

Automate The Boring Tasks Using Microsoft Office VBA (Zoohra Non Fiction series Book 42) By Hicham and Mohamed Ibnalkadi The code is pretty basic knowing code would help you read and understand what is being shared a lot better but the author made it pretty easy to follow and even made sure when the line is moved over readers can notice and follow accordingly.

A great book to help clean up your Excel doc quickly, I've been working with Excel docs for over a year now and its really challenging trying to do your work when the list is 1000 or more items: I was able to use this books suggestions to help make my tasks faster and a bit more organized. Automate The Boring Tasks Using Microsoft Office VBA (Zoohra Non Fiction series Book 42)

.I like this e-book
