to see that douchewaffle get what's coming to him, **Smoke Rubber fiction definition** I have a feeling there is so much more than we even know yet. **Smoke Rubber fiction vs** And can I take a second to just say I LOVE this cover. **Smoke rubberneck** It's actually one of the things that got me about this book: **Smoke rubberross** Not gonna lie.

Smoke rubberneck

But in this case even I could feel the tension in the air and counted down until the characters acted on it, **Fiction Smoke rubber mats** 5 Stars! This was pretty good but I wish the story was a bit more self contained: **Book Smoke rubber band** I know this is a first book in the series but this feels more like a prologue in some ways rather than a first book. **EBook Smoke rubber mats** The plot was very background and mostly didn't show up until the end and the relationship is still very underdeveloped, **Smoke Rubber fiction definition** There is also a page about the content

warnings for this book and definitely read those before going in, **Book Smoke rubbermaid** I also want to say right up front that this book has some not like other girls issues: **Smoke Rubber book** Books being published in 2020 should know by this point that this kind of thing is not acceptable, **EPub Smoke rubber** It's demeaning and those kinds of comments from the love interests don't make them seem more attractive. **Smoke Rubber contemporary house** I think it will probably develop a lot more in book two but I wanted a little more from this book: **Smoke Rubber pdffiller** There actually was less plot in here than I expected and also less car racing in here than I was expecting. **Smoke rubbery** I really wanted to read a story centered on street racing because that seemed very interesting as a backdrop for a romance but unfortunately we didn't actually see much: **Smoke Rubber ebook** We know all the characters have a history of street racing and I would definitely like to see more of that in book two and maybe an actual street race as well, **Smoke rubbertite** I think I'll definitely be picking up book two because this book did leave me intrigued enough to want to read more and I do want to see how the relationship develops. **Smoke rubbery** It just wasn't (even throughout) as exciting as I thought it'd be. **PDF Smoke rubbermaid** I was expecting lots of action.

Smoke rubbertite

Stick with them or pick another as of yet unknown option: **Smoke rubberpaws** I'm still not 100% clear on what her goal has been through the whole book so I'm also hoping on some answers about that. **Book Smoke rubbermaid** She's moved into town with her brother and his bestie-also her ex-and has been going around town scoping/snooping for any signs of a racing community: **Book Smoke rubber mats** There is also some rather unpleasant circumstances revolving around her ex and his mistreatment of her so beware of certain triggers when reading this: **Smoke rubberosion** All in all I'm really hoping the next book will deliver all the action and excitement I'm hoping for. **PDF Smoke rubber mats** 75 I am only 66% in when I write some thoughts about this book down, **Book Smoke rubber band** I am still confused about the story line and what this is all about, **Book Smoke rubber stamps** I do not see any fast and furious type of things here. **Smoke Rubber epub reader** The girl know about cars and seems to know about motors or how to boost the speed of a car.

Contemporary Smoke rubber

Still he helps Remi. **Smoke rubberneck** He also calls in Hayes and have him check her mobile and her bike, **Book Smoke rubber mulch** Turns out that Porter was tracking her the whole time and knew every minute of the day where she was: **Smoke Rubber contemporary dining** Remi decides not to go home but stay with Hayes and Trenton, **EPub Smoke rubberized** Hayes and Crow follow Remi to the house but suddenly Porter is there and he has it out for the guys, **Smoke Rubber booklet** But Remi knows how Porter plays dirty while racing and clip other drivers car, **Smoke rubbertite** And to protect Hayes she takes the lead and lays out a trap for Porter, **Smoke Rubber kindle app** It becomes clear.

