Of course the inevitable

happened and that very evening Ingrid Superstar scored a 10 dollar bag from Lou Reed and John Cale and dragged them both back to the Factory where another beautiful friendship was formed which lasted for many years until as is well known John Cale ran over Andy in his Jensen Automatic on that fateful day in 1983 crying "So Puppet-Master I have cut my strings at last!" in flawless English. **White light/white heat free** Lou bitterly resented having Nico imposed as the lead singer and of course the world found out exactly how much he resented Nico on that fateful day in 1983 when he ran over Nico in John Cale's Jensen Automatic as she was buying a 25 dollar bag from some pitiful bum on Avenue D. **White light white heat tab** The story goes that Lou wrote a letter to Billy Graham the famous Christian evangelist asking him what God hated the most and Billy wrote back saying "sodomy heroin sado-masochism and promiscuity" and Lou immediately wrote three songs about everything on Billy's list. **White Light/White heatq** So The Velvet Underground made the famous banana album in two versions one with all the songs sung in German by Nico and the other with all the songs sung in German by Lou. **White Light/White Heat pdf** Of course the album raced up the charts and the single Alle Morgigen Parteien knocked the Stones' 19th Nervous Breakdown off the Number One spot in the Billboard Top 100 in November 1966. **White light white heat meaning** It looked like this brilliant success was going to be derailed immediately when Sterling Morrison the group's English professor and lead guitarist was found murdered on East 6th Street. **White Light/White heatups** Mo Tucker was interviewed several times by the cops and charges were still pending at the time of her own tragic death which happened in front of an audience of three thousand at the Fillmore East on 7th July 1967 when the drum set suspended from the ceiling came crashing down on her in the middle of the band's performance of Sister Ray,
