And when forgiven. Start the pattern all over again. Ariel was Mafioso karma. Giselle was a stalker. No matter how many times True told her to keep moving. She heard the opposite. True also had his issues with Mafioso bitter ass. There was not one dull moment at all. I love with authors can do that. That makes the book so much more addictive. Then there's Vanessa I don't like her at all. Mafioso was a ass that got everything that he deserved. I enjoyed True and Melanie. I think that would be nice and messy. The family situation was another thing entirely. See what you think. Markel (Mafioso) was a whole case both him and Ariel. He needed to have several seats. I would however give other books from this author a try