A street team to desire and a feisty lead female with a troubled past full of secrets to root for: **Smok rubber seal** Adell Ryan Wowzer this book took me on one hell of a HOT sexy ride filled with some crazy twists. **Smoke rubberneck** Remi arrives in the new town with her brother and his best mate who is also her ex (brother doesn't know): **Smoke rubbervloer** With her number left behind Trenton texts and from here we see things grow hotter and hotter between Remi and Trenton and then followed by Hayes and Crow in their own way: **Fiction Smoke rubber mats** Whilst also taking you on a fast paced ride of speed and hot cars to leave you wondering if Remi will fall into Crows

trap: **Smoke Rubber book** Totally a million percent recommend this mind blowing sexy hot.

Adell Ryan is a hubby/wife pseudonym, **Contemporary Smoke rubber** Adell writes unconventional love stories about fierce women and their numerous male suitors. **Smoke rubberneck** Because lets be honest we need than one to satisfy our multi dimensional needs: **Smoke rubbery lymph** Right? Ryan simply puts up with Adells crazy fantasies and toots her horn regularly, **Book Smoke rubber stamps** Occasionally hell add in a shoulder pat and a deep sexy Damn thats good stuff, **Smoke Rubber fiction definition** That southern boy (bless him) stole this northern girls heart and they live together in the deep south raising their three boys. **Smoke Rubber kindle direct** When Adell isnt writing shes homeschooling — primarily working on dictation making sure they say creek instead of crick and fire instead of fer, **Book Smoke rubber mulch** Adell writes unconventional love stories about fierce women and their numerous male suitors, **Book Smoke rubber** Because let's be honest we need than one to satisfy our multi dimensional needs. **Smoke rubberneck** Right? Ryan simply puts up with Adell's crazy fantasies and toots her horn regularly: **Smoke rubberpaws** Occasionally he'll add in a shoulder pat and a deep sexy Damn that's good stuff: **Book Smoke rubber mulch** That southern boy (bless him) stole this northern girl's heart and they live together in the deep south raising their three boys, **Book Smoke rubberized** When Adell isn't writing she's homeschooling — primarily working on dictation making sure they say 'creek' instead of 'crick' and 'fire' instead of 'fer. **Book Smoke rubber mats** Sometimes she puts the steamy stuff down and gives him a quick kiss on the forehead though: **PDF Smoke rubberized** This book centers around Remi who has grown up in the world of cars and street racing. **Book Smoke rubber mats** After the untimely death of one of the most important people in her life Remi and her brother Jude move to the other side of the country to start fresh: **Smoke rubberpaws** This means they need to learn all the secrets of the highly unmentioned street racing scene in their new home, **Book Smoke rubber band** Remi is forced to join in the hunt and that is where things start to really get interesting. **Smoke rubbery** She's stuck in a situation she's working hard to get out of, **Fiction Smoke rubber mats** They all have this instant connection to Remi even if they want to fight it. **Book Smoke rubber mats** While Remi is trying to dig out their secrets and find the information she needs she's also running from some hard truths: **Book Smoke rubbermaid** The more she learns about things in her life I never read the blurb: **Smoke Rubber book** lol I do that sometimes when I know it's an author I love and the cover just really hooks me in, **EBook Smoke rubberwood** I mean I obviously knew it had something to do with racing but that's it, **Smoke Rubber kindle cloud** It doesn't end on a cliffhanger! It sets everything up for the next book and yea we want to know what happens and what Remi chooses to do. **Book Smoke rubbermaid** But we aren't left throwing the kindle across the room b/c of some major event that left us up in the air: **Smoke rubbervloer** Don't get me wrong I enjoy a good cliffy on occasion but it's also nice to have the first book in a new series that doesn't leave us hanging. **Smoke rubberrubee** So yea there are so many good things about this book and I'm super invested in the story and the characters. **Book Smoke rubber stamps** I really feel like there are layers in this story we haven't even broken into really yet. **Book Smoke rubberwood** Can't wait for Crash & Burn to get here even if I'm a little scared by the title!! Adell Ryan I didn't have time for another ARC: **Smoke rubberosion** I already had enough on my plate combined with the other books I really wanna read right now: **Book Smoke rubber stamps** But I couldn't pass this one when it was still available when I woke up yesterday morning, **Book Smoke rubber stamps** I have a drivers license but didn't drive in over 10 years! But I started reading yesterday evening and already almost didn't wanna stop. **Smoke Rubber kindle cloud** It has a certain thrill a certain vibe that fits the scene I envision when thinking of illegal street races. **Smoke Rubber fiction vs** The love for cars AND the love for that thrill is so visible and there: **Smoke Rubber fiction meaning** And I might not understand all the details but I do understand passion when I see it. **Book Smoke rubberwood** On top of that there are a lot of amazing layers in this story, **Book Smoke rubber**

