Today she writes adult novels about real issues centered on forgiveness loss domestic violence and cancer in her inspirational contemporary women's fiction titles and historical series including the favorite Blessing books about Ingeborg Bjorklund and family. Pearl does come into it as a new character however she really is a small part in the book Historical Fiction Romance Western As usual slow going; but man alive stay tuned! It built to a crescendo that even visible from a distance was quite satisfying all the same. It's a reminder of how forgiveness varies among people and that we should forgive though if there are times when it is very difficult and we just have to ask God to help us to forgive and for him to forgive them so that we can Historical Fiction Romance Western

This book was a good one with the characters developing more from the first book Ruby. Since much of the story takes place at Dove House I expected Ruby (from Book 1) to be a part of the story; I did not anticipate her being a such a large part of the story. By the end of the book I was a little sick of Ruby; she was hard on her sister and those who upset her but spent a lot of time trying to justify her own sin. It was good to have her finally (sort of) come to her senses but I thought she could have grown and matured in her walk with Christ more than she did especially since she grew in so many other areas. It was a confusing plot because I kept flipping to the cover to check whether we were supposed to be talking about Ruby so much! Maybe the writer has a fixation with Ruby as a character? Pearl got probably 40% exposure and character development compared to Ruby.

They live in the Tehachapi Mountains with a Basset named Sir Winston ob de Mountains Lapcat and "The Girls" (three golden hens): Historical Fiction Romance Western I didn't think it was too bad a read, Was a bit slow to start but as I got into it I did warm to the characters, Was a little confused about the title of the book though as it suggests the book is about someone called pearl and it isn't really. The main characters are Ruby and the ladies she lives with, Historical Fiction Romance Western Excellent story about Ruby who has made Dove House a respectable hotel: She tries to raise her 11 year old sister Opal with godly values but Opal has learned some bad habits from Belle a former dove. Pearl is a school teacher in Chicago and lives in rich society with her father step mother and siblings, Her father has arranged a marriage with a man who won't say a word to her but wants her to marry him and help raise his five children, Pearl accepts a post in Missouri and teaches at Dove House: Historical Fiction Romance Western This is a decent book and

I enjoyed it for the most part but I found it a little bit harder to get into than the first book. The first book I could swear I've read before but I'm not sure when so I reread it, Not that that's really about relevant right here but just as a point of information. Anyway the ending was quite interesting and again I won't say what it is... But I like the characters in the bigger variety in stories and point of view. The story of Jed Black was very interesting and when compared with what happened to Cymarron it was also very interesting, It gave us several good conclusions for characters we have come to know and love, Historical Fiction Romance Western The book alone isn't as good as the first one on it's own but it is a good sequel/follow-up, I really wanted a different ending but it doesn't ruin the book, The interaction and story of the characters is good but the book is certainly about the journey and not the destination: Historical Fiction Romance Western This book was not bad it just was a disappointment, While Pearl was a prominent character she did not play as large a part as I would have liked. I did appreciate that many of the story lines were tied up enough that I could stop with this book and be satisfied, I plan to finish the series however since hope springs eternal that the last two stories will be better, Historical Fiction Romance Western I almost gave it two stars but since I liked the story. This book was more about Ruby than Pearl yet the prequel is called 'Ruby'. Historical Fiction Romance Western It wounds me to rate a Lauraine Snelling only 2 stars , Firstly the title is Pearl but there is a WHOLE LOT more Ruby and Opal in it than Pearl, It felt forced as if Pearl was just a vehicle to convey Ruby's storyline: Also the ending wrapped up very suddenly and rather unsatisfactorily and the next book picks up 5+ years later. Pearl's storyline didn't feel like it had enough resolution; boom all of a sudden everything is fine and dandy. I would have liked to see her storyline wrapped up better: I did enjoy getting to know some characters I have only heard of in passing such as Charlie (<3) Cimarron Milly Belle and the marquis, Historical Fiction Romance Western Book 2 of Dakotah Treasures. Author Lauraine Snelling takes readers further forward in Ruby Torvald's story as Dove House becomes a well-known establishment. .5 million. Her original dream was to write horse books for children.5 million. Her original dream was to write horse books for children. {site_link} Love this series. I'm hooked. Can't wait to get the next book. On to the next. Complications arise. The story ends with a twist. This was the best of her three books for me. I look forward to the 3rd book 'Opal'. Snelling is a good author. Makes me wonder what the book Ruby was about then. Quite disappointing. I'm curious to read the prequel though. Wonder who the main character was there. . It really does! I was quite disappointed in this one. And an unnecessary vehicle at that. Not really something I would read again. Although I wouldn't necessarily NOT recommend it