Quite soon in the story we are already introduced to the abuse our heroine is enduring: **Smoke rubberosion** I know it's a sensitive topic but the way it's described here feels very realistic and therefore raw and painful to me: **Book Smoke rubber stamps** The true star of this book however was the chemistry between the characters, **Book Smoke rubberized** I don't think I read many books where the chemistry is so well done, **Book Smoke rubberized** I could feel it so clearly while reading! It was there in every conversation, **Smoke rubbertown** I usually don't like insta-lust that much give them interesting character traits don't just talk about how they know so much more compared to all other females, **Smoke Rubber fiction definition** The relationships in this book were pretty good though underdeveloped: **Book Smoke rubbermaid** I read this book because I've been really into reverse harem romances lately and I basically got what I expected. **Smoke Rubber bookkeeping** I felt a little weird about the pacing of the relationship because it seemed to somehow progress very fast and very slow. **Smoke Rubber fiction vs** Remi met and got with Trenton Hayes racing and thrills but everything was pretty muted and so I'm hoping it will pick up as the series goes on. **Smoke rubbery** Now after finishing the book: I don't know whether I like the book or not: **Book Smoke rubberwood** On the one hand I like Remi the harem guys also the topic car racing and the protective brother. **Book Smoke rubberwood** But I did not like that there were so many things dropped without explanation: some we will get hinds at and some we will get no hinds, **Smoke Rubber fiction definition** Because after being trained from Porter being his girlfriend and the time after his rape victim and punching ball you can't effort to be this naive. **Smoke rubbery** And I think her Dad and her brother would have been on her side: **Smoke Rubber fictionmanai** And she could have leaned self defence which would have helped her with Porter and also in the men dominated field of car racing. **Book Smoke rubbermaid** So I enjoyed the relationship building the bikes and cars and Remi and her harem: **Book Smoke rubbermaid** He is a sexual predator and we get to know that Remi had a crush on him when she was a Teenager and was together with Porter after she turned 18, **Smoke Rubber fiction definition** She was trained by Porter when she was a Teenager before she turned 18 for his pleasure, **Smoke rubbertite** And he has easy access because he is Remi's and Jude's roommate: **Book Smoke rubber mulch** Jude does not seem to know that Remi was the ex-girlfriend of Porter. **Kindle Smoke rubber band** It seems that Porter wanted that kept secret and holds the secret over Remi's head. **Smoke Rubber bookworm** I am not sure because I'm writing this while I have just started reading this book, **Smoke Rubber fiction definition** Remi's and Jude's father died and they are still mourning him and haven't coped with the fact that he is gone, **Book Smoke rubber stamps** In Cali they were involved in car racing and other things around motors. **Book Smoke rubberwood** Remi's dad never involved Remi in this but the other two learned this business. **Smoke Rubber fiction vs** But they do not have a lead where they will find the people running the races. **Smoke Rubber bookkeeping** The plan seems to be to take over the racing from them (again not sure at the beginning at the book): **PDF Smoke rubberized** They promise Remi money if she can get them a lead where to find the guys: **Smok rubber seal** Remi finds out that they seem to meet at a restaurant and bar called The Crowbar and she goes there at the assumed date. **Fiction Smoke rubber mats** He is impressed because Remi ask him about a car in the parking lot and if it is his car, **Fiction Smoke rubbermaid** Also she talked in car related lingo which he really likes, **Smoke rubbertite** He is interrupted by Crow entering The Crowbar and Remi leaves money and her number in the tip jar, **Smoke Rubber book** He is wearing a shirt with several cars and she comments on it by asking him why choose? She leaves and rides home with her bike. **PDF Smoke rubber** Then they also have special ticket all indicating that Remi's guess that they are involved in car racing is true: **Book Smoke rubber stamps** Trenton comments that he is going to marry Remi and both friends had a close look at Remi, **Book Smoke rubber mats** Also we get to know that Hayes and Trenton likes to share girls. **Smoke rubberneck** After Remi get home Porter comes into her bedroom and rapes her for old times sake and he blackmails her with a secret. **Contemporary Smoke rubber band** After this Remi can't sleep and before Porter came to rape and abuse her she was texting with Trenton. **Book Smoke rubber band** She picks it up again and they decide to meet at a parking lot behind a hotel and go tho Trentons

place, **EPub Smoke rubbermaid** They have great sex but the next morning she awakes and needs to go home because otherwise Jude and Porter will come for her. **Fiction Smoke rubber band** While slipping out of Trenton's room with his clothes on she runs into Hayes. **Smoke Rubber book** She tells him that she needs to leave and shows him the keys she took from Trenton, **Book Smoke rubberized** Hayes has to drive her home because Trenton locked the keys in his car: **Smoke Rubber epubs air** And Hayes offers to show her the town and region so she ends up having a great day with Hayes, **Smoke Rubber kindle direct** Trenton already told Hayes that he can't get Remi out of his head and Hayes feels the same. **Book Smoke rubbermaid** Also he tells her that he can have her anytime because she is still stupid and naive and does what he wants, **Smoke rubbertite** (I think that nobody told Remi to do some self-defence and kick the guy in the balls the next time he tries to rape her, **Smok rubber rings** And she should defiantly tell her brother about that!)Forgot to write that she did try to get information from Hayes and Trenton about the car racing but they were evasive. **Book Smoke rubber** But the guys know that she was abused but does not want to talk about it: **Fiction Smoke rubber** On Friday she meets Trenton Hayes and Crow on the parking lot of The Crowbar, **Smoke Rubber booker** So he leaves with Porter and Porter never got the chance to find out which guys she is interested in, **Book Smoke rubbermaid** Trenton tells her to leave her Bike behind the Bar where they kept their cars, **Smoke Rubber contemporary dining** They drive to a port and Remi has a flashback of the day when her father was brutally murdered in front of her eyes, **Smoke Rubber fiction definition** But he wants to follow her where she does not want him to follow her, **Smoke Rubber fiction books** So she tells him to leave and when he is gone drive to the beach, **Smoke Rubber fiction definition** When she decides to drive back to her house she goes to the parking lot where Porter is waiting for her, **Smoke Rubber contemporary house** He wants to take her publicly and again assaults her but Crow followed her and he intervenes. **Book Smoke rubber mats** Porter tells Crow that Remi is his girlfriend and Crow feels betrayed that they are involved in racing and their club has a lot of say in their town: **Smoke Rubber kindle app** After some smexy times Remi finds a golden ticket in her pocket which people who are racing get. **Book Smoke rubber mats** But when he unexpectedly dies and the family business falls under new management I'm forced to step from the shadows: **Smoke rubberpaws** After being relocated across country they demand I infiltrate the local street racing scene find out who runs it and aid in a takeover: **Smoke rubbernose** Failing to carry out these demands will result in the unraveling of my darkest secrets... the unraveling of me, **Smoke Rubber ebooks online** Then I meet them — the men who bring light into my otherwise spiraling dark existence: **Smoke rubberpaws** And as if things aren't complicated enough they're my only leads to the underground world of fast cars and dirty money, **Smok rubber rings** There are a few series (like 5) i've really enjoyed but compared to the dozens of PNRH i've read contemporary usually falls pretty flat for me, **Smoke rubbery chicken** I also thought the relationship between the FMC and her abuser was very realistic. **Book Smoke rubbermaid** Usually for victims of abuse of any kind it is someone they know/ are close to and don't expect and it steadily gets worse and worse over time, **Smoke rubberross twitter** It often also starts out loving with quiet manipulation and then the abuser progressively gets more and more controlling which is how it's portrayed here with Remi: **Smoke Rubber contemporary furniture** I probably would've given this book 4 stars if it wasn't for a few things: 1, **EBook Smoke rubberwood**) the scene with Crow Porter & Remi at the Pier or harbor or wherever really put me off. **Smoke rubberneck** It felt a lot like victim blaming to me and that's not ok at all: **Smoke Rubber kindle books**) I would've liked to see more of her brother and their relationship, **Smoke rubbertite** No one warned me it was reverse harem though I should probably read the summaries before reading random books□ Adell Ryan 4, **Smoke rubbertite** 6 stars Adell Ryan Smoke & Rubber is the first book in the adrenalin induced-street racing-RH series Burnout. **Smoke rubbery** One of my favorite quotes not only can be about racing but also life in general: **Smok rubber seal** That line is perfect quote to sum up this book with adrenaline rush moments and fast decision making situations. **Smoke rubbery** Readers should expect ; manipulation betrayal Abuse friendship loyalty and even lust: **Book Smoke rubbermaid** There is a villain the readers will love to hate adrenaline

rush of a ride[1]

The more she's unsure of herself and her objective. I just hope she makes the right one. We get multiple POV in this book which I always love. But there are a couple scenes where this takes place. And I know that this is only the beginning. I can't wait to read the next book! Adell Ryan 3. Adell Ryan This was an OK start to a new RH series. I did struggle with getting into the book early on. Adell Ryan Pages: 310 My rating: 2. Also he uses her Dads phone number for the tracking. Porters car crashes into a pole and he is out. The other three drive to Trentons house. She also dabbles in photography and graphic design. Oh yeah and reading. Adell Ryan is a hubby/wife pseudonym.' She also dabbles in photography and graphic design. Oh yeah and reading. Every. Night. Much to Ryan's dismay. First let me say that I absolutely LOVE Remi. She is quick witted smart mouthed and fun. Yet she is carrying around some deep secrets. We have three guys in this book. Crow Hayes and Trenton. Each is different and has their own benefits and flaws. The easy banter they have with each other is great. I adore Trenton and his fun personality. This book was so much more than that though. Oh and great news for those of you like me. And I don't even know why! I'm not a car girl. I know nothing about cars. I know nothing about racing. This book is in a way an amazing car ride in itself. It's in the way the characters think and feel and talk. It's in everything they do. It's in their choices in how they spend their free time. It's everywhere. And I love a burning passion like this. It was there in every little touch and moment. It was there right from the start. There is a mild cliffy end that I'm not a fan of. And I also disliked Remi (and like her). I like the relationship building of the harem. The book is a medium burn. Both are older than Remi. Porter is a person whom I instantly did not like. He also rapes her in her own Bedroom. Jude Porter and Remi moved to Florida from Cali. In Florida they want to get back into illegal racing. When she arrives there she meets Trenton. He is the barkeeper and they talk. After leaving she runs into Hayes. Crow Trenton and Hayes are clearly friends. They have envelopes and exchange them. She needs to get rid of the Porter memories. Turns out there are no car keys. So she stays for coffee. In the evening there is a party and she hides away. Trenton calls her and asks her out on Friday. But Porter and Jude go there too. She convinces Jude not to interfere with her job. Then he persuades her to drive with Crow in the Supra. We get to know that Porter was there too. They have a good time after that at the port. Then Crow drives Remi back to her bike. And Crow thinks that Remi is betraying them. I convince myself there's no other choice. They are intoxicating dangerous and irresistible. This being said I honestly really enjoyed this series. that whole scene really made me feel uneasy. 2. Something. See that's the thing about racing. Every decision is a chance taken. Every rpm a risk. Wow just wow. Adell Ryan.
